SHOCKER X2 LED LIGHT BAR DOUBLE IMPACT

The All New Shocker X2 LED Light Bar packs two rows of our infamous Iris Reflectors with 5W ultra-bright LEDs to produce a wide and long-distance beam pattern that is prime for turning any nighttime adventure into daylight. The dual row LEDs means that we are doubling the output when compared to most of our single row LED light bars making the Shocker X2 the newest and brightest addition to our LED light bar range. Lastly, the Shocker X2 also features our smooth back-lit halo function that our off-road lights are known for This new addition to the Shocker Series is available from 304mm-1295mm lengths.

E-approved as driving light ECE R112.01.

SNAP-ON | OPTIMUS COVERS

25 LIGHTS IN 1  
WITH POLYCARBONATE COVERS

Each Light is 25 Lights In One with the help of the unbreakable polycarbonate snap-on covers that can alter the beam pattern and change the color of the Cannon. Tackle any weather condition with the proper color cover, or quickly change your spot cover to a flood cover for a wider beam when necessary.

COLOR OPTIONS

- 

**BLACKOUT | PROTECTIVE**  
Covers the fixture with a solid black protective cover with a high contrast "X" logo. Required in select states for on-road use.
- 

**CLEAR | PROTECTIVE**  
Protects light from dust, debris and particulates without changing light color or performance.
- 

**AMBER | FOG**  
Battles fog conditions by reducing the amount of blue light. Mimics classic Halogen color temperature. Great for driving in fog at high speeds.
- 

**BLUE | SNOW**  
Increases lighting distance when used in snow conditions by reflecting the blue light off the snow. Recommended for vehicles in heavy winter conditions.
- 

**RED | DUST**  
Reduces light temperature and glare back in order to enhance penetration in dust and air particulate. Ideal for vehicles in extreme dust conditions.

BEAM OPTIONS

- 

**SPOT**  
Spot covers maintain original lighting beam pattern while protecting the lens from harmful debris.
- 

**COMBO**  
Combo covers combine the distance of a spot cover with the added peripheral illumination of a elliptical cover.
- 

**EURO**  
Illuminate some peripherals while maintaining effective distance.
- 

**ELLIPTICAL**  
Reduces peripheral illumination while losing minor distance.
- 

**WIDE FLOOD**  
Maximum wide field of view illumination in exchange for distance.
- 

**TRAIL FLOOD**  
Maximum vertical field of view illumination in exchange for distance.

AMBER | FOG

RED | DUST

All prices are VAT excluded - Prices are subject to change without notice.

### COLOR OPTIONS

- 

**BLACKOUT | PROTECTIVE**  
Covers the fixture with a solid black protective cover with a high contrast "X" logo. Required in select states for on-road use.
- 

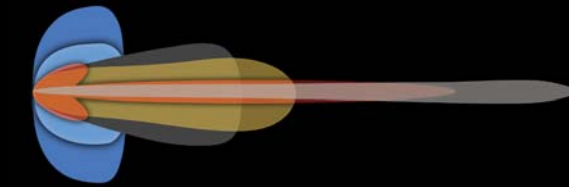

**CLEAR | PROTECTIVE**  
Protects light from dust, debris and particulates without changing light color or performance.
- 

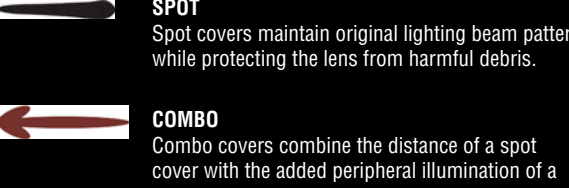

**AMBER | FOG**  
Battles fog conditions by reducing the amount of blue light. Mimics classic Halogen color temperature. Great for driving in fog at high speeds.
- 

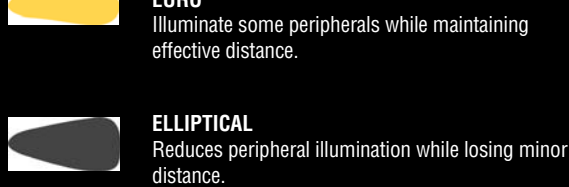

**BLUE | SNOW**  
Increases lighting distance when used in snow conditions by reflecting the blue light off the snow. Recommended for vehicles in heavy winter conditions.
- 

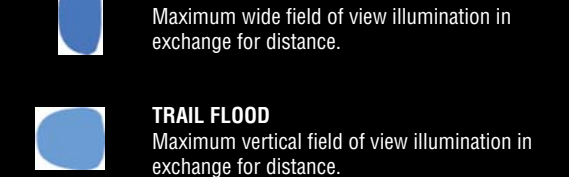

**RED | DUST**  
Reduces light temperature and glare back in order to enhance penetration in dust and air particulate. Ideal for vehicles in extreme dust conditions.

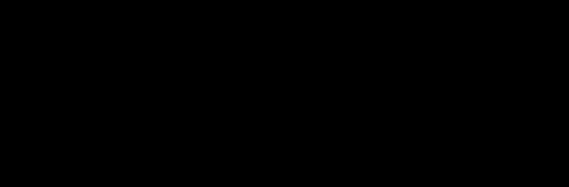

### BEAM OPTIONS

- 

**SPOT**  
Spot covers maintain original lighting beam pattern while protecting the lens from harmful debris.
- 

**COMBO**  
Combo covers combine the distance of a spot cover with the added peripheral illumination of a elliptical cover.
- 

**EURO**  
Illuminate some peripherals while maintaining effective distance.
- 

**ELLIPTICAL**  
Reduces peripheral illumination while losing minor distance.
- 

**WIDE FLOOD**  
Maximum wide field of view illumination in exchange for distance.
- 

**TRAIL FLOOD**  
Maximum vertical field of view illumination in exchange for distance.

# SNAP-ON | LIGHT COVERS

## 25 LIGHTS IN 1 WITH POLYCARBONATE COVERS

Each Light Cannon is 25 Lights In One with the help of the unbreakable polycarbonate snap-on covers that can alter the beam pattern and change the color of the Cannon. Tackle any weather condition with the proper color cover, or quickly change your spot cover to a flood cover for a wider beam when necessary.

### COLOR OPTIONS

**BLACKOUT | PROTECTIVE**  
Covers the fixture with a solid black protective cover with a high contrast "X" logo. Required in select states for on-road use.

**CLEAR | PROTECTIVE**  
Protects light from dust, debris and particulates without changing light color or performance.

**AMBER | FOG**  
Battles fog conditions by reducing the amount of blue light. Mimics classic Halogen color temperature. Great for driving in fog at high speeds.

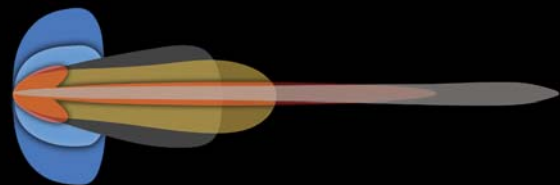

**BLUE | SNOW**  
Increases lighting distance when used in snow conditions by reflecting the blue light off the snow. Recommended for vehicles in heavy winter conditions.

**RED | DUST**  
Reduces light temperature and glare back in order to enhance penetration in dust and air particulate. Ideal for vehicles in extreme dust conditions.

### BEAM OPTIONS

**SPOT**  
Spot covers maintain original lighting beam pattern while protecting the lens from harmful debris.

**COMBO**  
Combo covers combine the distance of a spot cover with the added peripheral illumination of a elliptical cover.

**EURO**  
Illuminate some peripherals while maintaining effective distance.

**ELLIPTICAL**  
Reduces peripheral illumination while losing minor distance.

**WIDE FLOOD**  
Maximum wide field of view illumination in exchange for distance.

**TRAIL FLOOD**  
Maximum vertical field of view illumination in exchange for distance.

## 5 WATT LED

5 watt per LED and each LED has a 40° flood optic that allows for each light to produce a wide spread beam.

## UNIVERSAL MOUNTING

The single bolt mounting system allows for simple and easy placement.

Item#: **VWR050940**

# OUTLANDER **LIGHT** EASY WORK, EASY WAY

The Overlander Series LED Light offers outstanding light output in a functional design which can be easily adjusted with the single bolt bracket.

### THE RIGHT PLACE OF LIGHT

Well suited for any vehicle where you have limited space. From fog lights to roof rack, Side lights and/or as a reverse light.
