

TREK4X4

YOUR **OFFROAD** EXPERIENCE **SPECIALIST**

17TH EDITION

Welcome to the 17th Edition of the Britpart Accessory Catalogue.

This new edition is packed with **400 new parts**. Many of the new parts are for the latest Land Rover models but with plenty of exciting new accessories for the older range of vehicles too, you'll be able to personalise your Land Rover to your exact needs and wants.

Britpart also stock a vast range of repair parts, many of which are featured in this catalogue, to help Land Rover owners across the world to keep their vehicles going both on and off-road.

Photo courtesy of Jai Ashton

At Britpart we are always adding new and exciting products to our accessories range, so remember to look at www.britpart.com for all the latest additions. Also worth remembering is that if there is no picture in the catalogue of a product, then visit our website as there are plenty more product pictures online. You can also check out all the news on our Facebook page, so why not visit and 'like us' at www.facebook.com/britpart

Our commitment
to you!...

For nearly 40 years Britpart has been supplying quality parts and accessories for Land Rover users across the world. We are very proud to announce that all* Britpart parts and accessories will be backed by an industry leading **24 month guarantee.**

With a recent multi-million pound investment in the best Land Rover products and with extensive investment in new staff, equipment and procedures we are convinced this guarantee will give consumers more confidence in Britpart products. This is backed up with our approval by Lloyd's Register Quality Assurance to ISO 9001:2015.

This pioneering guarantee will cover over 28,000 parts from our extensive parts catalogue, from springs to clutches and from winches to shock absorbers, confidence in the products we supply is assured. If any part is found to be defective following an inspection by our quality team due to faulty materials or workmanship then that part will be replaced free of charge.

With this significant development in Britpart's philosophy we are now confident that the parts the end users fit to their Land Rovers will deliver time after time, whether the customer is buying a part for a Series 3 or a new Range Rover, they are backed by the same 24 month guarantee.

Look out for the Britpart Guarantee Logo which is a constant reminder to the customer they are fitting the best available parts and accessories to their Land Rover.

Now you've seen what we
look like from the outside,
why not have a look inside?

BRITPART

The quality parts for Land Rovers

www.britpart.com

A world of Land Rover parts and accessories
all under one (well several) roofs!

> About Britpart

The Marque

Britpart is the leading independent wholesaler of parts and accessories for Land Rover vehicles, supplying in excess of 1,000 customers worldwide from government agencies to trade outlets.

The name 'Britpart' is synonymous with quality parts for Land Rovers and the company has earned a truly enviable reputation around the globe. For nearly 40 years, Land Rover enthusiasts the world over have come to identify Britpart as a brand to be trusted.

BRITPART

The quality parts for Land Rovers

The Britpart logo has become a widely recognised and highly respected marque; it embodies excellence in the field, both in quality and commitment to meeting the needs of the customer.

Products

Britpart has always reacted swiftly to the demands of the parts market for all Land Rover vehicles, aiming to provide customers with exactly what they want, when they want it. Parts have long been the mainstay of Britpart's business, with many parts simply being unavailable from other sources; however, accessories are now becoming a major part of the business as owners of Land Rovers, old and new, are customising their vehicles to suit their individual tastes and lifestyles; everything they need is now available from Britpart.

The vast array of Britpart accessories ensures that no two Land Rovers are ever identical!

Land Rover appointed Britpart as an 'Approved European Parts Distributor' for all Land Rover Genuine Parts; this, together with Britpart's own vast range of parts and accessories, along with their extensive inventory of O.E.M. product, has resulted in Britpart becoming the ultimate 'One-Stop-Shop' providing everything its customers could possibly require, all ordered and delivered from one dedicated source.

Quality

Britpart is approved by Lloyd's Register Quality Assurance to ISO 9001:2015.

Britpart is renowned for quality parts at very competitive prices and takes pride in its excellent customer service, maintaining high stock levels with the aim of fulfilling orders promptly.

Distribution

Parts and accessories for Land Rover vehicles continually flow in and out of the massive state-of-the-art warehouse. Britpart's fleet of vans and trucks all sport the undeniably eye-catching Britpart blue and white livery. Between them they cover the length and breadth of the United Kingdom, including Northern Ireland, delivering directly to Britpart customers on a regular basis, adding to the personal touch that customers have come to associate with Britpart.

Global

When Land Rover finally severed its association with Santana Motor SA it was Britpart who bought up all the existing stock from the factory in Spain and shipped it to their UK headquarters in Shropshire. The shipment included everything from small components to body panels and new engines, along with all the original drawings and tooling. Some of the stock was found to be interchangeable with Land Rover parts and a proportion of the rest is gradually making the journey back home with the assistance of our partner in Spain, Britpart España, Estanfi Automoción.

Britpart's other partners around the globe include: Britpart France, Britpart Belgium, Britpart Brazil, Britpart USA and Britpart Poland.

Britpart is seeking to further expand its comprehensive customer base overseas and is continually looking for well established independent stockists of Land Rover parts to work closely with.

Service

Britpart has an enthusiastic and highly knowledgeable team so that you deal with people who have in-depth knowledge of the business. In addition to major government contracts, we successfully support individual parts retailers, supplying spares for Land Rover models old and new including Series, Defender, Range Rover, Discovery and Freelander.

The lively Sales operation boasts three highly trained teams; one each for Home Sales, European Sales and

Export Sales with technical experts and sales advisors in each, eager to answer the telephone and organise dispatch of goods to their customers within the shortest possible time.

Handmade

The highly skilled team in the Trim Shop make a wide range of seats, seat covers, bases, backs and benches etc for Land Rover vehicles by hand.

Equally skilled is the team in the Lock Shop where a wide range of light engineering work is carried out.

In keeping with the Britpart philosophy, all products leaving the Trim Shop and the Lock Shop are produced to the highest standards and meet with the strictest safety regulations.

Quality Parts

Britpart hold in excess of 28,000 stock items from o-rings and oil seals to engines and exhaust systems. Customers can choose from Britpart quality parts, O.E.M. products and Land Rover Genuine Parts; all delivered promptly at competitive prices.

Everything required for servicing, repairing, restoring or even rebuilding any Land Rover can be supplied by Britpart, thus enabling customers to order all they need on just one order sheet making it easy to keep track of stock and take delivery.

Quality Accessories

Britpart have all the latest accessories you need to customise your Land Rover, whatever the model, to look great on the road and work better off it! From wheels to roof racks, Britpart have everything to ensure that no two Land Rovers need ever look identical.

Exterior Protection

Whether you are going off-road or just want some extra protection on the road for your Land Rover, our wide range of exterior protection is a must have to prevent damage from hidden dangers. We have many forms of exterior protection including chequer plate, A-bars, bumpers, light guards, dash cameras and much more! Protection from front to back and top to bottom.

Dash Camera

DA5061

Plug & play camera features 1,080 pixel resolution meaning important details such as vehicle number plates are more visible. An integrated shock sensor works together with a file locking function to ensure vital recordings are always protected against overwriting. The camera automatically starts recording when the vehicle ignition is switched on. Older files can be automatically overwritten so recording never stops. A built-in battery provides backup power so recordings can always be completed if the power fails. Camera mode allows the unit to operate as a digital camera so should an incident occur, additional pictures can be taken. Full camera specifications can be found online at www.britpart.com/dash

DA6901

Blind Spot Mirrors

DA6550R	Right hand side
DA6550L	Left hand side

Working closely with one of Europe's leading mirror manufacturers, MUD has created a retrofit mirror for the Defender that incorporates a wide angle convex mirror to eliminate potentially dangerous blind spots. The Blind Spot Mirror function offers a huge improvement in road safety, making lane changing manoeuvres safer whether you're in slow or fast moving traffic.

The surface area of the XL Defender Mirror Head measures 245mm x 140mm compared with the standard mirror glass area of 198mm x 124mm. The mirror area of the MUD Blind Spot mirror is 173mm x 127mm and the convex section is 52mm x 127mm. The convex section is fixed and not adjustable.

The MUD Blind Spot mirror is a straight swap for the original Defender door mirrors, using the same fixing method as the factory mirrors and even retain the same styling as the original Defender door mirror to ensure an OE factory appearance. The MUD Blind Spot Mirror is housed within a larger mirror head that in addition to providing a larger reflective surface area than the standard Defender mirror glass, features the convex wide angle mirror glass. The mirror insert can be flipped through 180 degrees within the mirror head so the wide-angle can be positioned at the top or the bottom of the mirror. The MUD Blind Spot Mirror has been fully homologated, E-marked and carries full EU Type Approval.

Unbreakable Mirrors

	Head Dimensions		Arm Length	
DA4404	Flat mirror	204 x 140mm (8 x 5½")	No arm	Flat with fixing kit
DA4405	Flat mirror	204 x 140mm (8 x 5½")	170mm	Flat with fixing kit and short arm
DA4406	Flat mirror	204 x 140mm (8 x 5½")	290mm	Flat with fixing kit and long arm
DA4407	Convex mirror	204 x 140mm (8 x 5½")	No arm	Convex with fixing kit
DA4408	Convex mirror	204 x 140mm (8 x 5½")	170mm	Convex with fixing kit and short arm
DA4409	Convex mirror	204 x 140mm (8 x 5½")	290mm	Convex with fixing kit and long arm

Good visibility is imperative on today's highways and byways so these new high impact resistant mirror heads are an essential item.

- > Optical quality polycarbonate lens - will not shatter like glass or discolour in sunlight.
- > Strong, flexible polypropylene casing - will absorb hard blows without breaking.
- > Universal - can be fitted to either left or right of vehicle.
- > Lightweight - puts less strain on body fixings.
- > Hard lacquer coating on lens - will repel condensation and surface water.
- > Excellent reflectivity - superb daylight and night time vision.

Dirt D-fenders

Dirt D-Fenders are a great solution to the annoying problem of mud which splashes through the gap which exists between the bottom of the wheel arch and the mudflap of your Defender. They are an especially useful addition if you are using wider tyres. The Dirt D-Fenders attach with rivets into the underside of the sill and wheel arch flare. The smooth finish is suitable for painting to match your body colour. Supplied in pairs with fitting kit.

Reduce the risk of collision during reversing.

Parking Sensor Kit

DA4511

These bumper* mounted sensors will detect the distance between your vehicle and any rear obstruction and warn the driver to any potential obstructions. An advanced parking solution for obstacle detection at the rear of your vehicle. Reduce the risk of collision during reversing and reverse parking manoeuvres with this kit.

As the reverse gear is engaged, a sound indicates that the reverse sensors are activated. Any obstacle at the rear of the vehicle is then detected and signalled to the driver through a progressive sound whose frequency increases when moving closer to the obstacle.

Enhance your safety through obstacle detection, even when objects are out of the driver's field of vision. Improve comfort through easy parking manoeuvres. Suitable for 12v cars, SUVs and light commercial vehicles.

Kit contents include -
4 x Bumper fit sensors
1 x Warning buzzer
1 x Control unit
1 x Wiring harness
1 x Cutting tool
1 x Fitting accessories
1 x Installation instructions

Add an extra set of 'eyes' when reversing...

***Note** - Not suitable for vehicles with metal bumpers.

Side Protection

Rock/Tree Sliders & Sill/Side Protectors

DA7533

DA7533

Rock slider/side steps - pair
Discovery 3 & Discovery 4

The best of both worlds with these fitted to your Discovery!

Rock slider - an essential purchase for any off road use.

They prevent damage to the underside sill of the vehicle and allow for safe passage over rocky and rough terrain.

Side steps - users often fit side steps to enable easy access to and from the car - this is a problem when going off-road as they bend, break and cause snagging. These heavy-duty side steps are made from 5mm steel plate with 50mm tube backed up by an additional 2 x 40mm tube supports. The joints are TiG welded for a smooth finish.

Great protection for the side of your Land Rover and they replace the sill of your vehicle. These rock & tree sliders are a fully welded 3mm steel construction with heavy-duty chassis mounted brackets and zinc primed with a smart black powder coated finish.

Aluminium finish

Discovery 3 & Discovery 4

These rock sliders (sill protectors) are manufactured from 6mm 5083 aluminium and come completely machined and drilled ready to fit. An essential purchase for any off-road use as they prevent damage to the underside sill of the vehicle and allow for safe passage over rocky and rough terrain. Attaches to your vehicle using 11 mounting points on the side and underneath and when the car doors are closed they are almost unseen, but you have the piece of mind that your car sills are safe from damage. These units require no additional drilling just unscrewing and unclipping of the plastic OEM parts. For more information & images of these rock sliders visit www.britpart.com/rock

Sump Guards

These guards from Britpart are manufactured from high-quality, hard-wearing and corrosion resistant materials to counteract any unforeseen obstacles your Land Rover may encounter whilst off-roading. All fixings are supplied and the guards fit into the vehicle's pre-existing holes. Each guard has holes at the front to allow for water drainage and also to help with ventilation for the cooling system.

Discovery 4	DA7535	Silver finish	DA7535B	Black finish

Sump Plate

DA7536 Discovery 3
This sump plate protects the underside of the engine and allows the car to slide over objects, forward and backwards due to the rear lip. With a natural finish the plate is made from 6mm 5083 grade aluminium and has been water jet cut to a precise finish. Plate bolts directly into existing holes and bulkheads already in the chassis, using the standard Land Rover fixings.

Transmission Guards

DA5625 Defender - Td5
Reduce damage to your Defender 90. Made from galvanised steel, this transmission guard protects your 90's gear box and cross members from snagging and reduces damage to your vehicle. Bolts on and is easy to fit and importantly it is also easy to remove when your vehicle needs servicing. **Note** - Only fits with centre exhaust removed and pipe fitted.

DA7532 Discovery 3
This transmission plate protects the underside of the transmission and allows the car to slide over objects. With a natural finish the plate is made from 6mm 5083 grade aluminium and water jet cut to a precise finish. Plate bolts directly into existing holes and bulkheads already in the chassis, using the standard Land Rover fixings and two additional fixings. **Note** - Can only be fitted when sump plate (DA7536) is also fitted.

Fuel Tank Guards

DA6538 Defender 90 - Td5 & 2007 onwards
DA6539 Defender 110 - Td5 & 2007 onwards
Protect your Defender's fuel tank. Manufactured from 6mm aluminium.

Pair

The best of both worlds with these fitted to your Discovery!

Rock slider - an essential purchase for any off road use. They prevent damage to the underside sill of the vehicle and allow for safe passage over rocky and rough terrain.

Side step - users often fit side steps to enable easy access to and from the car - this is a problem when going off road as they bend, break and cause snagging. These are heavy-duty side steps made from 5mm steel plate with 50mm tube backed up by an additional 2 x 40mm tube supports. The joints are TiG welded for a smooth OEM finish. The other benefit of this rock slider/side step combo is that the outer 'bar' pushes away small trees and scrub from the bodywork of the vehicle. They can also be used to 'slide' around thick trees when grip is minimal. These units require no additional drilling just unscrewing and unclipping of the plastic OEM parts. Fitting should take 15 minutes each side. Grip tape supplied loose for optional fitment.

Britpart Expedition Roof Racks

These roof racks are manufactured from aluminium with a smart black powder coated finish. Fully welded, they are extremely strong, versatile and easy to use. The floor plank profiles are orientated longitudinally which results in a reduction in wind noise. There are nut channels on all the extrusions to allow for easy fitment of 3rd party accessories.

DA3072

Defender 90
3 feet per side
Weight - 32kg
Dimensions - 2,050mm long x 1,500mm wide
Vehicle gutter to top of rack - 265mm

Refer to owners handbook for recommended maximum weight.

*3 roof cross rails as standard and can accommodate 2 additional roof cross rails.

Safety Devices Explorer Roof Rack Range

- > Heavy-duty steel roof rack.
- > Explorer roof racks can be affixed with a system of detachable roof cross rails to the rainwater gutters or with aluminium clamps to fit directly on to the majority of Safety Devices' external roll cages.
- > A rain gutter mounted roof rack can be converted in to a roll cage mounted roof rack with the appropriate fitting kit.
- > The standard pack includes a steel roof rack, fixing bolts and optional roof cross rails.
- > Roof racks are grit blasted, primed with a zinc enriched powder undercoat, and finished with a durable black powder coat.
- > Not compatible with a sunroof.
- > Tents can normally be affixed to the roof rack without a floor, although a marine ply non-slip floor is also available.
- > Additional roof cross rails are available to purchase for use without a roof rack for use as, for example, a roof bar, basic tent support, attaching a roof storage box or to spread additional load on the Safety Devices' roof racks.

ARB Roof Racks

Deluxe Steel with Mesh Floor Type

Deluxe Steel Type

4X4 ACCESSORIES

ARB products available
in the UK only.

Extensive research, design and testing goes into all ARB racks to ensure their functionality is never compromised, even under the most demanding conditions. With a strong, aerodynamic design, ARB's steel roof racks are constructed for maximum strength and perfectly suited to the structural design and load carrying requirements of off-roading.

Features

- > Evenly spaced crossbars can support loads of up to 150kg, with an optional fully welded steel mesh floor also available.
- > Precision cut drainage channel, specifically designed to reduce build up of dirt and accumulation of moisture.
- > Full length, zinc annealed steel support channel with plastic protection strip to distribute load along the gutter and prevent vehicle damage.
- > Stainless steel fitting hardware and a unique, super-strong clamping system that's easy to install and remove.
- > MIG welding is used on the joins to ensure optimum strength.
- > Pressed steel feet and legs are height and width adjustable, allowing multi-vehicle installations.
- > Top rail sits well above rack floor to ensure a secure load and is constructed from tough, 25mm tube while the bottom rail utilises 35mm tubing.
- > Air deflector plate significantly reduces wind noise.
- > Rails are mandrel formed, ensuring consistency and even wall thickness across all sections.

ARB's Trade Racks are available as an alternative to deluxe racks for a selection of models. Open at both ends, a trade rack enables the carrying of longer items, such as lengths of timber and ladders.

Load Securing Systems

BungeeClic Load Securing System

DA5040

- > BungeeClic, a complete system for securing loads and objects.
- > It can be customised in a variety of ways to build the correct length ties needed for securing a variety of objects
- > It gives you all you need to build and adjust safe custom-length ties to suit your needs and requirements.
- > No more unsafe coupling or wrong lengths.
- > It can be used to secure loads at work, at home or out camping.
- > Min/max working load for all items - 0 - 80kg.

Kit Contents

- 2 x J-hooks
- 2 x Locking hooks
- 1 x Straight connector
- 1 x 90 - 135cm bungee cord
- 1 x 60 - 90cm bungee cord
- 1 x 30 - 45cm bungee cord

Bungee Clic Additional Accessories

- DA5042** BungeeClic Locking hooks - twin pack
- DA5043** BungeeClic Straight connectors - twin pack
Straight connectors provide precision length for every job.
- DA5044** BungeeClic Y connector - single pack
Y connectors allow you to build netting shapes
- DA5045** BungeeClic Wall mounts - twin pack
The Wall mount offers solid and permanent anchoring; inside your Land Rover or behind any door.
- DA5046** BungeeClic Adjustable hooks - twin pack
The adjustable hooks let you quickly adjust and set the bungee cord the right length and position.
- DA5047** BungeeClic 30cm cords - twin pack
30cm extends up to 45cm
- DA5048** BungeeClic 60cm cords - twin pack
60cm extends up to 90cm
- DA5049** BungeeClic 90cm cords - twin pack
90cm extends up to 135cm
- DA5050** BungeeClic 120cm cords - twin pack
120cm extends up to 160cm

Customised in a variety of ways & used to secure loads at work, at home or out camping.

Available from UK stockists only.

Roll Cages

Thinking of taking your 4x4 over rough terrain? You might want to consider using a Safety Devices roll cage to help protect you in case of a roll over. The purpose of a roll cage is to help protect the cab of the vehicle against collapse.

For more Safety Devices roll cage images - www.britpart.com/roll-cages

Roof Tent Mounting Bracket

20-6000-755
Suitable for any Safety Devices Expedition external roll cage, as well as other roll-cages using 45mm diameter tubing.

Defender 90

RBL1387SSS

8 Point external front roll cage with internal rear roll cage
Defender 90 Station Wagon without bulkhead, 2-door

Black

RBL1387PAD

Internal roll cage padding Black
Defender 90 Station Wagon, 4-door
For roll-cage kit RBL1387SSS

Specially formulated polyurethane flame retardant padding kits of 55 Shore hardness. Kit covers all internal roll cage components above shoulder height.

RBL1087SSS

6 Point full external roll cage

Defender 90 Station Wagon with bulkhead, 2-door

Black

Models between 1983 - 1988 had three raised ribs on the roof approx 22mm (7/8") tall. This kind of roof does not work with our external roll cages as the hoops will clash with them.

RBL2137SSS

6 Point full external roll cage

Defender 90 Hard Top without bulkhead, 2-door

Black

Defender 90 Station Wagon without bulkhead, 2-door

RBL1887SSS

8 Point multi-point external/internal bolt-in roll cage

Defender 90 Soft Top 2-door (1983-present)

Black

Utilises existing hood which will need modification. Front legs are NAS style.

RBL188PAD

Internal roll cage padding Black

Defender 90 Station Wagon, 4-door

For roll-cage kit RBL1887SSS

Specially formulated polyurethane flame retardant padding kits of 55 Shore hardness. Kit covers all internal roll cage components above shoulder height.

RBL2367SSS

6 Point bolt-in internal rear heavy duty hood stick replacement

Defender 90 Soft Top 2-door (1983-present).

Black

Replaces soft-top hood sticks. 45mm tube diameter, no diagonal, backstays to waist rail includes front and rear seat belt anchor points. Roll cage fits with standard hood.

RBL1536SSS

6 Point full external bolt-in roll cage

With 2" tube waist rail backstays

Black

Defender 90 200Tdi Pickup - 1990 - 1993 - right hand drive

Defender 90 300Tdi Pickup - 1994 - 1997 - right hand drive

Defender 90 Td5 Pickup - 1998 - 2006 - right hand drive

Defender 90 Puma Pickup - 2007 onwards - right hand drive

Defender 90 - continued

RBL0927SSS NEW Right hand drive

Black

RBL0927SSSLHD NEW Left hand drive

Black

8 Point multi-point external/internal bolt-in roll cage

Internal single hoop, external front legs, long backstays to rear chassis. For vehicles without rear headlining. Made to Camel Trophy specification. Fits vehicles with bulk head only.

Defender 90 Td5 - Hard top 3-door - 1998 - 2006

Defender 90 300Tdi - Hard top 3-door - 1994 - 1997

Defender 90 200Tdi - Hard top 3-door - 1990 - 1993

Ninety Hard top 3-door - 1983 - 1990

Note - Models between 1983 - 1988 had 3 raised ribs on the roof approx 22mm tall. This kind of roof does not work with our external roll cages as the hoops will clash with them.

Defender 110

RBL2057SSS

8 Point multi-point bolt-in full roll cage

Black

Defender 110 Td5 Double Cab Pickup 4-door (1998-2006)

With front external roll cage and rear internal roll cage

RBL1907SSS

Full external multi-point bolt-in roll cage

Black

Defender 110 Hard Top, 2-door

Made to NAS specification

RBL1727SSS

8 Point full external / internal roll cage

Black

Defender 110 Station Wagon, 4-door

The cage will not fit vehicles with the external ribs fitted on the roof, nor will it fit if the rear seat box is stepped in the rear corner. For clarification, see Safety Devices website.

RBL1727PAD

Internal roll cage padding Black

Defender 110 Station Wagon, 4-door

For roll-cage kit RBL1725SSS

Specially formulated polyurethane flame retardant padding kits of 55 Shore hardness. Kit covers all internal roll cage components above shoulder height.

RBL2427SSS

6 Point full external roll cage

Black

Defender 110 Station Wagon, 4-door

Models between 1983 - 1988 had three raised ribs on the roof approx 22mm (7/8") tall. This kind of roof does not work with our external roll cages as the hoops will clash with them.

RBL1857SSS

10 Point full external bolt-in roll cage

Black

Defender 110 Crew/Double cab pick-up 4-door - 1983 onwards

RBL0117SSS

4 Point bolt-in internal rear 'half' roll cage

Black

Defender 110 Station Wagon - 4-door (1983 - 2006)

RBL2557SSS

4 Point bolt-in internal rear 'half' roll cage

Black

Defender 110 Station Wagon - 4-door (2007 onwards)

Defender 110 - continued

RBL2437SSS

6 Point full external bolt-in roll cage

Defender 110 Double Cab Pickup - 4-door (2007 - 2015)

Black

RBL1487SSS

8 Point multi-point internal 'half' roll cage with external front legs

Defender 110 Td5 - Station Wagon 5-door - 1998 - 2006

Defender 110 300Tdi - Station Wagon 5-door - 1994 - 1997

Defender 110 200Tdi - Station Wagon 5-door - 1990 - 1993

One Ten Station Wagon 5-door - 1983 - 1990

Black

Note - Models between 1983 - 1988 had 3 raised ribs on the roof approx 22mm tall. This kind of roof does not work with our external roll cages as the hoops will clash with them.

RBL2507SSS NEW

8 Point multi-point external front/internal rear bolt-in roll cage

Defender 110 Td5 - Soft top 2-door - 1998 - 2006

Defender 110 300Tdi - Soft top 2-door - 1994 - 1997

Defender 110 200Tdi - Soft top 2-door - 1990 - 1993

One Ten Soft top 2-door - 1983 - 1990

Black

Note - Will only fit models with a bulkhead. Utilises existing hood which will need modification. Front legs are NAS style. We strongly recommend fitting roll cage padding when installing this roll cage.

RBL1837SSS NEW

10 Point multi-point bolt-in external front roll cage with NAS front underwing mounts and internal full length rear roll cage

Defender 110 Td5 - Station Wagon 5-door - 1998 - 2006

Defender 110 300Tdi - Station Wagon 5-door - 1994 - 1997

Defender 110 200Tdi - Station Wagon 5-door - 1990 - 1993

One Ten Station Wagon 5-door - 1983 - 1990

Black

Note - Models between 1983 - 1988 had 3 raised ribs on the roof approx 22mm tall. This kind of roof does not work with our external roll cages as the hoops will clash with them.

RBL2447SSS

Heavy-duty hood stick set

Defender 110 200Tdi soft top 2-door - 1990 - 1993

Black

Set completely replaces soft-top hood sticks. 45mm tube diameter, no diagonal, backstays to waist rail, includes front belt anchor points.

Defender 130

RBL2477SSS

8 Point multi-point external bolt-in roll cage with internal B hoop

Defender 130 Puma Double Cab High Capacity Pick Up 4-door - 2007 onwards

Defender 130 Td5 Double Cab High Capacity Pick Up 4-door - 1998 - 2006

Defender 130 300Tdi Double Cab High Capacity Pick Up 4-door - 1994 - 1997

Defender 130 200Tdi Double Cab High Capacity Pick Up 4-door - 1990 - 1993

Black

Note - The rear provides sufficient clearance to allow the original rear canvas to be left in place with only a small modification required each side at the rear.

RBL2607SSS

8 Point multi-point external bolt-in roll cage

Defender 130 Puma Double Cab High Capacity Pick Up 4-door - 2007 onwards

Tyre Monitoring & Repair

DA4512

This system is an advanced monitoring & alert system of tyre conditions. It monitors tyre pressure and temperature then relays the state of each tyre to a display unit. When any abnormalities are detected, the system will display the status of the affected tyre and sound an alarm to ensure you take action to remedy the problem. Keeping your tyres in good condition at the right pressure can extend the life of your tyres, reduce fuel consumption and improve handling. **Note** - This system will only measure up to a maximum of 3.5 bar.

*Are your tyres at the
right pressure?*

Tyre Pressure Monitoring System

Tyres that are at the right pressure will -

- > Improve fuel consumption
- > Increase the tyre life span
- > Help enhance vehicle handling & braking
- > Reduce susceptibility to hydroplaning

System contents -
1 x Display
1 x Receiver
4 x Tyre sensors
3 x Display brackets
2 x 3M stickers
1 x Instruction manual

Air Compressors

Double-pump Air Compressor

DA2392

Air flow - 150ltr/min

It's no good being able to repair your tyres if you can't inflate them. Full details of these air compressors can be found in the Off-Road section.

Tyre Repair Kits

*Don't get caught out with
a flat tyre or two!*

DA2390 Tyre repair* kit in travel case

How It Works

1. Find and remove the item that caused the puncture.
2. Apply rubber solution to the reamer tool then push the reamer into the puncture and work up and down until the reamer moves easily in the hole.
3. Thread one rubber tyre plug in the hook tool.
4. Push the rubber tyre plug into the hole until 1/2" of the tyre plug remains outside the tyre then turn the hook tool a quarter turn and pull out slowly.
5. Cut off the excess tyre plug as close to the tyre as possible.
6. If the puncture is too big have the tyre fixed by a professional.

*Recommended for off-road use only.

ARB Air Compressors & Tyre Maintenance

ARB Digital Inflator DA1441

- > Corrosion resistant die-cast body.
- > Rubber bump guard to protect against drops and knocks.
- > Large LCD digital readout with blue backlight.
- > Multiple measurements.
- > Pressure sensing auto wake up display.
- > Battery level indicator.
- > Precision clip on connector.
- > Air bleed button for accurate pressure adjustment.
- > Extended stainless steel braided kink resistant hose with PVC sheath and dual swivel joints for use at any angle.
- > Coated thumb trigger.
- > Up to 200 hours runtime on set of batteries.

More
information
online.

ARB Tyre Inflator DA8927

- > Compatible with ARB air compressors.
- > Easy to read dial with dual scale PSI/bar increments.
- > Quality bronze Bourdon tube gauge design.
- > Fully geared, solid brass precision movement.
- > Protective rubber gauge guard.
- > Air bleed button for deflating.
- > 330mm stainless braided flexible hose.
- > Clip on chuck.
- > Incorporates 1/4 NPT-US standard made air fitting.
- > Internal air shut off valve.

ARB E-Z tyre Deflator DA8931

- The unique, patented design of the E-Z Deflator allows for removal of the valve core for rapid tyre deflation, while also providing accurate pressure reading via the simple movement of a sliding valve. Provided in a protective canvas pouch, the quality bronze Bourdon Tube gauge design ensures accuracy is not affected by fluctuations in temperature, humidity or altitude.
- > Corrosion resistant brass/stainless deflator tool.
 - > Fully geared, solid brass precision movement.
 - > Protective rubber gauge guard.
 - > Easy to read dial with one PSI increments.

ARB Low Air Pressure Gauge DA6825

- > Specifically designed for off road use.
- > Lower scale for improved accuracy at lower pressures.
- > Quality bronze Bourdon Tube gauge ensures accuracy is not affected by changes in temperature, humidity or altitude.
- > Fully geared, solid brass precision movement.
- > Protective rubber gauge guard.
- > Simple to use with a large 3.5" diameter gauge.
- > Three pressure scales (PSI, kPa and bar).
- > Flexible hose with dual chuck for all rim and valve types.
- > Tested and designed to stay accurate.

ARB Portable Air Compressor DA8998

This portable 12V air compressor comes in a durable polypropylene carry case for added versatility and uses quality components for quiet operation and extra long life. Including a 19ft air hose, it also comes with all the necessary fittings for tyre inflation and camping or leisure gear. Its twin motors are internally thermal protected against extreme temperature damage while a heavy duty in-line maxi fuse for each motor provides professional circuit protection. The compressor comes in a high quality carry case featuring internal pockets for components and accessories including a 6 metre air hose. Much more information available online.

ARB Twin Portable Air Compressor DA6823

Designed to fill the market need for a compact sized yet high performance compressed air source for rapid inflation of large tyres as well as the high volume air needs of most air powered tools. The ARB compressor is a world class recreational product designed and built to commercial/ industrial standards to survive harsh and demanding outback conditions. Much more information available online.

ARB Twin On-board Compressor Kit DA4985

Designed to fill the market need for a compact sized yet high-volume compressed air source to suit the high volume airflow needs of most air powered tools, and also to suit the actuation and control needs of the ARB Air Locker, and the harsh and demanding environment of the ARB Air Locker user. Much more information available online.

ARB Tyre Inflation Kit DA6253

The ARB tyre inflation kit for air compressors is specially sourced from Japan, providing a unique high-heat tolerant hose for the hi-output compressor (DA4190). The practical kit includes a dust resistant air chuck and an enclosed internal bearing system to prevent dirt ingestion.

- > Suitable for camping, touring and off-road applications as well as everyday usage.
- > Provides fast, accurate inflation.
- > Kit includes
 - 1 x high heat pressure hose.
 - 1 x ARB air chuck with quick press fitting.
 - 1 x ARB T-fitting for use with the ARB air compressor (DA4190) and an assortment of additional fittings to suit various camping and sporting gear such as air mattresses and footballs.

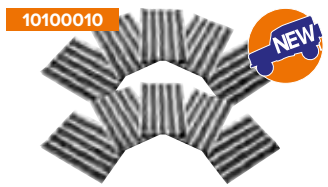

ARB Speedy Seal Puncture Repair Kit DA8930

- Repair kit
10100010 NEW 50 x Replacement cords
- Coming in a compact, high visibility carry case, the Speedy Seal includes all the components necessary to repair tubeless radial or cross ply tyres, without removing the tyre from the vehicle or rim. A pencil type tyre gauge with dual chuck makes setting pressures a snap, while a spring steel insertion needle and hardened reamer tool allow fast tyre repairs.
- > Lubricant for easier tool insertion.
 - > Additional accessories (valve core tool, spare valves and valve caps).
 - > 30 self vulcanising repair cords for complete air sealing.
 - > Allen keys.

ARB Inflation Case DA6842

Designed to keep all your ARB air accessories secure in the one bag and easy to reach. Six specialised pockets to house ARB Inflation, ARB Deflation, ARB Gauges, ARB Hoses and other general air accessories. Externally, ARB's bright orange design insures the case itself will not get lost within the back of your vehicle. It has been manufactured to incorporate the highest of quality materials including an abrasion resistant canvas. For ease of use, a large durable rubber handle can be used to carry the case and a high-vis reflective tapping appears on the outside of the case for safety.

ARB Compressed Air Blow Gun DA6824

To keep your air compressor and air accessories clean from dust and debris encountered during regular off-road driving, the compressor blow gun is the ideal solution delivering compressed air for fast and easy cleaning.

4X4 ACCESSORIES

ARB products available in the UK only.

ARB E-Z Deflator Digital Gauge ARB510 NEW

- The ARB E-Z Deflator Digital Gauge makes tyre deflation even easier thanks to accuracy of up to +/-1psi @ 15-75psi, a large digital read out with blue backlight display as well as multiple pressure readouts including PSI, BAR, KPA and KgF.
- > Ribbed rubber gauge guard
 - > Flexible braided hose
 - > Full swivel gauge connection
 - > Rated capacity - 0 to 200psi
 - > Multiple pressure scales
 - > Large LCD digital readout
 - > Easy read blue backlight display
 - > Brass components and crimps
 - > Up to 200hrs battery life

Spare Wheel Protectors

The valuable spare wheel on your Land Rover are very vulnerable to theft. These spare wheel protectors are designed to restrict access to the winching mechanism and makes it almost impossible for anyone to steal the wheel. Easy to fit to give you piece of mind.

Plug & play

Behind the handbrake backplate, on later Defenders, is a green 3 wire transducer which generates a pulse. This is then sent to the speedometer to show your vehicle's speed. Fitting different sized tyres or a non-standard ratio ring and pinion in the diffs could well mean the speed displayed is inaccurate. Fitting and programming this small box is easy. Once installed it allows you to adjust the output pulse, both up and down, which means your speedo will indicate the correct speed at which you are travelling.

Tyres

DA1736 NEW 600 x 16

DA1737 NEW 700 x 16

The Avon Traction Mileage is a strong crossply tyre developed for serious off road work, whilst still suited to use on the road. Rugged shoulder buttresses ensure even traction, whilst the central ribs in the tread pattern enable good directional control whilst on the road. Fitted as original equipment to Land Rovers, this tyre offers the ultimate combination of authenticity and performance for these vehicles.

Stud Klean

DA1698 NEW

The all-in-one stud & hub cleaning tool! Stud Klean attaches firmly to a standard impact wrench, providing the fastest and safest cleaning solution for your wheel changing process. The face of the tool moves rust and contaminants in seconds, providing a smooth clean surface for ease of assembly of all mating parts. At the same time, stainless steel tines effectively clean the threaded studs assuring easy and accurate torquing of lug nuts. The proprietary abrasive material is significantly longer lasting than any other material on the market.

Features

- > Cleans the hub and stud at the same time
- > Fits to 1/2" impact
- > Single size for all passenger cars and light trucks
- > Won't damage your wheels
- > Dense, long lasting abrasive pad
- > Hundreds of internal stainless steel tines instantly & effectively clean threaded studs
- > Stack tolerances when balancing wheels will improve and ensure proper torque tensioning during installation
- > Cleans approximately 800 wheels

MAXXTRAC BLINDO

Smart looking, tough, high quality alloy wheels which are ideal for off-road use. Used for rally-road competition vehicles as well as the military these Blindo wheels are TÜV approved and manufactured in Italy.

- > Only prime aluminium is used.
- > Less silicon is added than cheaper alloy wheels.
- > Alloys are heat-treated for improved mechanical properties.
- > Metal is de-gassed to remove any small bubbles.
- > Low pressure cast to ensure improved metal density.
- > Once made each alloy is x-rayed to check for defects, then water tank pressure tested to ensure no leaks.

Bowler Lightweight Wheels

ARB Driving Lights & Light Bars

AR32S

ARB products available in the UK only.

4X4 ACCESSORIES

AR21S

AR09TA NEW AR32 Driving Light Amber Cover

Pair
Manufactured from moulded polycarbonate and hard coated for scratch & UV resistance. These covers suit a range of driving conditions and customer personal tastes while protecting the lens and bezel of the light.

Engineered in Australia, the ARB Intensity LED light range has been specifically designed to meet the demanding requirements of 4WDers throughout the world. From producing white light that is the closest possible imitation of sunlight, to a virtually indestructible polycarbonate lens, these lights are the premium choice. Unlike high intensity discharge (HID) lights, the LED range does not require time to warm up and performs brilliantly on uneven roads by producing a broad field of light that helps diffuse vibration. Submersible to 3m, the ARB Intensity LED lights have been vibration tested to military specifications to ensure they can withstand extended periods of use on uneven ground and extreme conditions to keep the road ahead brightly lit.

AR32S

AR32 Intensity LED Spot Light

The light features an ARB engineered heatsink with 15 fins to help prevent heat damage to the LEDs and surrounding components. The heatsink also ensures the LED circuits run cooler and produce optimum light output while extending the light's longevity.

Dimensions - W 220.5mm x H 245.5mm

AR21S

AR21 Intensity LED Spot Light

Delivering outstanding performance in a smaller form factor, the AR21 Intensity LED spot light provides vehicle owners with a high performance lighting upgrade that is better suited to areas or bull bars with limited space.

Dimensions - W 184mm x H 209mm

AR32F

AR32 Intensity LED Flood Light

Submersible to 3m, the AR32 Intensity LED flood light is vibration tested to military specifications to ensure it can withstand extended periods of use on uneven ground and extreme conditions.

Dimensions - W 220.5mm x H 245.5mm

AR21F

AR21 Intensity LED Flood Light

The AR21 Intensity LED flood light is vibration tested to military specifications and produces a wide and even beam coverage that provides the driver with confidence during night driving conditions.

Dimensions - W 184mm x H 209mm

AR32EM

ARB32EM Combination Light

Following on from the success of the innovative AR32 Intensity LED driving lights a new E-marked model is now available for legal road use in European countries. The E-Marked AR32 has all the same features as other models including upgraded mounting bracket and is designed for use with the ARB Driving Light Loom. The E-Mark symbol appears on the lower section of the lens just above the ARB logo. Submersible to 3m, the AR32EM Intensity LED combo light is vibration tested to military specifications to ensure it can withstand extended periods of use on uneven ground and extreme conditions.

Dimensions - W 220.5mm x H 245.5mm

ARB Intensity LED Light Bars

Containing the same patented lens/reflector technology as the AR32 and AR21 and Intensity LED driving lights, the ARB40 Intensity LED Light Bar contains 40 individual LEDs (two rows of 20 LED lights) encased in a virtually indestructible polycarbonate lens and finished in a textured polyester powder coat – passing the ISO7253, 3000 hour salt spray test. With seamless integration to fit comfortably on the top tube of the bull bar whilst ensuring maximum light performance and endurance, the AR40's extruded alloy housing wraps around the tube, providing a low profile that doesn't obstruct the driver's view of the road. Its unique tube clamp mounting system sits out of view and delivers incredible stability for off road use, eliminating vibration while being adjustable so that it won't interfere with aerial mounting tabs, leaving them free to be used for their intended function. Performance is paramount, with a heat sink that has over 435,000mm² of surface area, allowing the light bar to operate at optimum efficiency even when the vehicle is stationary.

AR40C

ARB Intensity LED Light Bar Combination Beam

Provides drivers with a light that offers both improved long distance and peripheral illumination.

AR40S

ARB Intensity LED Light Bar Spot Beam

Produces a strong single beam down the road with a narrower improvement to peripheral illumination.

AR40C

ARMP

ARM603 Mounting kit to suit bar tube diameter 60.3mm

ARM761 Mounting kit to suit bar tube diameter 76.1mm

ARB Intensity Light Bar Mounting Kits

The ARB bull bar mounting kit provides the option to secure the Intensity LED Light Bar to bars. Available in three sizes to suit the tube diameter of vehicle's bars. Compatible with bars with a tube with a diameter of up to 76.1mm, the mounting kits provide a solid clamp between the Intensity LED Light Bar and the bar tube to minimise vibration and movement. Constructed from extruded aluminium and with fasteners manufactured from stainless steel, the bar mounting kit has been designed to for toughness to handle various weather conditions.

ARMP

ARB Intensity Light Bar Pedestal Mounting Kit

Offering increased versatility by allowing fitment of the Intensity LED Light Bar to the pan of a bull bar or roof rack. For increased versatility, the pedestal mounting kit is an alternative to the bull bar mount by enabling fitment to the pan of a bull bar or a roof rack. All fasteners are manufactured from stainless steel, with mounting hardware manufactured from a combination of aluminium & steel.

LAZER
HIGH PERFORMANCE LIGHTING

DA1691

DA1689 NEW

Lazer ST4 Evolution - single light

The Lazer ST4 Evolution is a hugely versatile LED spotlight the size of which has proved particularly popular within the 4x4 market. At 204mm length, the ST4 delivers incredible lighting performance which belies its diminutive size. Upgraded high-density 11W LEDs are carefully selected for their high 'bin' rating, and deliver 4,136 lumens, harnessed into a 'Drive' beam pattern optimised for lower speed applications where the priority is for good all-round visibility, albeit still with enviable distance illumination – 1 lux is achieved at 278m.

- > 4 x high density 11W LEDs (premium 'bin')
- > Seamless, low profile design facilitates installation
- > Dynamic drive modulation optimises light output to maximise LED lifetime
- > Ultra-reflective optics deliver 'Drive' beam pattern
- > E-coat pre-treatment provides maximum corrosion resistance

DA1690 NEW

Lazer Triple-R 4 - single light

The Lazer Triple-R 4 offers incredible performance from a compact and great value unit. Utilising the same Boost optics as the other lights in the Triple-R range. It's unique styling and E-mark approval mean it is perfect for road, rally and race applications.

- > Ultra long-range optics
- > High output LED's from world leader in LED technology
- > CAE optimised heatsink
- > Electronic thermal management
- > 'Unbreakable' polycarbonate lens
- > Innovative design and unique styling

E-mark Ref	27.5
Voltage Range	9V - 32V
Raw Lumens	4100
Beam Pattern	Spot
Optical Efficiency	92%
Beam Distance (0.25LX)	865m
High Power LEDs	4
Power Consumption	45 Watts
Current Draw	3.1 Amps
LED Life	50,000 Hours
Weight	780g

DA1692 NEW - Two Lamp Wiring Harness

The ideal solution for wiring two Lazer ST or Triple-R range lamps. The setup is quick, easy, and reliable with TE Superseal connections and no configuration procedures. Harness kits feature a 12V relay, 25A fuse, and battery terminal at one end. Lazer use the best corrosion proof splice systems currently on the market, comprising copper crimp barrels and separate, heat-shrinkable transparent sealing sleeve, ensuring that the 'high beam' connection remains fully protected. All Lazer lamps are sold with a pre-wired female connector attached to the male connector of the lamp harness, to facilitate wiring in to your vehicle system.

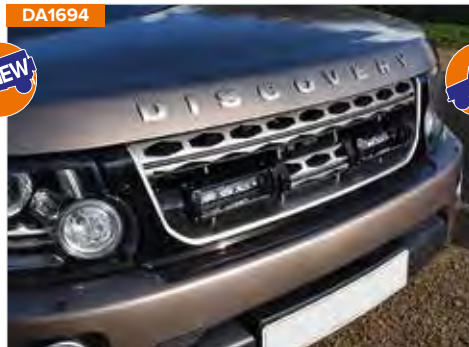

Grille Integration Kits

For an OE quality, fully road-legal, auxiliary spotlight installation, the Lazer grille integration kits include bespoke mounting brackets which allow for quick and easy fitting of Lazer LED spotlights within the front grille. Designed to blend seamlessly within the original styling of each vehicle, the resulting lighting setup remains fully robust and secure, with extra protection against theft. The kits include a pair of spotlights, two-lamp wiring kit, 4 x brackets precision-engineered to engage perfectly with the standard centre grille on the vehicle, with added strength and security provided by the supplied self-tapping (plastic) screws. Made from ASA material, known for its excellent strength and UV stability, the brackets are fully weather and chemical resistant to ensure your installation remains in great condition year after year. Supplied alongside the mounting brackets are a set of cutting guides, designed to facilitate the installation and ensure a perfect fit every time, without removal of the vehicle's grille or bumper parts. Made in Britain with a 5-year warranty.

DA6282

DA6282 Right hand drive pair
DA6283 Left hand drive pair
Standard 7" fitment for Defender, Series & Range Rover Classic. Durable polycarbonate lens & die-cast aluminium housing provide maximum protection

Features & Benefits

- Light source - 8pcs CREE(XML-10W) LED
- > Certification - DOT & E-mark.
- > 2800LM@30W on low beam.
- > 4450LM@48W on high beam.
- > Stepless thermal management system built-in.
- > Durable polycarbonate lens stands up to harsh environmental conditions.
- > Rugged solid LED means never having to replace another bulb again.
- > Die-cast aluminium housing provides maximum protection.

General Specifications

- > Lens material: Polycarbonate
- > Housing material: Die-cast aluminium
- > Mounting: Replaces PAR56 headlamps
- > Mounting connector: H4 and H4 to H13 converter
- > Colour temperature: 6000-6500k

Technical Specifications

- > Low beam: 2.5 amps @12V DC
- > High beam: 2.00 amps @ 24V DC
- > Low beam: 1.25 amps @ 24V DC
- > Row lumen output: 5600LM
- > Effective lumen output: 3640LM

Note - Some EU countries may require fitment of headlamp washers.

Pair

Pair

Series/Defender/Range Rover Classic

Technical Specifications

- > Hard-coated polycarbonate lens.
- > eCoat aluminium housing and internal structures.
- > Metallized reflector.
- > 1.3mm CSA / 16 gauge wire.
- > Light source - 2 LED arrays.
- > Multi-volt (9V-33V) design works with both 12V and 24V systems.
- > More technical information available online.

Note - Some EU countries may require fitment of headlamp washers.

Features & Benefits

- > ECE & ROHS compliant.
- > LED sealed beam technology with polycarbonate lens and sealed electronics.
- > Up to 50 x longer life than halogen headlamps, lowering life-cycle costs.
- > Produces pure white light, nearly identical to daylight that is easy on the eye, unlike harsh blue HID systems.
- > Includes built-in position lamp with optional wiring.
- > Offers great forward vision, improved roadside coverage and highly controlled beam patterns, offering glare protection to oncoming traffic.
- > Dipped/passing beam and main/driving beam functionality.
- > Ultra-bright output for maximum night visibility.
- > H4, 3-Blade connector system (main & dipped beam only).

Xenon Ultima Headlamp Upgrade

DA5014

Xenon 7" universal fit headlamp upgrade kit includes Xenon Ultima. Suitable for Defenders, Series and Range Rover Classic. Xenon Ultima is the first auto bulb to put 120% more light on the road. The lamps have a complex surface to give a superior light distribution. They are E-approved, fully road legal and the kit includes headlamp units and xenon bulbs. 3 year warranty.

Interior Lights

LED Strip Lights

Astro 12V LED Strip Lights

- > Long life, high intensity LEDs
 - > Wide spread of light
 - > Angled light source
 - > Quick to install
 - > Compact design
 - > Waterproof to IP66
 - > E-type approved
- The Astro gives a wide spread of light; perfectly angled for awning and area lighting. The lights incorporate the Orion LED strip light which uses the latest in LED technology, offering optimum performance and extended life. The properties of these LEDs give greater luminosity, allowing for a brighter unit whilst using fewer LEDs to maintain the low power draw. The Astro is approximately twice as long as a standard awning light, thereby increasing the spread of light along the side of a vehicle offering greater external illumination. The angled wash of light to the floor also makes it a perfect light source to illuminate work areas, shelving, lockers and much more. The LED strip sits within a slim aluminium housing which conceals the fixings; and with ABS snap-on end caps, this compact light unit is quick and easy to install. The PCB driver, components and LEDs are completely encased within a polycarbonate extrusion, which protects against moisture ingress.

ARB LED Head Lamp 10500050 NEW

- > Up to seven hours run time, the head lamp
- > Comfortable adjustable elastic head band
- > Adjustable hinge for vertical beam adjustment
- > Focus adjustment for wide or narrow beam
- > Three lighting modes: 300 lumen beam, 180 lumen beam or flashing mode
- > 5W, 6500K Cree LED
- > Runs on 3 x AAA batteries
- > Anodised aluminium body
- > Weight - 162g

Ring Zoom 110 Micro Inspection Torch DA5088 NEW

- A 110 lumen output with a 6500K colour temperature. With a lightweight and extremely durable aluminium construction, this is ideal for professionals as it can withstand demanding environments. The torch includes a rechargeable Li-ion battery, so no need to buy and replace batteries, and a USB to micro USB cable for convenient recharging. The time it takes to charge up a torch is minimal and is extremely time efficient. The torch also includes a 6x optical zoom and wide angle standard setting, for broad illumination or a concentrated beam.
- > Up to 110 lumen torch provides bright white light with 6500K colour temperature
 - > Standard setting has a wide-angle light output for total illumination of the work area
 - > Optical 6 x zoom for a focused beam of light to see into the distance
 - > Complete with USB to micro USB cable for convenient 2.5hr charge time
 - > Aluminium construction designed for every day workshop use
 - > Built in IC protection to protect battery from overcharging or discharge
 - > Magnetic base for hands-free usage
- | | |
|-------------|------|
| Voltage | 3.7 |
| Wattage | 2.41 |
| Amps Output | 650 |

Ring Zoom300 LED Inspection Torch with Power Bank DA5085

- > Up to 300 lumen torch - provides bright white light with 6000K colour temperature
 - > Standard setting has a wide-angle light output for total illumination of the work area
 - > 6x Optical zoom - for a focused beam of light to see into the distance
 - > Maximum power mode (300 lumens) - lasts for 4.5 hours
 - > Maximum life mode (150 lumens) - lasts for 10 hours
 - > Complete with USB to Micro USB cable - for convenient recharging (6 hours recharge time)
 - > Built in IC protection - to protect battery from over charge or discharge
 - > Power bank functionality - ideal for an emergency charge of a mobile phone
 - > Magnetic base - for hands-free usage
- | | |
|---------------------|-------------------------|
| Light output: | 300 lumens on high |
| | 150 lumens on low |
| Battery: | 3.7V Li-ion, 2200mAh |
| | 8.14Wh |
| Functions | High, low |
| Operating time: | Up to 4.5 hours on high |
| | Up to 10 hours on low |
| Product dimensions: | H 145 x W 38 x D 38mm |
| Weight: | 0.23kg |

Ring Essential LED Inspection Pocket Lamp DA5027

- > 5hrs operating time
- > Magnet for hands free use.
- > LED torch function for focused light output.
- > Protective lens for demanding conditions.
- > Integral swivel pocket clip.
- > Includes batteries.
- > Runs on 3 x AAA batteries

Add some light to your working environment.

DA5088

DA5066 / DA5067

Ring MAGflexTwist Ultra Bright LED Inspection Lamp

- | | |
|--------|---------|
| DA5066 | UK plug |
| DA5067 | EU plug |
- > Rechargeable and cordless.
 - > New technology COB LED provides 250 lumens light output.
 - > Lamp can rotate 360° with a 180° ratcheting design to allow ultimate directional lighting.
 - > White light output simulates daylight.
 - > Wide angle of light output that has uniform intensity.
 - > Magnet for hands free use.
 - > Integral hanging hook.
 - > High power LED torch function.
 - > Anti slip comfortable grip.
 - > Li-ion battery for faster consistent recharging.
 - > Includes AC mains charger and 12v DC charging lead.
- | | |
|----------------|-----------------------|
| Light output: | 250 lumens |
| Battery: | 3.7V Li-ion, 2200mAh |
| | 8.14Wh |
| Mains adaptor: | Input 230v AC-50/60Hz |
| | Output 5v DC-500mA |

DA5093

Ring RIT1070 Zoom 240 Head Torch

DA5093 NEW

The Ring RIT1070 Zoom 240 Head Torch has a light output of up to 240 lumens with a colour temperature of 6000K. The optical 4 x zoom gives the option of having a focused beam of light or a wide angle light to illuminate the whole working area. This comfortable, lightweight torch includes a rechargeable Li-ion battery, so no need to spend money on new batteries. Includes USB to micro USB charger to recharge.

- > Aluminium construction
- > Up to 240 lumens torch provides bright white light
- > Standard setting has wide-angle light output for total illumination of the work area
- > Optical 4x zoom for a focused beam of light to see into the distance

- > Max power mode up to 240 lumens - 7 hours illumination time
- > Max life mode up to 115 lumens - 8 hours illumination time
- > Li-poly rechargeable battery, 10.36Wh
- > Built in IC protection to protect battery from over charge or discharge
- > Complete with USB to Micro USB cable for convenient recharging
- > 9 hours recharge time

Product dimensions (HxWxD):	46mm x 74mm x 48mm
Weight (kg)	0.1920
Voltage	3.7
Wattage	10.36
Amps Output	2800

Mini LED Light

- > Compact & lightweight
- > Cordless rechargeable battery
- > 20 LED lights
- > Up to 2 hours run time on full power & 4 hours on half power
- > 12V DC lead and adaptor
- > 400 lumen & 10W output
- > Dual magnetic mounts & single hook mount
- > Water & shock resistant
- > LED life expectancy of 50,000 hours

LED Head Torch

- > 5W CREE LED light
- > Aluminium body
- > Three lamp functions
- > Adjustable elastic strap
- > Batteries included
- > Adjustable beam width
- > Lamp colour - 6500K

ARB Pureview 800 Torch

10500070 NEW

The ARB Pureview Torch 800 is a rugged and versatile torch. With a beam distance of up to 300m, this torch provides excellent distance.

Features & Benefits

- > 800 lumens
- > LUMINUS® SST40 with 50,000hr life span
- > 300m beam distance
- > 2600mah 18650 li-ion battery
- > High, medium, low & strobe
- > 5000-8300k colour temp
- > 800 lumens high – 1.5 hours runtime
- > 400 lumens medium – 4 hours runtime
- > 200 lumens low – 7 hours runtime
- > Strobe – 20 hours runtime
- > Hidden micro USB charge port internal charging with charge indicator

- > IP55 dust/mud/ water resistant
- > Polycarbonate shatter-proof lens
- > Quality braided USB cable
- > Tested to world standard ANSI ratings
- > Aircraft grade anodised aluminium
- > Includes lanyard and magnetic belt pouch
- > Laser etched ARB logos

Technical

Specifications

- > Beam distance - 300m/984ft
- > Lumens - 800 high, 400 medium, 200 low
- > LED type - LUMINUS® SST40
- > Battery - 3.7V 2600mah 18650 li-ion battery
- > Runtime - 8 hours - low, 4 hours - medium, 1.5 hours - high & 20 hours - strobe
- > IP rating - IP55 (Dust/mud & high-pressure water resistant)
- > Charge time - Up to 4 hours via USB charge cable
- > Accessories - Micro USB high current braided cable, belt pouch
- > Certificates - CE & RCM(SAA)

Dog Ramp

See it in action at
www.britpart.com/DA1631

*Make life easier for
you and Rover!*

DA1631 NEW

This handy dog ramp is perfect for dogs who have difficulty jumping into the back of your Land Rover. With an anti-slip coating the ramp is quick and safe to use even in wet conditions. The ramp is perfect for aging & injured dogs as well as puppies and smaller dogs who can't reach!

No more hurting your back lifting up your dog!

Features

- > Telescopic lightweight design for quick and easy storage
- > Rubber feet to hold ramp in position
- > Catch to hold together when stored
- > Anti-slip coating

Specifications

- > Maximum weight capacity - 90kg
- > Weight - 7kg
- > Length compressed - 1,000mm
- > Length extended - 1,850mm
- > Width at widest point - 450mm
- > Deck width - 390mm

The acoustic mat system has been designed to drastically reduce noise entering the cabin of your Land Rover. Made from cast dense polyurethane, the mat is built to industrial standards for reducing noise levels often found in construction equipment. It provides a hard wearing, durable surface that can withstand constant daily use and is easy to clean. A custom fit mat drastically reduces noise entering the cabin and panel reverberation.

Easy to clean

- > **Reduces noise** - the complete system negates the need for engine and gearbox blankets
- > **Hard wearing** - harder wearing than rubber - it will probably outlast your Land Rover
- > **Easy to fit** - no glue and is transferable
- > **Easy to clean** - can be hosed out
- > **Insulation** - provides insulation to keep heat out (or in)
- > **Inert** - mat will not rot or hold water unlike felt or carpet
- > **Resistant** - material is fuel, oil, water and sunlight resistant

Defender/Series

The kick plate on the Defender is prone to damage and can lead to the inside of your Defender looking tatty and tired. Protect that edge and smarten up your interior by fitting a pair of these panels.

- > Supplied in pairs
- > Can be trimmed to fit Series vehicles
- > To be paired with Acoustic Mat Systems
- > Easy to fit & easy to clean
- > Inert - will not rot or hold water
- > Resistant - material is fuel, oil, water and sunlight resistant
- > Fire retardant

Cubby Boxes & Armrests Defender & Series

‘Chubby’ Boxes
Extra padded lid!

FWJ500020PMA
Cubby box double cup holder for both old and new model Defenders - ideal for holding a Britpart travel mug or two!!
Note - Will fit Defenders up to 2007. To fit to existing carpet lined cubby box the lining may have to be taken out.
Excludes travel mug - DA8015.

Fitting a Britpart cubby box in your Land Rover will help you keep your vehicle clutter free. With a double cup holder as standard, spilt drinks are a thing of the past. Hand-built in the UK, these quality cubby boxes are suitable for Series 3 and Defenders. Expertly crafted with precision tools using a hard wearing leatherette outer with locking stay brass hinges.

‘Chubby’ Boxes
Fitting a Britpart ‘Chubby’ box in your Land Rover will also make driving more of a pleasure with the extra padded lid. In addition to our standard chubby box features, our ‘Chubby’ boxes have a lovely thick and comfy 80mm thick lid. This compares to 20mm thick lid for a standard cubby box.

Bulkhead Bars

DA1810 Defender OEM bulkhead removal bar kit

DA2351 Defender bulkhead reduction bar kit

Need more leg room and seat adjustment in your Defender?

These bulk head bars alleviate that problem without compromising strength. The bulk head bars allow for extra seat recline and travel on the seat base - giving you a more comfortable seating position and more space in the front foot wells. The bars create a rigid bracing for the front of the Defender tub as well as the added benefits of extra room in the vehicle due to the seats being more manoeuvrable, access to the rear of the Defender is now not compromised by a higher bulk head. Powder coated and supplied complete with all the necessary fixings and instructions.

Glove Boxes

DA2603

DA2603CF

Extended Seat Rails

DA2148

Give your Defender (including 2007 onwards model) seats 3" of extra slide with a pair of these seat rails. Ideal for the taller driver to give a more practical and comfortable driving position. One pair of rails is suitable for one seat.

- > Ideal for the taller driver.
- > A more practical and comfortable driving position.

Neat storage solution for the Defender - 2007 onwards model - which utilises the available dashboard space. Ideal for storing all the usual small items you carry with you. Robust construction and easy to fit with all the necessary parts supplied. Suitable for both right and left hand drive vehicles.

Seat Box Protectors

Got a great photograph of your Land Rover?

Why not enter the Britpart calendar competition for your chance to make your Landy a star. Full details can be found here - www.britpart.com/calendar

DA1435

Defender seat box protectors - pair
 The edge of the Defender seat box is prone to damage, protect that edge and smarten up your interior with these protectors.

Made from 3mm black plastic and CNC cut for accuracy. Less than 5 minutes to fit and all you need is a drill for the fixings.

Kit includes a pair of corner protectors and 14 no. 8 x 19mm flanged steel self drill black fixings.

These will also fit a Series 2 & 3 but will require matching drilling to accommodate seat rail fixing.

Retrofit Seat Heaters

Enjoy warm seats at the flick of a switch

DA5717

These retrofit seat heaters will allow you to enjoy a comfortable and warm seat in any Land Rover vehicle with a removable seat cover. These highly durable and flexible heating elements are placed between the upholstery and seat cover on the seat base and back and will not alter the shape of the seats.

There are two switches provided for the driver and passenger seats which allow the heat output to be altered to the two different settings. A ready-made cable set connects the switches to the 12V on-board power supply to the heat the pads. There are integrated temperature sensors which ensure that the seat heater will not overheat.

Operating voltage: 12 volt

Output: Low - 44 watts / High - 90 watts

Dimensions: Seat base - 400 x 280mm / Backrest - 300 x 280mm

- > Complete set for driver and passenger seats.
- > Two stages of heating.
- > Kit includes four heating elements and items needed for installation.
- > Pre-assembled cable set with switching relay and buttons included.
- > Temperature guard to prevent overheating.
- > Heating elements are durable and extremely flexible.
- > For use on seats which have a removable cover.
- > Includes fitting materials and instructions.
- > Test mark: e-approved to 95/54/EC (EMC guidelines for vehicles)

The highly skilled team in the Britpart Trim Shop make a wide range of seats and seat covers for Land Rover vehicles by hand. The material arrives in vast reams and has to be cut with great precision before being stitched together and then assembled into seat bases, seat backs, seat benches etc. In keeping with the Britpart philosophy, all products leaving the Trim Shop are produced to the highest standards and meet with the strictest safety regulations.

Trade Tack Stab

DA6348

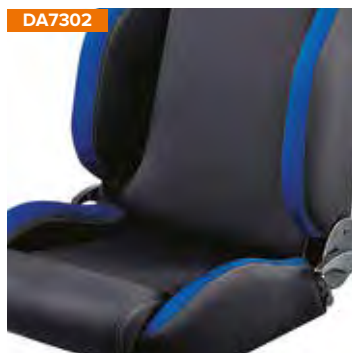

Super bond spray adhesive.

- > High strength
- > Variable spray
- > Quick
- > Clean
- > High tack/long tack
- > Very fast set
- > 250ml aerosol

Ideal for bonding and laminating of polyurethane foam, polystyrene foam, fibres, fabrics & felts etc to themselves.

Sparco Seats

- > Lightweight and compact
- > High comfort
- > Tubular frame construction
- > High quality recline mechanism for smooth and easy adjustment
- > Compatible with 3 or 4 fixing point harnesses
- > Base mounted - 271 x 345mm

These Sparco seats are ideal for the Defender (excluding truck cabs*). Drawing on decades of racing history, Sparco has created a line of street car seats that offer the ultimate in comfort and performance. The ergonomic designs help cradle and protect the driver against even the most demanding lateral forces. The R100 is Sparco's latest incarnation of ground-breaking steel-model seats. It features redesigned bolsters for greater support and new padding configurations for improved comfort. It has been built with comfort and support in mind but it's lower side bolsters and slightly narrower steel frame allow it to fit into vehicles where fitting seats with larger side bolsters may be difficult. The seat features backrest harness slots so that it can be used with a race type harness or normal seatbelts. The seats can be reclined using the double adjuster lever. Made from a durable fabric, the R100 is available in single tone or duo-tone styles. Duo-tone styles feature contrasting side accenting and stitching to match any interior. The Sparco R100 range is designed to attach using Sparco vehicle specific seat mounts.

*Not suitable for vehicles with truck cabs fitted as they restrict the leg room in the vehicle.

Corbeau Seats

Corbeau Sportline RRS Low Base Seats

A revised version of the RSS, the Low Base has been designed specifically for Defender owners. The RRS has up-to-the-minute styling, giving you the ultimate in comfort and safety. This steel-framed sports recliner has a high quality moulded foam cushion, with lumbar support to give maximum comfort whilst not compromising lateral support. With its ultra low side bolster this is the perfect application for any high rise vehicle. Fitted with a high quality single reclining and tilting mechanism for ease of adjustment. TÜV Approved. Sold in pairs.

Defender 90

These rear window surrounds will fit all versions of the 90, however, if the vehicle has a higher bulk head, the fitter will need to remove a section of the surround which is clearly marked with a witness line on the inside of the moulding. This can be done very easily with a 'Stanley' knife or similar.

Chain Cover

330422

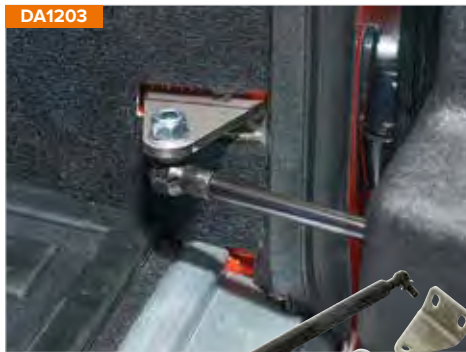

330422

Defender - 1987 - 2006/Series
Stop your tailgate chain rattling away with this easy to fit chain cover. Single. Requires 2 per side.

Door Stays

DA1203

Does your Defender's rear door sometimes close on you unexpectedly?

This neat and easily installed gas strut kit will solve that problem and replaces the original door stopper. The gas strut will hold the door in place when open - even with a spare wheel in place - and will assist in the opening of the rear door too with a smoother and more controlled movement. Complete with fittings and instructions.

ARB

DA419024V

Quality components for quiet operation and extra long life.

ARB High Flow On-board Compressor Assembly

DA4190 12 volt
DA419024V 24 volt

- > Airflow - 87.2lpm
- > Designed for Air Locker use.
- > Sealed for moisture and dust resistance.
- > Hard anodised cylinder bore and Teflon impregnated carbon fibre piston seal for reduced friction and maximum trouble free life.
- > Heavy-duty maxi-fuse equipped for professional in-line circuit protection.
- > Quality components for quiet operation and extra long life.
- > Anodised mounting brackets dissipates motor heat and allows compressor to be repositioned by 180°.
- > Constructed entirely of lightweight, high strength engineering grade materials.
- > Over-pressure safety valve equipped.
- > Motor is internally thermal protected against extreme temperature damage.

ARB Compact 12 Volt On-board Compressor Assembly

DA4958

- > Airflow - 27.7lpm
- > Designed for Air Locker use.
- > Compact, vehicle mounted design.
- > Sealed for moisture & dust resistance.
- > Quality components for quiet operation & extra long life.
- > Mounting bracket allows for versatile positioning.
- > Kit contains 12V air compressor, mounting bracket & hardware, auto on/off pressure switch, plug-in Air Locker wiring loom and installation instructions.

ARB Twin On-board Compressor Kit

DA4985

Designed to fill the market need for a compact sized yet high-volume compressed air source to suit the high volume airflow needs of most air powered tools it also suits the actuation and control needs of the ARB Air Locker, and the harsh and demanding environment of the ARB Air Locker user. Much more information available online.

ARB air compressor wiring loom for DA4190 & DA419024V

ARB - continued

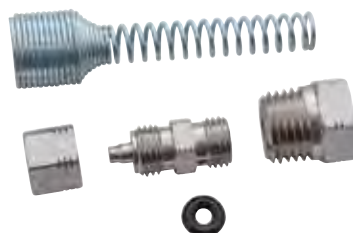

ARB Air Tank
DA6836

- Ideal for use with ARB's twin motor and high output on-board compressors.
- > 4 litre aluminium air tank.
 - > Rated to a maximum working pressure of 1030KPA (150PSI).
 - > Delivers high volume air output suitable for rapid tyre inflation and most air powered tools.
 - > Two 1/4NPT ports (input and output) with JIC-4 male fitting pre-installed.
 - > Designed for use with ARB's on-board compressors.
 - > 50% lighter than an equivalent steel tank.
 - > Mounting hardware included.

ARB Air Compressor Pressure Switch
DA8994

Threads into the ARB air compressor to regulate internal pressure in the compressor tank. Turns compressor on at 70psi and off at 100psi.

ARB Bulkhead Fitting Kit
DA8956

Handy little kit to help pass an airline through any panel. 5mm to 3.5mm O-ring type. ARB 170111

ARB Air Locker Manifold Kit
DA6837

- > Designed for the remote mounting of air locker solenoids.
 - > Stainless steel braided PTFE hose and fittings connect to and cool the compressor outlet air.
- Kit includes
- > Manifold body with mounting bracket
 - > 2 x 1/8" BSP ports for installation of up to 2 x Air Locker solenoids
 - > 2 x 1/4" NPT ports, one to be used as an input and the second could be used for installation of a pump up kit
 - > 1 x high temperature resistant Teflon stainless steel braided hose with heavy duty JIC4 fittings
 - > 2 x JIC4 - 1/4" NPT nipples to connect the included hose to the compressor outlet and manifold kit input
 - > 2 x M6 hex head bolt and nylon lock-nuts for securing the manifold kit

ARB Air Locker Heavy-duty Hose Kit
DA1467

- An extremely durable accessory for use with ARB Air Lockers in harsh driving conditions. The high-pressure pneumatic hose is covered with durable elastomer and textile reinforced for ultimate robustness, mounting to the frame and extending to the differential.
- > Length: 4ft
 - > Suits all vehicle makes and models with a universal fit
 - > This kit replaces the section of blue nylon air hose between the vehicle's chassis and the differential
 - > Uses AN-4 fittings
 - > Includes fittings and mounting hardware

For the compressors to activate the ARB airlockers.

LINX - The Next Generation Of 4x4 Accessories **LX100**

LINX is a unique modern controller that declutters the dashboard and centralises the command of vehicle accessories by replacing classic switches, gauges and monitors with one sleek and smart driver interface. Built on an expandable platform, LINX will continue to evolve your on and off-road driving experience both now and into the future.

Experience Total Control

Fitting out a modern 4X4 with a range of accessories such as driving lights, air lockers, dual batteries and air compressors can quickly lead to a dash full of out of place, hard to reach switches and a myriad of gauges and monitors either stuck to the windscreen or drilled into the dashboard – not to mention all the associated fuses and wiring.

LINX offers a single point of control via its user-friendly, Bluetooth enabled, mobile touch screen display. The LINX mobile display mounts conveniently and unobtrusively within reach of the driver while the main control hub lies neatly out of sight under the dash or seat; taking care of all accessory wiring.

LINX comes with six pre-installed modules: Front and Rear Traction, Compressor Control, Accessory Switchboard, Battery Monitor, Speedometer and Air Suspension Control.

General Settings

Beyond its expansive range of modules, LINX presents a truly adaptable platform with module level settings, as well as, many additional general settings.

- Functions
- > Set theme colour to match your vehicle's dash
 - > Engage night mode which engages when your headlights are activated
 - > Set all measurements to your preferred units
 - > Software upgradeable via WiFi connection

Linx Airbag Suspension Isolation Kit

This allows owners with air suspension to take full advantage of LINX's Airbag Suspension Module.

7450107

Linx Pressure Control Kit

Offering 'set & forget' simplicity to tyre inflation as well as remote control over your airbag suspension.

This amazing system offers so much more than we can fit on this page. For more information visit www.britpart.com/linx

What's In The Box

- > LINX display screen
- > LINX controller
- > USB charge cable
- > 3 wiring looms
- > LINX gimbal mount
- > Quick start-up guide
- > 1 Pre-installed display screen protector

170112

- > Specifically engineered to work with differentials and ARB Air Lockers
- > Compact and lightweight design with push-in fittings for simple installation
- > Four breather ports for multiple applications
- > Mounting holes will accommodate M6 bolt or stud
- > Splash resistant air filter with washable high flow sintered bronze filter cartridge
- > Oil, water and heat resistant 8mm polyurethane tubing reduces likelihood of oil blockages
- 1 x Anodised aluminium manifold
- 1 x Air filter
- 1 x 8mm x 8m polyurethane tubing
- 4 x 8mm-1/8" BSP push-in fittings
- 3 x 1/8" BSP plugs
- 2 x Self-tapping screws
- 10 x Cable ties

4X4 ACCESSORIES

ARB products available
in the UK only.

There's much more to LINX than meets the eye – see how it can unlock a brand new experience with your 4X4 accessories. Visit the LINX site to explore each feature - linx.arb.com.au/

ARB - continued

ARB Diff Lockers

- > Provides 100% traction on demand without affecting on road driveability or driveline wear.
- > Vastly improved traction means less reliance on momentum, thus reducing the likelihood of vehicle damage and environmental impact.
- > Easy, convenient operation allows the driver to concentrate on the terrain without leaving the comfort and safety of their seat.
- > Ultra durable and extremely strong - only the highest quality materials used in construction.
- > Incredibly simple yet effective design that employs minimal moving parts, thereby ensuring maximum reliability.
- > Thoroughly tested and proven design - trusted and used in over 80 countries around the world.
- > Easy installation and maintenance - no special tools, skills or additives required.
- > Two year warranty guarantees the Air Locker will be free of defects in materials.

Air Locker locking differentials allow you to tackle the toughest terrain. As the world's premier traction aid, ARB Air Lockers keep you moving in all conditions. Ultra durable and extremely strong - only the highest quality materials used in construction.

Part Number	Vehicle/Model	Year	Axle Location	Shaft Description	Shaft Diameter	Spline	Ratio

DA6254	Range Rover Sport	2005 - 2013	Front	IRS, Clamshell type	31.5 (1.24")	29	All

Notes - **1.** If vehicle was manufactured during 1993, check spline count. **2.** Air Locker not available for vehicles equipped with high load option. **3.** Ring gear spacer required. Longer ring gear bolts (not supplied) are also necessary - (Land Rover part no. 576521). **4.** When an DA4191 Air Locker is to be installed in Range Rovers manufactured prior to 1980 (approx.), special carrier bearings (No. K11300/K11162) may also be necessary - Land Rover part no. RTC3426. **5.** Some vehicles have crown wheel bolts which cannot be reused and must be replaced. Consult service manual. **6.** P38A is most commonly found in traction control equipped vehicles. Identify P38A type diff by large 205mm [8.07"] flange diameter. P38A was not used on North American delivered Discoverys - use DA4193.

ARB Diff Cover

Defender - rear Salisbury axles.
High tensile solid nodular iron structure (tougher and harder than solid carbon steel) protects the differential and ring & pinion set from the obstacle impact hazards of competition rock crawling, or extreme off road trails.

DA1225

DA1225 Cross Pin

The standard LT230 transfer boxes have a two piece cross pin in the centre diff, this is two shafts with a cut out in the centre so they can overlap. This one piece heavy-duty cross pin is much stronger.

Diff Locker

- > A unique non-rotating annular piston locking actuator is designed to eliminate air leaks sometimes found with rotating seals.
- > The annular piston is also designed to eliminate the oil blow back in the air exhaust line.
- > The large piston area gives maximum hold-in force to reduce the possibility of jumping out of lock.
- > Locking ring gives full 6mm positive engagement with side gear, again reducing the possibility of jumping out of lock.
- > Gears have been redesigned for maximum strength and durability.
- > The lock ring is made from high spec 300m steel to provide ultimate strength and ability to withstand shock loads.
- > Locking actuator cage made from steel to withstand shock loading caused by power locking.
- > Locker body turned from billet 817M40T (EN24T) to give optimum strength.
- > Only change necessary to fit the locker is drill and tap the diff housing 1/4" bsp for the air feed fitting.
- > No changes to the axle case.
- > Requires on board air supply - not supplied.

Discovery 1 - 1993 - 1998	Front & Rear
Discovery 2	Front & Rear
Range Rover Classic - 1993 - 1996	Front & Rear

- > Fully automatic - needs no driver input
- > Totally transparent on road, i.e., no unwanted adverse effects
- > Only comes into play when one wheel loses traction, i.e., a difference in wheel speed
- > Enhances the traction control as it multiplies the bias load created by the braking effect of the traction control
- > Needs no special oils
- > Needs no adjustment as the gears compensate for any wear that takes place
- > Only with 24 spline side gears

Heavy-duty Crown Wheel & Pinions

With the standard diff design, under extreme conditions, the front diff tries to climb out of full engagement under full power and then easily strips the teeth. Ashcroft has cut the gears in reverse for the front so they try to push together in mesh rather than push out so much stronger than the original design. Ashcroft looked at the materials used and compared these to the genuine materials used by Land Rover. The range are made from improved materials which is an improvement over the genuine specification. All pinions accept the later 24 spline drive flanges and have the female thread to accept the later type bolt (FS112301P) and washer (FTC5413), all ring gear threads are the stock 3/8 UNF, we stock the late flanges head high tensile bolts for these also FTC5150, see related parts. Ashcroft have chosen to coat the crown wheel and pinions in chemical black to aid corrosion resistance and offer a unique appearance.

Diff Lock Lever Kit

DA1178

Discovery 2

Early Discovery 2's were not supplied with a centre diff lock function for the LT230 transfer case although the vehicles still have the centre diff lock installed in the transfer case. To get the diff lock function to work it just needs connecting. The linkage is easy to fit, cable operated and very neat. You attach the existing high/low stud to this new lever assembly. This kit will only work on transfer cases with serial numbers starting with either 41D or 42D.

Detroit

Detroit Locker

- > 100% locking differential
- > Legendary traction
- > Ultimate performance

The legendary Detroit Locker began the revolution in performance differentials and still leads the industry today as an Eaton brand. The Detroit Locker is the most durable and dependable locking differential available.

The Detroit Locker maximises traction by delivering 100% of the torque to both drive wheels. It is engineered to keep both wheels in a constant drive mode, and has the ability to automatically allow wheel speed differentiation when required.

No other performance differential has the reputation for delivering traction in mud, snow, rocks and on the track. The choice of professional racers and off-road enthusiasts around the world! The durability of the Detroit Locker is unmatched!

"The choice of professional racers & off-road enthusiasts around the world."

IMPORTANT

When fitting a metric diff centre with metric bearings into an imperial casing you will require the additional following parts. Diffs went from imperial to metric in approximately 1983, take a look at one of the heads of the four large journal end cap bolts, if '8.8' is on the head it is metric, if not then it is imperial. Parts are required for fitting to both Truetrac or Detroit lockers.

DA5712 Spacer ring

DA5713 Imperial bearing sleeves

RTC3095 Bearings. 2 x bearings are required

576521 Longer bolts x 10

Fitting a Detroit Truetrac to the rear of a late Defender 110 will require the spacer ring DA5712. Ten longer bolts are needed too 576521 is a pack of 10.

Detroit Truetrac

- > Smooth operation
- > Performs open until needed
- > Fully automatic limited slip

The Detroit Truetrac was the first helical gear differential ever introduced into the automotive aftermarket as an Eaton brand. It remains the leading helical gear-type limited slip differential in the industry. Detroit Truetrac's proven helical gear design eliminates the need for wearable parts, resulting in maintenance free traction.

Recognised not only for its toughness but also its smooth and quiet operation. Engineered to work efficiently in front and rear axles, semi-floating (C-clip axles) and transfer cases. Power transfer is so smooth, it literally goes unnoticed by the driver - even in front wheel drive axles.

Proven design, low cost and effective performance, all make the Detroit Truetrac limited slip differential the ideal choice for a wide variety of vehicle applications.

No maintenance - just traction!

Emergency Equipment

First Aid & Travel Kits

For first aid & travel kit contents details
www.britpart.com/safety

Mini First Aid Kit

DA5076

First aid kit stored in a lightweight, compact carry case. Great for people on the move and ideal for treating minor injuries.

Contents are CE certified.

Complete First Aid Kit

DA5077

First aid kit that includes a comprehensive range of essentials items stored away in a handy case. Ideal for the car, camping, home and travel. Contents are CE certified.

Essential Emergency Travel Kit

DA5033

Essential items for emergencies on the roadside. Compact carry case. Ideal size to store in front of the vehicle for easy access.

European Travel Kit

DA5028

Includes essential items when travelling to Europe. All products are manufactured to UK required standards where applicable.

Emergency Hammer

Life Hammer - The Original DA6500

- > Double-sided steel hammer for shattering windows quickly and easily for a safe and quick exit from any vehicle.
- > Razor sharp blade cuts through seatbelts to ease escape.
- > Fluorescent button allows hammer to be located in the dark.
- > Installation mounting bracket ensures hammer is accessible when you most need it.

Fire Extinguishers

STC8138AB

- > 2kg kit.
- > Long-life - 100% polyester resin coated fire extinguisher.
- > Safe handling & crash proof fastening.
- > Readiness to operate displayed by manometer.
- > Precision brass valve.

STC8138AB

STC8529AA

STC8529AA

- > 1kg kit.
- > One-handed operation fire extinguisher.
- > High rating.
- > Checkable & re-chargeable.
- > With crash-tested bracket.
- > Attractive design.
- > Controlled discharge.

Tyre Repair

Emergency Tyre Kit DA6652

12V Analogue Air Compressor

- > Pressure gauge in psi, Kg/cm2, bar.
- > Complete with 3 piece adapter kit for bikes, air beds and other inflatables.
- > Flexible air hose with screw valve connector.
- > Separate on/off power switch.
- > Fitted with fused 12v power plug.

Analogue Tyre Pressure & Depth Gauge

- > Tyre pressure measurement in psi/bar.
- > Gauge range 0-120 psi / 0-8bar.
- > Tread depth range 0-25mm.

Tyre Repair Sealant

- > 400ml tyre sealant.
- > 1 aerosol for one tyre, a single use product for tyres up to and including 16".

Accessories

- 1 x pair protective gloves & 1 x pair of cleaning wipes

Don't get stranded!

Be prepared for a puncture or tyre deflation by carrying the right equipment.

DA2390

Tyre repair kit in travel case.

Pack and leave an easy to use Britpart tyre repair kit in your vehicle.* See the wheels section for more details on the tyre repair kit from Britpart.

* Recommended for off-road use only.

Emergency Puncture Repair Sealant DA6651

- > 400ml tyre sealant.
- > The sealant is an equal mix of a hydrocarbon propellant and water based liquid latex.
- > 1 aerosol for one tyre, a single use product for tyres up to and including 16".
- > A temporary repair designed to get you home no need for any tools or wheel changes.
- > For use on tubeless tyres only.
- > Will not repair tyres that have come off the rim, are ripped, have punctures larger than 5mm or have damaged walls.

Recovery Kits

Britpart Pulling Power winching recovery kits come with all the basic items needed to ensure your winch can be used to the best effect. There is a choice of a starter or professional kit depending on your needs.

DB1015

- 1 x DB1000 Wheel chocks (pair)
- 1 x DB1001 Winch kit bag
- 1 x DB1002 Snatch block - 9,000kgs
- 1 x DB1006 Tow strap - 8 ton, 60mm x 9m
- 1 x DB1007 Tree strap
- 1 x DB1010 Winching gloves
- 1 x DB1011 Snatch tow sling - 8 ton
- 2 x DB1012 Alloy bow shackle - 4.75 ton
- 1 x DB1016 Winching blanket

Jacks

ARB Jacks

1060001

ARB Hydraulic Jack

Adding a new dimension to traditional techniques, the long-travel ARB JACK is backed by the unique power of hydraulic technology. Kicking into action when even the lightest force is applied to the handle, the hydraulics will smoothly jack the vehicle up at up to 13mm increments with each downward manoeuvre. Whilst in action, a black rubber body bumper shields the vehicle from risk of damage during the recovery. The easy-to-access red lowering lever ensures lowering the vehicle is achieved swiftly and safely thanks to the two-stage descent feature and safety stop. Empowering the user with dual lowering speeds, with a press of the lever, a slow or rapid descent can be achieved.

Keeping A Low Profile

Carefully designed upon the importance of matching ergonomic form with safe and reliable function, the handle's high position and top pivot function provides users with ultimate control while preventing the need to uncomfortably kneel down in a deep trench to operate.

Ready For Heavy Lifting

JACK's body is made from hardy aircraft grade 6061 T6 aluminium and the shaft from military grade nitride for for maximum strength and corrosion resistance. Running up the body, 9 locating points offer the adjustable hook a wide range of lifting heights; capable of lifting up to a total of 2,000kg. When under load, an internal blow-off valve provides overload protection to safeguard both JACK and most importantly, the user, from the dangerous consequence of the vehicle suddenly dropping if the working limit is exceeded.

Stand Your Ground With 360° Adjustability

Standing true to its adaptable character, JACK features an adjustable foot that can be rotated 360° via the shaft to match the angle of the terrain and reach a firm, stable connection between the base and ground surface.

Specifications	
Minimum lifting height:	160mm
Maximum lifting height:	710 - 1,230mm
Travel:	540 - 550mm
Lifting range:	160 - 1,230mm
Maximum capacity:	2,000kg
Compressed height:	890mm
Extended height:	1,432mm
Weight:	10.5kg
Lift per stroke:	13mm

DA2244

Jacking point adaptor

Allows the use of the jack with the standard jacking points on a Defender.

72X10 NEW ARB Exhaust X Jack

Total lift height - 750mm / Total lift weight - 2 tonnes
Bushranger® X Jack is designed and engineered to perfection. This award-winning product has a long history in the Australian landscape and put to the test many times. The X-Jack has a triple layer top with a hardcore for maximum protection and stability. The patented two-way inflation system can utilise exhaust or a portable air compressor inflation which provides added control in rate and extent of lift required.

The X Jack assists lifting vehicle in a diverse range of situations or conditions such as sand, mud, snow or soft ground.

Dual inflation - Dual alternatives for inflation provide the option of completing the inflation process by connecting a portable compressor to the X Jack valve inlet or by the exhaust. (High temp hose included to 140°C.)

Quality construction - The hard top integrated between two layers of reinforced PVC provides structure, reducing the risk of puncture during inflation and deflation.

Convenient - Due to the X-Jacks inflatable nature, it goes anywhere, collapsing flat for easy storage into a heavy-duty storage bag.

72X04 NEW ARB Exhaust Jack

Total lift height - 780mm / Total lift weight - 2 tonnes
Bushranger® Exhaust Jack Series II is designed and engineered to perfection. This inflatable jack has a long history in the Australian landscape and put to the test many times. The exhaust jack is an essential piece of equipment that should never be far away in case of emergency. Simple and easy to use will lift your vehicle in seconds out of the undesirable situation. Suitable for use on vehicles, trailers, caravans or farming implements. The Exhaust Jack assists lifting vehicles in a diverse range of situations or conditions such as sand, mud, snow or soft ground.

Simple & easy to use - No complicated moving parts, no jamming or seizing. Reliable and ready to go when you are.

Quick recovery - Will safely lift your vehicle up out of a bog in seconds.

Complete kit - Includes, exhaust jack, 3 x protective mats, gloves, coated instructions, convenient carry bag.

Jackall

Rugged & Pow'R-Full Jacks!

Built with a patented 'Safety Link', the Maasdam Jackall is the 'Jack with More!' Larger base for greater stability. 'Safety Link' mechanism that prevents abuse, misuse and makes operations safer. Jacks come with a lifetime warranty and are built to current ANSI/ASME specifications. When safety and dependability matter most, continue to rely on Jackall.

Features & Benefits

- > Patented 'safety link' mechanism which prevents abuse and misuse.
- > Heavy ribbed, extra large base which provides strength and greater load stability.
- > Cast components assures long life, trouble free operation.
- > Hot roll-formed, alloy steel beam which is strong and reliable.
- > Steel handle locks against beam for convenient storage.
- > Powder coated through and through which reduces scratching, greater corrosive resistance.

Lift Rod Kit

DA7531

- DA7531
Fully adjustable suspension lift rod kit
Discovery 3/Discovery 4/Range Rover Sport - 2005 - 2013

"The ease of changing the ride height is what separates these rods from others in the marketplace."

These adjustable rods replace the plastic and rubber parts Land Rover supply on the vehicle. Made from aluminium with an industrial heavy grade rubber bushing, the aluminium parts are anodised black to help with corrosion protection and blending in when in the garage for work.

The lift rods have two settings; standard and off-road. With the air suspension set to normal driving height the lengthened rods will give you standard road and off road driving heights. If you shorten the rods the standard ride height will be approx 50mm higher. If you select off-road height the vehicle will be in the 'super extended' position.

No tools are required and should take no more than 2 minutes to do all four rods.

Access to the front is over the front wheels and for the back is through the rear wishbones (blanket required!)

Note - If run for a long time in off-road position then wheels may need realigning.

10100111 NEW ARB Jack Base

The ARB Jack Base is designed to suit your ARB Jack® or Hi-Lift™ Jack providing a good surface area to ensure good contact of the jack to the ground and jack to the base. This provides a safer environment for the user and increased performance of the jack by limiting slippage or sinking into the ground you may be jacking on.

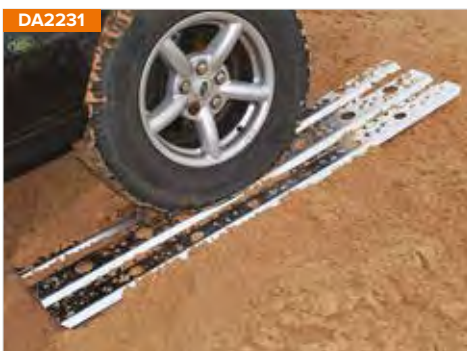

Features & Benefits

- > 324mm x 304mm x 56mm
- > Alleviates sinkage on soft ground for safer use
- > 7000kg rated load capacity
- > Designed to suit your ARB Jack® or Hi-Lift™ and other suitable farm jacks.
- > Heavy-duty high-density polyethylene construction
- > High visibility safety orange
- > Non-slip textured pattern on bottom of the Jack Base for extra grip
- > Rugged construction meets all ARB standards for strength and durability
- > Can be mounted on a TRED™ Pro mounting kit or on the shaft of a Hi-Lift™ Jack using optional mounts (sold separately)
- > Easy and comfortable grab handle
- > Can be used as a rake to level terrain
- > Can be used as a wheel chock or jockey wheel receiver
- > Convenient leash attachment points for easy retrieval of the Jack Base after use (sold separately - TLOARB)
- > Designed and made in Australia

Land Meters

- > Independent twin meter.
- > Convenient for seeing the pitching and rolling of the vehicle body or terrain.
- > Transparent illumination for easy-to-see readings at night.

ARB TRED Pro™ Recovery Boards

TREDPROBB Black/Black

TREDPROMGO Grey/Orange

Features

- > Exotred™ unique and patented composite construction
- > Sipe-Lock™ patented grip profile
- > Unique nylon material for superior flex and durability
- > Special glass filled resin nylon teeth to reduce premature wear from wheel spin
- > Lower profile for stacking and storage
- > Retro fit mounts to suit most recovery board mounting options
- > Ergonomic handles for shovel control
- > Contour ramp with real 4x4 tyre data, dimensions and tread patterns for optimized design
- > The first recovery board to boast a lifetime warranty
- > Made by four-wheel drivers for four-wheel drivers
- > ARB unique colours and branding

Technical Specifications

- > CAD modelled 4X4 tyre patterns for the right traction in the right place
- > Unique two material composite over molded construction
- > Patented composite 2-layer nylon design
- > Glass filled nylon teeth

Dimensions:

- > 1,160mm x 330mm x 65mm
- > Nested/stacked height – (one set/pair) 85mm

ARB TRED Pro™ Recovery Leash

TLOARB

Recovery leashes assist in locating your TRED Pros should they bury beyond sight after vehicle recovery. 1500mm length. Supplied as a pair.

ARB TRED Pro™ Mounting Kit

TPMK

TRED Pro mounting bracket has been designed to perfectly suit and secure the TRED Pro recovery boards. Designed to be easy to mount in a variety of ways and allows you to mount two sets (pairs) perfectly nested. Built with off-road enthusiasts in mind, the TRED Pro mounting bracket is made from corrosion resistant materials and a robust, durable design to ensure it satisfies the rugged conditions of the great outdoors.

- > Corrosion resistant - made from the highest quality aluminium and polypropylene
- > Lockable - using a 6mm padlock you can protect your TRED Pros from theft
- > Quick release twist - for when you need to get your TRED Pro in a hurry
- > Easy & versatile installation - tie, bolt or screw to virtually anywhere

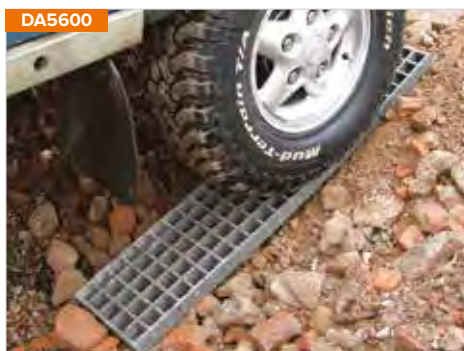

Note - TRED Pro mounting bracket comes as a single unit. Depending on your fitting requirements you may need to purchase two units. Fastening hardware not included.

ARB TRED Pro™ Carry Bag

TPBAG

The TRED Pro carry bag is made from durable and waterproof canvas material. It features various gear storage pockets for your tow straps, shackles, winch blocks and anything else you need to carry. The extra-large front pocket is made from high quality UV stabilised mesh, great for keeping anything you need to dry out and doubles as a great rear wheel trash bag. The webbing straps will attach the bag to your rear wheel carrier, roof racks and anywhere else you can strap it down, they also double as great backpack straps. There is no other recovery gear bag like it. The TRED Pro carry bag has been designed to hold one set/pair of TRED Pro recovery boards.

XS PowerPack MULTI-FUNCTION JUMP STARTER

- DA1239** UK mains plug
- DA1239EU** EU mains plug
- DA1256** Replacement jump leads for DA1239(EU)
For 600A model - check pack label
- DA1255** Replacement 12V adaptor

Technical Specifications

Battery volume: 18,000mAh
Starting current: 350A

Size: 230 x 87 x 27mm
Weight: 615g
Output: 5V = 2.1A (smart phone/tablet fast charge)
12V = 10A
19V = 3.5A (laptops/notebooks)
Input: 14V = 1A
Peak current: 700A

- > Small and lightweight high capacity nano lithium polymer portable power pack with the latest battery technology.
- > Supports fast charging with low self-discharge cycle.
- > Charging cycles can reach more than 1,000 times.
- > Supports 12V jump starts as well as back up charging or many brands of mobile phones, laptops, tablets, portable refrigerators etc.
- > Supports 3 different types of charging modes.
- > Built in redundant electronic control safety protection for jump starter over-charging and over-discharging.

Raised Air Intakes

Britpart

If your likely to be driving your Land Rover in circumstances which could mean wading deep water or driving in very dusty conditions then you should consider fitting a raised air intake to your vehicle.

NRC6920

This version from Britpart is a classic mushroom-top snorkel for Defender. Featuring heavy-duty metal pipe work, cyclone pre-cleaner and a durable attractive matt black finish.

DA2225 Defender - 300Tdi/Td5

NRC6920 Raised air intake cleaner for DA2225
Inside diameter - 64mm

DA1966 NEW

XS Snorkel head

An easy to install enhancement for any Safari or Britpart snorkel. Compliments the Britpart XS range of air vents and grilles.

Safari

Pioneered in Australia in the early 1980's, Safari Snorkels were born out of a need to protect 4WD engines from the hazards of dust and water commonly encountered in touring and off road applications.

Safari snorkels are manufactured to the highest standards in durable, UV stable, cross linked polyethylene material, using stainless steel hardware where appropriate. Each system includes quality fixtures and fittings, which offer superior sealing, presentation and long-term durability.

In arguably the best, if not toughest environment, Safari Snorkel Systems are thoroughly researched, tested and tooled for each model of Land Rover. The Safari Snorkel delivers a continuous and cooler supply of air for maximum engine performance. It is positively sealed as well to ensure the best protection against deep water crossings and dust.

With it's patented Spiralcell® Technology, Optima batteries offer 15 times the vibration resistance and up to twice the life of ordinary batteries. The Optima is like no other battery found in today's market. Optima's unique patented Spiralcell® design offers the best technology by providing a strong and clean power source that far surpasses any of today's traditional lead acid batteries. With Optima as your choice, you can count on a longer lasting battery.

Yellow Top

Demand more from your vehicle? Then get more from your battery. Optima Yellow Top batteries are made for the extremes. If your vehicle is designed to take the abuse of off-road driving, you need increased performance and reliability from your battery. Optima batteries combine patented Spiralcell® Technology to deliver that performance. The deep cycle characteristics of this technology coupled with its extreme resistance to vibration provides performance vehicles with the repetitive power they need, packaged in a spill-proof compact design.

If your vehicle is fitted with high drain accessories such as additional lighting, tracking devices, ICE systems, winches, hydraulics etc, then this ultimately demands more from your battery. Optima Yellow Top batteries provide the extra performance and deep cycling capability that your vehicle demands.

Red Top

Optima Red Top batteries are built to withstand the abuse 4x4's experience on and off-road. Spiralcell® Technology immobilises the internal components of the battery, enabling Optima batteries to withstand incredible amounts of vibration.

Vehicles modified for improved engine performance demand more from a battery. Optima batteries withstand the high engine bay temperatures associated with these performance vehicles. The sealed construction makes the battery spill-proof, even if you install it on its side!

This prevents external gassing and leaking which can damage engine components and reduce battery performance. If your battery is used in applications that demand extra reliability endurance and performance, or if you just take pride in getting the best performance out of your vehicle, Optima Red Top batteries deliver the performance you demand.

Battery Charger

DA3185R

Multi-Stage Fully Automatic SmartCharger From Ring - the ultimate in battery maintenance. Diagnose, repair, recondition and charge in one automatic device. Ideal for long-term connection and winter charging. This is battery care made easy. This charger is a multi-award winning SmartCharger. It has won the Automechanika Madrid Exhibition Award for Innovation, Auto Express' Product of the Year and Land Rover Monthly's Best Buy.

- > Multi stage fully automatic SmartCharger.
- > Auto charge applies the fastest charge, based on battery size.
- > Includes settings for both standard vehicles and Start/Stop.
- > Includes battery repair tools to increase performance and battery life.
- > Charging current up to 12A.
- > Battery capacity: 25-300Ah.
- > Interactive LCD display.
- > Memory saver function allows vehicle and audio settings to be retained if the battery is removed.
- > Product dimensions - 139mm high x 197mm wide x 74mm deep
- > Weight - 1.48kg
- > Voltage - 230V AC input & 12V DC output

- > Includes the following battery and alternator analysis tools:
 - Start power test – measures voltage drop during engine start to identify potential battery issues
 - Alternator check – tests the recharging performance of the vehicles alternator
 - Battery cranking performance – measures the battery's cold cranking performance to determine engine starting ability

*Keep your batteries
in tip-top condition*

Battery-Guard

DA1460

With the Battery-Guard and Apple or Android App, you can check your battery's state of charge quickly and easily. Because only with a fully charged vehicle battery you can be sure to avoid getting stuck. Compatible from iPhone 4S, Android 4.3 and Windows 10.

Features

- > Several vehicles can be monitored
- > Easy install to the battery
- > Monitoring of 6, 12 and 24 volt batteries possible
- > Power consumption is only about 6-24 MW
- > Reverse-polarity does not cause damage to the transmitter or battery
- > App compatible from iPhone 4S, Android 4.3 or Windows 10

Operating Instructions

1. Download the Battery-Guard App

Compatible from iPhone 4S, Android 4.3 & Windows 10.

2. Connect the Battery-Guard

Attach the Battery-Guard to the battery terminals. Fix the transmitter to the cleaned battery using the adhesive film provided.

*Easy install to
the battery*

Battery monitoring via Bluetooth

3. Activate Bluetooth

Activate Bluetooth on your smartphone and then open the App. Bluetooth search mode is not required.

4. Functions

The transmitter appears in the list display. You can assign a name, an image and the rated voltage to the transmitter.

Replacement Batteries

- > Batteries are manufactured on the same equipment as OE batteries and use the same components to give consistent quality and performance.
- > OE quality standards, giving assurance that the batteries will not let the user down.
- > Batteries are recyclable, helping to protect the environment.

DA1174

Microprocessor Controlled Dual Battery Management System

DA1174

This fully automatic battery management system separates the starter battery from auxiliary battery if the vehicle has stopped and links them while the car is running. All systems are equipped with a 200A power relay. For emergency situations all systems are equipped with the manual override function (link). This manual linking function (called load sharing) is very helpful for jump starting or when using high current appliances such as an electrical recovery winch, power inverter or compressor. The kit includes a 4.7m wiring loom with sealed automotive plug, battery and crimp terminals for easy installation. The battery monitor is installed in the vehicle (dash) and informs the driver about the charge level of both batteries, the charging voltage from the alternator or an additionally installed solar system and the relay link status. The system offers low battery alarm on both batteries and a link failure alarm. Includes a manual link for 30 and 120 minutes with automatic return.

Functions

Display of Battery Voltage (Energy Level)

LED indicators:

Green: Batteries are in the safe working range

Yellow: Check batteries

Red: Batteries should be charged

The LED's show the energy level if all loads are switched off:

12.6V = 100% / 12.4V = 75% / 12.2V = 50% / 12.0V = 25%

11.0V = flashing and beeping indicates low battery situation

This function is called by pressing the display button for about 30 seconds.

Display of Charge Voltage while charging

LED indicators:

Red: >14.5V: High loading of batteries, may be present at cold ambient temperature for a longer time.

Yellow: >14.0V: Proper charge mode.

Green: <14.0V: Save charge mode, no damage to batteries.

Bi-directional Automatic Battery link

While the engine is running the main and auxiliary batteries are linked together for parallel charging from the alternator (green LED linked is on). If the engine is stopped, the two batteries will be disconnected automatically with some delay. Appliances such as fridges, lights, compressors, inverters are now safely fed from the auxiliary battery. With the additional charge by solar equipment, battery charger or generator is sufficient for charging, the starter battery will be charged automatically with auxiliary battery together (green LED "link" lights).

Manual Battery "link"

In an emergency situation (defective or empty main battery) or in case of higher power consumption the two batteries (main & auxiliary) may be connected together by activating the link button (red LED manually linked is on). After a lapse of time of 30 minutes (or immediately after activating the auto button), the system returns to the automatic mode. When using an electric winch, the battery connection can be activated for 120 minutes by pressing the link button twice. In this mode sounds a beep every 30 seconds to remind of this status (auto return after time expired). The load sharing function with the manual battery connection reduces the load on the alternator, the wiring and the batteries in the use of the winch.

Alarm functions:

Low battery alarm

If the battery voltage of one or both of the batteries, is for a longer period below 12V, the sound low battery with "Beep" and the LED "Low Battery" of the corresponding battery (main and / or auxiliary) flashes. With the display button, the "Beep" is switched off. The blinking LED "Low Battery" is reset if the battery voltage is exceeding 12V.

Link failure alarm

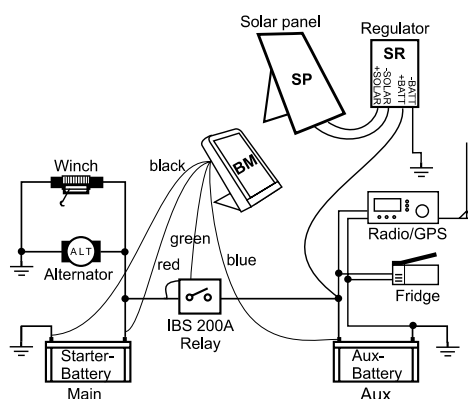

The monitor monitors the charge on both batteries. When fitting charge (from alternator, solar, charger) no charge to the other battery is detected, the link error alarm with flashing green LED "linked" and the "Beep" sounds. If this error occurs, check immediately the wiring of the power cables to (relay, battery terminals, crimp contacts, control relays). After bug fixes, alarm will automatically reset.

Deactivation of automatic and manual battery dual link function

If there a problem with the auxiliary battery (aux) as short circuit of cells, short circuit or defective battery housing, leading to damage of the generator (alternator). In an emergency situation the battery system can be operated in the vehicle in the basic configuration (alternator, starter battery without additional charge to auxiliary battery). By pressing the link button for 6 seconds (until the sound of the beep), the link is deactivated. In this mode, no manual and automatic battery connection is possible. This feature can solve the battery problem of the auxiliary battery by pressing the auto button for 6 seconds to be reset. Now the system is working again with all the functions.

Winch Application

Connect an electrical recovery winch to the main battery as shown in the wiring diagram.

Britpart
Winches

DB12000iR

If you are serious about off-roading then a winch is an essential piece of kit. They are indispensable when getting yourself and others out of tricky situations.

The Britpart Pulling Power range of powerful and reliable electric winches all feature a planetary gear system for fast line speed, free spooling, power in & power out and low electric current. Now with the larger winches you have a choice of having the traditional steel cable fitted or Dyneema rope.

A full range of winching equipment is also available from Britpart - including; safety gear, bumpers, chocks, hooks, shackles & ropes.

Together with the winches you'll be able to
'Get to where you want to go!'

DA7334	M10 x 35 bolt set & key

DA5691 NEW

Discovery 3 winch bumper

This impressive winch bumper is manufactured from 5mm steel and all the appropriate mounting brackets are made with 10mm steel. Smart powder coated matt black finish. Supplied with Wipac fog lights & aluminium washer bottle.

Winch Bumpers

Tubular Winch Bumpers

- > Stylish tubular steel space-frame construction for strength
- > Extremely close fitting for maximum approach angle
- > Compatible with many steering guards
- > Built-in high-lift jacking points
- > Integral rock guard
- > Supplied with full fitting kit

Note - Grille will need modifying

DA5609 Defender - air-con Black

Suitable for DB12000i & DB9500i winches

DA5622 Defender - non air-con Black

Suitable for DB12000i & DB9500i winches

DA5604 Discovery 1 Black

Suitable for DB12000i & DB9500i winches

Note - Grille needs trimming for fitment to air-con & automatic vehicles

Standard Winch Bumpers

- > Heavy-duty steel winch bumpers

DA5620 Defender - non air-con Black

Suitable for DB12000i & DB9500i winches

DA5681 Defender - non air-con Galvanised

Suitable for DB12000i & DB9500i winches

DA5623 Defender - air-con Black

Suitable for DB12000i & DB9500i winches

DA5643 Defender - air-con Black

Suitable for Warn 9000 and 9.5 Series winches

DA5621 Discovery 1/Range Rover Classic Black

Note - For vehicles without air-con and/or without transmission oil coolers fitted

Suitable for DB12000i & DB9500i winches

DA5645 Discovery 2 Black

- > One piece bumper manufactured from 5mm steel with wrap around sides to protect the wings

- > Fixed to standard mounting points with provisions for 2 swivel recovery points and 2 Hi-Lift jacking points

Note - Grille needs trimming to fit winch

Suitable for DB12000i & DB9500i winches

A range of winch bumpers to suit your Land Rover

Discreet Winch Bumper

- > Suitable for any low line winch
- > Made from 6mm and 8mm steel
- > Discreetly fits behind the existing bumper
- > Bolts directly onto the front cross member using existing holes
- > Modifications to bumper are required, includes instructions
- > Excludes fairlead

Note - Low line winch needs to have a removable solenoid.

2 Ton Flat Webbing Sling - Green

This soft and light polyester product reduces the chance of damage during use. The reinforced eyes make the sling both secure and reliable. Tested on a 7:1 breaking strain factor, this flat webbing sling ensures that the item is safe to lift a weight of 2 ton or less. Sling will come with the safe load limit, date of manufacture, serial number and test certification.

12-Strand Shackles

DA7336

Pair

Breaking load - 5,830kgs

Manufactured from 11mm 12-strand

UHMWPE rope with built in UV inhibitor. These are a lightweight, easy and safe way of joining ropes and stops. Due to the much lower kinetic energy being stored, using these shackles is much safer in the event of a rope or stop failure. Can also be used to attach ropes to standard towing eyes without scratching the paintwork.

ARB Snatch Block 7000

ARB2091

ARB's easy to use 7,000kg snatch block doubles the capacity of your winch and is suitable for a variety of off-roading uses. Engineered tough for serious recovery. Allows winching from awkward angles and incorporates a grease nipple to ensure smooth pulley operation. Suits mounted and portable vehicle winches.

Working Load	7,000kg
Breaking Strength	14,500kg
Side Plate Material	5mm cold rolled steel
Pulley Material	Solid billet steel
Pulley Diameter	93mm
Cable Size	6mm - 12mm
Weight	3.5kg
Greasable	Yes

4X4 ACCESSORIES

ARB products available in the UK only.

ARB2091

DA8995

ARB Snatch Block 9000

DA8995

Feature side plates that sit snug against the pulley, eliminating the possibility of the winch cable becoming trapped between the pulley and the side plates. The groove on the pulley itself tapers down to the centre allowing for a variety of cable sizes (1/4"-1/2") to be used and ensures the cable is seated securely in the pulley, minimizing lateral movement.

Features

- > Works with steel or synthetic winch lines
- > Light weight design
- > Easy to use
- > Doubles the capacity of your winch
- > Allows winching from awkward angles
- > Engineered tough for serious recovery
- > Suits vehicle mounted and portable winches
- > Vehicle recovery booklet enclosed

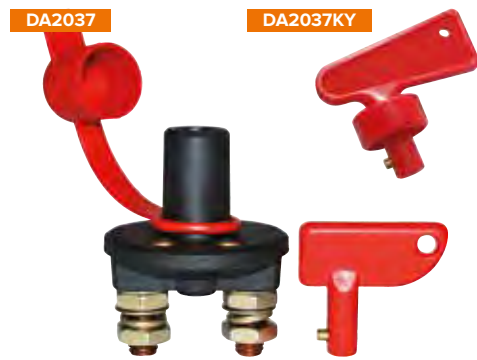

Specifications

Working load:	9,000kg (20,000lbs)
Breaking strength:	17,500kg (38,500lbs)
Side plate material:	6mm cold rolled steel
Pulley material:	Specialized polymer
Pulley diameter:	110mm (4.3")
Cable size:	8mm - 13mm (0.3"-0.5")
Weight:	2.4kg (5.3lbs)
Greasable:	Not required

Safety Equipment

- DA2037** Universal battery isolator switch
- DA2037KY** Replacement isolator switch key for DA2037
- DA3156** Winch In Safety - A5 guide from Land Rover
- DB1000** Wheel chocks - pair
- DB1016** Winch blanket - manufactured from heavy-duty vinyl, the blanket will absorb most of the recoil in the unlikely event of the cable breaking. It's also very useful to kneel on in the mud!

Gloves

When winching, gloves are essential safety wear to protect your hands from many of the hazards you may encounter.

DB1010 Gloves - Britpart

GLOVES Gloves - ARB

GLOVEMX Recovery gloves - ARB

Perfect for hand protection and keeping your hands clean during recovery situations, general work on your vehicle or around the campsite. Providing general protection in a stylish design, these gloves are a perfect addition to the glove box or recovery kit. Using premium synthetic materials to reduce abrasion and wear, as well as increase comfort on your hand, the ARB recovery gloves provide knuckle protection as well as palm protection with molded rubber impact guards. The high abrasion resistant material on the inside palm of the glove works well with wire or synthetic rope winch cables. Added protection to the palm and fingers provide a safe yet good dexterity glove with a firm fitment, reducing pinching hazards. The cuff is embedded with the ARB Recovery logo and touch tape fastener to keep the glove firmly fitted. Finished in a breathable microfibre and ARB hi-viz recovery orange (which is great for marshaling or spotting operations), these gloves will complement your already excellent ARB recovery range.

DB1308

- 12 volt winch remote control
- Operate your winch from a safe distance with this wireless remote control
- > High frequency circuit using SMD design for reliability
- > The transmitter uses FM technology for frequency stability and greater control distance
- > Receiver output is protected against voltage spikes

Winch with safety in mind

With an ARB recovery kit you have the peace of mind carrying a purpose-built recovery bag filled with a selection of items that will come in handy the next time you get stuck.

DA8932

ARB Premium Recovery Kit

- > 8,000kg snatch strap
- > 4,500kg winch extension strap
- > 12,000kg tree trunk protector
- > 9,000kg snatch block
- > Recovery damper
- > Winch pack storage bag (available separately - **DA8904**)
- > Bow shackles and gloves

DA8928

ARB Essentials Recovery Kit

- > 8,000kg snatch strap
- > 12,000kg tree trunk protector
- > 9,000kg snatch block
- > Snatch pack storage bag
- > Bow shackles

DA8932

GLOVEMX

Winching Accessory Kits

DB1015

Britpart Pulling Power winching recovery kits come with all the basic items needed to ensure your winch can be used to the best effect. There is a choice of a starter or professional kit depending on your needs.

DB1015

- 1 x DB1000 Wheel chocks (pair)
- 1 x DB1001 Winch kit bag
- 1 x DB1002 Snatch block - 9,000kgs
- 1 x DB1006 Tow strap - 8 ton, 60mm x 9m
- 1 x DB1007 Tree strop
- 1 x DB1010 Winching gloves
- 1 x DB1011 Snatch tow sling - 8 ton
- 2 x DB1012 Alloy bow shackle - 4.75 ton
- 1 x DB1016 Winching shackle

DB1017

- 1 x DB1001 Winch kit bag
- 1 x DB1002 Snatch block - 9,000kgs
- 1 x DB1006 Tow strap - 8 ton, 60mm x 9m
- 1 x DB1007 Tree strop
- 1 x DB1010 Winching gloves
- 2 x DB1012 Alloy bow shackle - 4.75 ton

DB1017P

- 1 x DB1001 Winch kit bag
- 1 x DB1002 Snatch block - 9,000kgs
- 1 x DB1007 Tree strop
- 1 x DB1010 Winching gloves
- 2 x DB1012 Alloy bow shackle - 4.75 ton
- 2 x DB1329 Jate rings

Winch bag - a heavy-duty bag

DA8904

ARB's winch pack is designed to fit a complete recovery kit including snatch strap, tree trunk protector, winch extension strap, snatch block, recovery damper, bow shackles and gloves. The winch pack is sold individually and does not come stocked with the straps. All items sold separately so the user can select the correct strap weights for their vehicle.

ARB503

This compact ARB bag is perfect for carrying a single strap and a pair of shackles. Small enough to fit under a seat or in the back of a drawer system, this recovery bag is a convenient way to keep your most important items in your rig at all times. More information online.

DB1014

Extended winch wiring kit
1 x red (1.8m) & 1 x black (1.8m) wires with end connectors and isolator switch. Ideal for Defenders - up to 2007

DB1035

Extended winch wiring kit
2 x red (3.15m & 0.60m) & 1 x black (1.8m) wires with end connectors and isolator switch.
Ideal for Defender - 2007 onwards.

DA6541

Ground anchor
Pull yourself out of trouble with this heavy-duty ground anchor. This anchor utilises a Hi-Lift jack (not included).

DB1314

Ground anchor set - 600mm pins

DB1318

Ground anchor bag set - 2 x Pulling Power bags.

Note - Ground anchor not included (DA1314)

DB1314

DB1357 NEW

Replacement Dyneema® winch rope with competition hook & drum connector

Grey
11mm x 30m
CHOE+DC
Breaking point - 10,773kg

Construction

- > Material - UHMPE (Ultra High modulus polyethylene)
- > Construction - 12-strand braided
- > Coating - 'Armourcoat' PU impregnation

Properties

- > Very high strength - Improved safety
- > Light weight - Easily handled
- > Low elongation - Low stored energy improves safety
- > Synthetic fibre - No wire splinters
- > 12-strand - Easily spliced
- > Armourcoated - Improves abrasion resistance and feel
- > Good UV resistance - Durable and suitable for long term outdoor use
- > Excellent chemical resistance - Resistant to most common chemicals

Performance

Make your Land Rover even more special by upgrading from its standard specification to something a bit more unique.

An extensive selection of braking equipment to air filters and tuning boxes means that there is something to suit every Land Rover to help improve its performance.

Braking

Brake Discs - Britpart Performance

- > Slotted design to increase braking efficiency by reducing dust, debris, water and gas on the disc.
- > To improve brake cooling, reduce weight and to offer an escape route for dirt and gasses these performance discs are drilled with rows of holes.
- > Excellent upgrade for your Land Rover to aid braking, especially under a heavy load.
- > Ideal for off-road use.
- > Manufactured to British Standard BS1452 Grade 220 and DIN1691 GG20.
- > Supplied in pairs.

**Quality performance
brake discs.**

Anti-squeal Shims

mintex

**DA1141
Universal
self adhesive
noise
dampening
shims.**

Pack of 4.
The shims are manufactured from wolverine and cut to shape and applied to the backing plate of the brake pads prior to fitting to help eliminate any noise issues (should the pad be unshimmed). When used in conjunction with Mintex CeraTec silicon based lubricant, most brake noise related issues will be eradicated.

Brake Lubrication

DA2389

Cera-Tec Advanced Lubricant
75ml

Mintex Cera-Tec is an advanced non-metallic universal lubricant that provides many benefits over traditional copper-based grease.

- > Non-metallic content - ABS and ESP friendly.
- > Operates to a high temperature (1,000°C).
- > Non-conductive.
- > Free of copper and acid.
- > More effective at reducing any brake squeal.
- > Protects against corrosion and dirt.
- > Neutral colour prevents any visible residue or staining.

EBC Brake Discs

- > Sold in pairs.
- > 100% British cast and machined high quality product.
- > Wide aperture slots that draw cool air under the pad surface.
- > Slots that expel all dirt dust and debris from the braking area.
- > Blind drilled dimples that eliminate cracking common with through drilled sport rotors whilst helping maintain perfect pad contact.

IMPORTANT BRAKE INFORMATION

For exact change over points with vehicle applications please contact your local Britpart distributor with the full chassis number for the correct application. These references are intended as a guide only.

EBC

BRAKES

EBC Ultimax Heavy-duty Brake Pads

- > New AF42/66 friction material which completely eliminates brake judder and produces a high friction long lasting brake pad.
- > Unique powder coat finish to both pad and back plate gives lifetime resistance to corrosion and prevents moisture ingress.
- > Unique Brake-In surface coating provides instant brake efficiency on installation and conditions the brake rotor removing glaze, black spotting etc from disc surface.
- > All pads feature centre line slot which prevents heat expansion cracks and reduces brake noise.
- > All pads feature edge chamfers which have major technical benefits;
 - Significant reduction in brake noise
 - Prevents 'edge lifting' under left and right extremities of pad which can cause corrosion ingress and eventual pad de-bond
 - Can extend pad life by virtue of improved pad efficiency
- > Most pads in the Ultimax range features factory fitted noise reduction shims.

EBC Green Stuff High Performance Brake Pads

- > 100% British design and manufacture.
- > Superb gloss powder coat paint finish to reduce corrosion.
- > Unique engineering finish with noise reduction slots and edge chamfers.
- > Extra high friction compounds for better stops, these pads will improve your stopping power by up to three vehicle lengths.
- > Special compound ingredients that prevent "Outline Etching" eliminating brake stiction onto the rotor in damp conditions.
- > Unique "Brake-In" surface coating to accelerate pad bed in after installing new pads which also guarantees brake efficiency from installation.
- > Super quiet braking with rubber-steel-rubber noise reduction shims on the reverse, this dampens all possible noise.
- > Extra heavy duty compound lasts longer than low cost standard pads.
- > Fully ECE R 90 approved and legal for road and off road use.

EBC Yellow Stuff Performance Race Brake Pads

- > High friction compound which is effective from cold up to high heat.
- > Effective brake upgrade for heavy-duty braking.
- > Long lasting powerful brakes.
- > Shims, edge chamfers and slots for silent braking.

EBC Yellowstuff brake pads are British made and contain Aramid fibres. These are man-made high performance fibres, used widely for their light-weight, high strength, abrasion resistance and thermal stability. These properties provide advantages over cheaper steel fibre based products. Not only high in friction from first application when brakes are cold but extremely effective at higher brake temperatures as encountered in faster driving and towing/trailing. These pads are a favourite with the military and are used on armoured vehicles in several countries to handle the higher loads and heat and offer a good brake upgrade. Fitted with shims chamfers, centre slots and the unique EBC Brake in coating for fast bedding in of new brakes these pads are also long lasting and silent in operation.

High Performance, Low Dust

DTEC is an advanced, low dust, ceramic formulation which has been developed by TRW for those customers who want cleaner wheels without compromising the braking performance that they are used to. The new material meets all EU legislative requirements as well as TRW's demanding performance requirements. In addition, rim surface dust levels have been reduced by up to 45% when compared to other standard materials. Cotec coating improves green behaviour during bedding in and ensures great pedal feel from the first stop.

Dust levels reduced by up to 45%

Handbrake Conversion Kits

Driving off-road you'll know how easy it is for the standard Land Rover hand brake to get bunged up with dirt and once the mechanism gets clogged up it doesn't work as efficiently as it should. Britpart now offer a solution to that problem - a drum to disc conversion kit. These kits use powerful calipers whose mechanism is sealed to prevent the access of mud. Parts are supplied coated with a tough corrosion resistant coating of gold zinc passivate to ensure a long life. Fitting is easy requiring only simple tools. Full fitting instructions are included as well as advice on adjustment and use.

Defender/Discovery/Range Rover Classic

The disc transmission brake uses a state of the art monster sized mechanical caliper designed for agricultural vehicles and earth moving equipment - so using it on a Land Rover is easy work for it. The mechanism is sealed so it will not seize up due to ingress of mud or water and it uses special 'sintered' pads which are resistant to abrasion from mud as well as providing greater friction against the disc than a standard pad. The disc has been specially designed for Land Rovers and manufactured from tough 10mm thick steel. It has a smaller diameter than a standard drum and so does not dangle below the transfer box which helps to protect it from whatever you are driving over. The caliper mechanism sits in a well protected area at the top, away from most of the mud and water.

DA5513

Defender 90 & 110

For anything post 1993 (300Tdi, Td5 & Puma) you need to change the cable - NRC5088. Puma onwards - modifications may be needed to the chassis to enable fitment.

DA5526

Discovery 1/Discovery 2/Range Rover Classic
Will not fit a Borg Warner or LT95 transfer box.

Series

DA5537 Series 1, 2 & 3

This will fit any Land Rover fitted with a standard Series transfer box, including those fitted with PTO's, under or overdrive units. The new brake replaces the original transmission brake drum. It is supplied with a new adjustable actuator rod which connects from your original handbrake lever, direct to the caliper, reducing the amount of slack in the linkages. The disc transmission brake uses an industrial open-frame caliper with simple adjustment and easy cleaning. The new caliper is mounted on a laser cut steel back-plate with a folded gusset for added strength and incorporating a built in skid plate to protect the disc which is manufactured from robust 10mm thick mild steel plate and which bolts directly to your original gearbox output flange with six new bolts (supplied). The system is very light weight, offering a saving of almost 10kg compared to an original drum brake.

Engine

Aluminium Tanks

DA4750

DA4751

This is a direct replacement for the original plastic tank which is prone to splitting. TIG welded by hand and manufactured from high specification lightweight non-corrosive alloy, this tank also aids cooling. Tank uses original pressure release screw cap and is a straight fit with no modifications required. Ideal for motorsport, overland or just to improve the look of your engine bay.

Filter Guards

- > Extends engine life
- > No vehicle modification needed
- > Added protection for stop & go driving and towing
- > Improves fuel economy
- > Cleans engine oil for 50,000 miles
- > Does not effect your Land Rover's warranty

Britpart Filter Guard removes potential engine damaging metal particles from your oil. Clean oil works better than dirty oil with reduced friction and less wear. Britpart's Filter Guard is an inexpensive way of removing the harmful contaminants that conventional oil filters can miss. The contaminants are fine metal particles which act like an abrasive on the fast moving parts in your vehicle's engine - dramatically shortening engine life. Filter Guard works by magnetic filtration technology resulting in cleaner oil which your engine will thank you for by running better now and in years to come. The Filter Guard will never clog or restrict the all important oil flow. **Note** - Filter not included with Filter Guard. Please check that there is sufficient room for the addition of the filter guard.

Added protection for your engine!

Air Filters - Britpart Performance

A breath of **fresh air** for your Land Rover

- > A range of performance filters tailored to fit your Land Rover.
- > Maximum breathing efficiency for your engine means more power or better fuel mileage.
- > No compromise on quality - the engine gets more air but the dirt particles are trapped by the quality filters.
- > No need to replace as easy cleaning means maximum performance guaranteed.

- > Easy fit, directly replaces standard air filter.
- > Ideal for use in hot dusty conditions to reduce engine wear.
- > Compatible with snorkels, ideal for use in conjunction with other performance modifications.
- > Filters don't need pre-oiling and if the filter gets dirty there is no need to use a cleaner to clear the dirt on the filter - just use air, water or detergent.

Intercoolers - Performance

DA4635

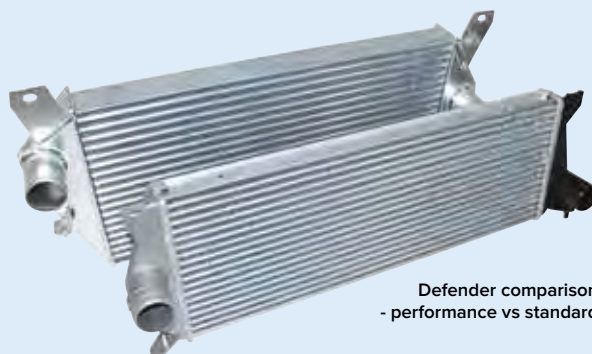

DA4635

Discovery 3 - 2.7 TdV6
Range Rover Sport - 2.7 TdV6
The original Land Rover intercooler design can have problems due to the blocking up of the core with mud when the vehicles are used off road, as the intercooler is mounted at the lowest point in the front of the vehicle. This intercooler is designed to be easier to clean and less prone to blockage due to the courser, less dense fin design whilst dramatically improving flow, performance and economy, even without any further tuning. Tests have shown a minimum improvement in fuel economy of 12-15%. Power and throttle response in the lower and mid-range engine revs particularly are noticeably improved. The intercooler is designed to be simple to install without major modifications to the vehicle. The performance intercooler makes full use of the space available behind the bumper. It is designed with an integral fan cowl extension to ensure no loss of cooling efficiency and is supplied with mounting brackets and fitting guide.

This intercooler is designed to be easier to clean and less prone to blockage.

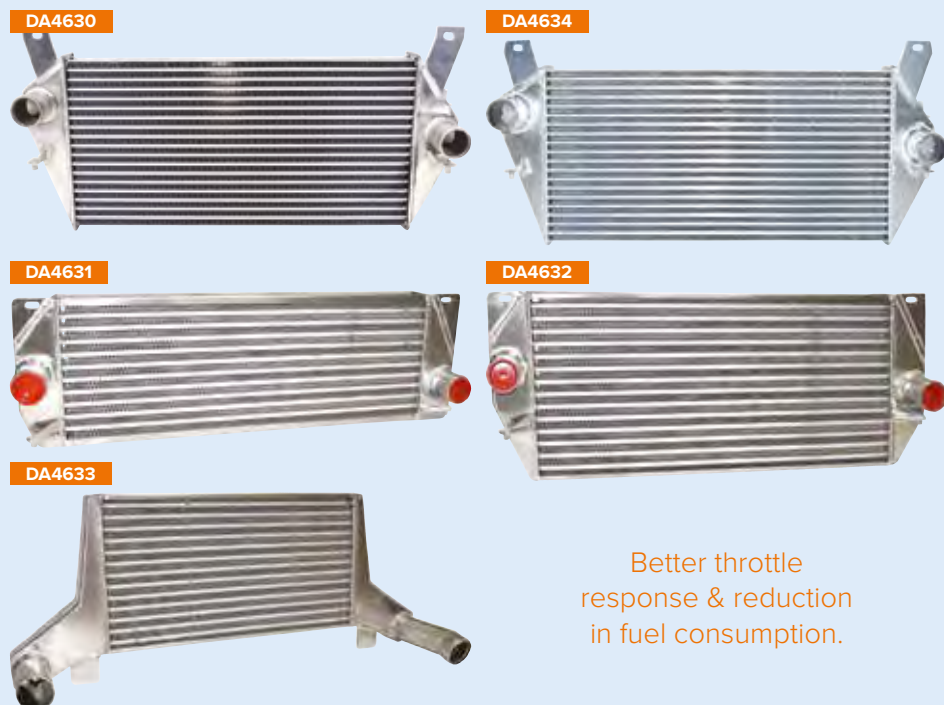

Defender comparison
- performance vs standard

These high performance and robust units are constructed from polished aluminium and are 30% larger than the standard intercooler. As a result air has a chance to cool before entering the engine. This cooler air can increase engine power by up to 25bhp (subject to application). Other benefits include better throttle response and reduction in fuel consumption depending on driving conditions. Ideal for on or off road use. Fully pressure tested, capped and sealed.

- > Quality silicone hoses are designed to operate at a higher temperature than the original hoses.
- > Will not rot or perish like rubber hoses.
- > Fit with both standard and performance intercoolers.

Will not rot or perish!

Electronic Fan Kits

Revotec Electronic Fan Conversion Kits

- > Custom engineered to fit and cool your Land Rover perfectly.
- > Supplied complete with all necessary fittings and fixings to complete an electronic fan conversion on your vehicle. Kits include mounting brackets or shroud, 35mm Revotec electronic fan controller designed for Land Rovers with an extended loom, earth wire kit and bolts & fixings.
- > Engineered to fit without any permanent modifications and utilising original radiator mountings.
- > Easy to install with basic hand tools.
- > Latest fan and controller technology used together for the ultimate cooling package.

DA8963 Series 2/2 Series 2A/2 Series 3

14" High power blowing fan

DA8964 Series 3 V8

2 x 12" High power suction fans

DA8965 Ninety/One Ten - 2.5 petrol/2.5 diesel/2.5 TD

15.2" High power suction fan

DA8966 Ninety/One Ten - V8

2 x 12" High power suction fans

DA8967 Defender & Discovery - 200Tdi/300Tdi

15.2" High power suction fan

DA8968 Defender & Discovery - Td5

15.2" High power suction fan

DA8969 Defender - Tdci

15.2" High power suction fan

DA8970P Range Rover P38 - petrol

15.2" High power suction fan

DA8970D Range Rover P38 - diesel **NEW**

15.2" High power suction fan

Benefits of fitting an electric fan

- > Engine reaches operating temperature quickly, reducing wear.
- > Sufficient cooling when needed i.e. sitting in traffic idling.
- > Overcome hotter running caused by modern fuel.
- > Increased performance.
- > Improved fuel economy.
- > Reduced load on engine.

Custom engineered to fit and cool your Land Rover perfectly

Air Conditioning Fans

DA8971 Defender

This is a direct replacement to the vehicles original air conditioning fan.

Kit contains - 1 x 10" blowing fan.

DA8972 Discovery 2

This is a direct replacement for OEM Part No. JRP100000.

Kit contains - 1 x 12" high power blowing fan, 2 x anodised brackets & 1 x fixing kit.

Starter Motors & Alternator

Powerlite Starter Motors

High torque gear reduction starter motors. These lightweight units offer increased cranking speeds and considerably more cranking power than original units, whilst drawing less current from the battery.

NAD10040HD

RTC3840A

Dynalite Alternator

RTC3840A Series 2 & 2A - 2 1/4 litre 4-cylinder

Designed & manufactured by highly experienced auto electricians in the UK. The Dynalite aims to bring together modern alternator technology with the classic looks and appearance of a Dynamo. Ideal for both road and competition use the Dynalite provides up to 80% more power and weigh up to 40% less than original dynamo units. The Dynalite unit directly replace dynamo units with no modifications to the vehicle. The self regulating Dynalite unit offers increased reliability and performance charging efficiently across the full rev range. The wiring changes required for the units are very simple and reversible. Dynalite units supplied with comprehensive fitting instructions.

Electronic Fan Controller

DA8973

> 35mm

> To fit extended loom

> Negative earth housing. Fits directly in to a radiator top or bottom hose for direct water contact.

> Supply Voltage: 12v

> Space in hose approx: 35mm

> Overall length approx: 65mm

> Material: Aluminium

> Relay Rating: 30 amps

> Wire Length: 2,500mm

Kit contains -

2 x hose clamps, relay, cap, 3 x cable ties, fitting Instructions.

DA8973

Fan Override Switch

DA8974

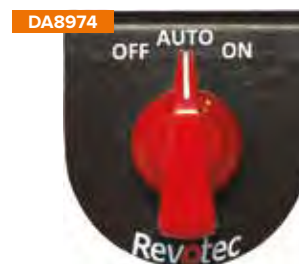

3-way rotary switch for use with a Revotec fan controller enabling the fan to be manually controlled either on, off or automatic. Perfect for 4x4 applications such as wading. This product must be used with a Revotec electronic fan controller.

Kit contains -

Black anodised mounting bracket kit.

Position decal.

Sealed 3m wiring loom and connection diagram.

PSI Power Tuning

DA4419

Improves torque

Improves m.p.g

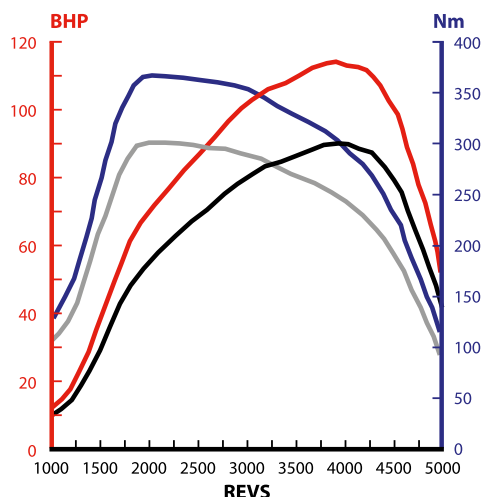

The Power Box houses a digital microprocessor which intercepts the fuelling signals being transmitted from the ECU to the fuel pump; it then modifies them to ensure the exact amount of diesel required for enhanced performance. Such efficient use of the fuel optimises consumption, reduces smoke emissions and there is less engine stress, enhancing engine life in many cases.

The Power Box improves torque enabling the vehicle to change gears earlier and hold higher gears at lower speeds, making driving more pleasurable.

The unit fits using the original manufacturers plugs; these existing plugs are opened and the Power Box is secured in between. Full fitting instructions are included with every unit.

Features

- > Plug-in unit
- > No intervention with the original ECU
- > TÜV approval
- > Compact size
- > Shock resistant & waterproof

Performance for Defender - Td5

Standard	121Hp	90Kw	300Nm
With PSI	158Hp	118Kw	374Nm

Benefits

- > Can be removed prior to sale or used as a selling point
- > Traceless
- > Peace of mind
- > Quality product which is legal & safe
- > Unobtrusive in interior of vehicle
- > No worries off road
- > A good investment

Tuning Box

DA4507

Tuning box for the Defender - Puma 2.2Tdc

Power increases by **27bhp** (20kw)
 Torque increases by **71Nm**

The 2011 onwards 2.2 Tdci model Defender has new style piezo injectors and requires specialised tuning solutions. It is currently not possible to remap the ECU through the OBD port. This substantial new tuning unit is designed to plug directly into the wiring loom and requires no modification to the vehicle. Contained in waterproof housing so can be safely located in the engine bay.

Tunit

DA4437

Freelander 2 - 2.2 Td4 - 2007 onwards

Power improvement - before / after

Power - HP	Power - Kw	Torque - Nm
152 / 177	112 / 130	295 / 325

Tunit Diesel Performance - The Diesel Tunit has been forged from many years of experience to bring a world class unbeatable range of diesel performance solutions.

Tunit Features - Tunit possesses many advantageous features not seen in other tuning solutions such as chips, eeprom serial reprogramming (flashing) or other types of fixed map devices. It is interchangeable between vehicles and able to be upgraded. External to the ECU or 'Plug and play' as it is often called means no interference with the original manufacturers engine equipment. Its option to adjust power and performance provides easy manual adjustment for the novice or finer electronic alterations for the more dedicated tuner.

Fuel Savings - Tunit has become advantageous in reducing fuel costs for a variety of applications; not just improving performance but now helping with saving fuel costs.

Installation - The Tunit is normally connected to original plugs on the vehicle and can either be self-installed or by a professional mechanic.

Upgrade Chips

DA4497

Range Rover P38

Replacement ECU chip to improve power and economy on the GEMS engine 4.0 and 4.6 in the Range Rover P38. Fitting this chip will increase economy by approx 15% and power by 10%. Once fitted, it helps makes a big difference to the driveability of the vehicle by improving throttle response and mid-range pull.

No trade off between fuel economy and increased power!

Accelerate technology

Limitations and restrictions exist which prevent your vehicle from achieving optimal performance. The manufacturer's emissions test is extremely rigorous due to inclusion of all parts of the driving cycle, especially warm up and full load operation, which is where problem emissions are at a maximum. To meet these they compromise performance and efficiency of the engine - this chip helps redress that balance.

Off-Roaders in the driving seat

Your requirements are met through a stable and predictable idle quality, good engine braking and an engine which has plenty of midrange torque. Perfect idle control for hill descents and winching, with no possibility of stalling. Total reliability ensures you never lose control.

Greater expectations

By comparison we know climate conditions and fuel quality your vehicle experiences and can therefore improve efficiency by reducing fuel consumption and optimising the engine to get its best performance on full load, which is less than 10% of the time.

Turbo Boost Box

DA4667

The Td5 engine fitted in Defenders and Discoverys is one of the most 'tuneable' engines available and it responds well to modifications including a PSI power tune box, larger intercooler, EGR removal kit and decat pipes. However the turbo will only boost to 14.7psi in standard form and this will quickly limit the potential from the modifications you have made. The ECU will cut fuel to the engine if it detects an over boosting situation, but there is a solution.

Turbo Boost Box! This intelligent box allows the Td5 engine to run with a higher boost pressure after adjusting the waste gate in accordance with the instructions. This allows increased turbo boost pressure without the engine going into limp home mode. You will feel the benefits of fitting the Turbo Boost Box as soon as you drive. At the lower rpm's the vehicle will feel more responsive whilst at the same time giving you a much smoother spread of power through the rpm range. An added benefit is a reduction of exhaust smoke.

You will feel the benefits of fitting the Turbo Boost Box as soon as you drive!

Fitting the Turbo Boost Box is an easy 3 wire installation. The box is manufactured from extruded aluminium and easy to fit as it uses the original Land Rover connectors. The box is water resistant - ideal for most off-road uses.

This product must be fitted by a competent mechanic in accordance with the included instructions, incorrect waste gate adjustment can lead to engine damage.

DA4667

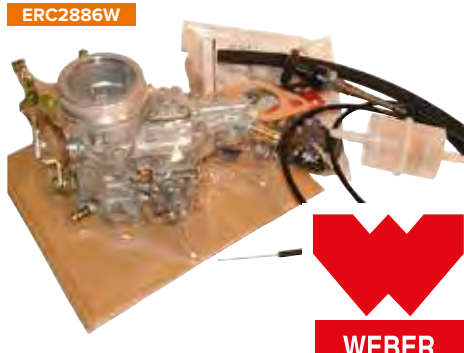

Weber Carburettors

DA3049

Part of the conversion kit

ERC2886W

WEBER

DA3049

V8 4-Barrel conversion kit including manifold
The Webcon 4 barrel replacement carburettor kit is a direct replacement for the twin Stromberg or SU carbs fitted to the Rover V8. Calibrated to work perfectly on the 3.5 and 3.9 engines, the Webcon kit is the most complete on the market and features a Webcon modified Weber 4 barrel 500cfm carburettor, intake manifold, air filter and every single nut, bolt, washer, gasket and hose that could possibly be needed. The kit adds up to 20bhp at the wheels and transforms the driveability and economy. Starting becomes instant either hot or cold and with no balance adjustment to worry about with twin carbs, the engine is simply superbly smooth as a V8 should be.

ERC2886W

Series - replacements for the Zenith 36IV
Available for LHD, RHD, with or without fuel shut off solenoid, the Weber range of carburettor kits to replace the Zenith 36IV offer the optimum balance of power and economy together with the legendary quality and reliability of Weber. Shipped as complete turnkey solutions, all kits are supplied with every nut, bolt, washer and gasket required and comprehensive, easy to follow instructions ensure that installation can be carried out with no specialist carburettor knowledge.

Double 'S' is recognised as one of Europe's leading manufacturers of stainless steel automotive components with a wide selection of systems for off-road use.

Using only the finest austenitic and ferritic stainless steels and employing the latest in CNC mandrel and empty tube bending, measuring and inspection equipment, means increasingly high levels of product quality.

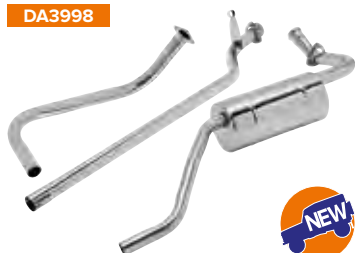

All Double 'S' exhaust systems carry a lifetime guarantee. Double 'S' will replace or repair any part of their Stainless Steel Exhaust Systems found defective through corrosion during the period that the system remains the property of

the original owner. Provided that the system is inspected by a garage or exhaust fitting centre annually to ensure that the rubber and other mountings are in good condition.

These stainless steel exhaust silencer replacement pipes are designed to directly replace the front silencer in your exhaust system. Once replaced the pipe will give your vehicle more power or reduced fuel consumption with only a small increase in cabin noise. CNC mandrel formed for a perfect fit with laser cut flanges, the pipes have a sateen finish, deep lustre appearance. Quick and easy to install.

- DA1707 NEW Long nose rear axle

Britpart now offer a full range of service kits with oil - see Service Kits section for more details.

Roamerdrive Overdrive Units

DA9017

Defender DA9017 Overdrive Unit

Defender - up to 2007

The distinctive third lever on the centre console of a Defender identifies it as a vehicle equipped with a Roamerdrive overdrive. This rugged, bolt on accessory has been proven in hundreds of installations and tested under the most demanding expedition conditions. No other modification improves the performance and economy of your Land Rover like a Roamerdrive. The DS model overdrive is an auxiliary gearbox that is easily fitted to a Defender 90 or 110 with standard five speed transmission. The unit adds an optional 28% to the ratio of the drive train giving improved fuel economy. Reduced engine speed contributes to quieter more comfortable travel under motorway conditions and reduces wear and tear on mechanical components.

The Roamerdrive is a completely mechanical device built in the tradition of rugged dependability that has made Land Rover the world's favourite expedition vehicle. These overdrives have no electronic or hydraulic components. They are controlled by moving the convenient hand lever.

Unlike a high ratio transfer case that will permanently detract from the versatility of the gearbox, the Roamerdrive does not alter the vehicle's designed gear ratios. Off road performance is enhanced as the overdrive ratio can be added to any gear in high or low range.

The Roamerdrive uses the same epicyclic gear technology as a modern automatic transmission and runs quietly. This is particularly evident at high speeds and makes driving a Defender for long distances a pleasurable experience. On long journeys Roamerdrive users have reported fuel savings of up to 18% - not surprising when you consider that the engine lopes along the highway at about 2,000rpm - a favourable spot on the diesel torque band. Although precise fuel savings will depend on your driving habits.

DA9018

Transfer Case Sump Cover

Fits models fitted with 230 type transfer case. Defender - up to 2007, Discovery (excludes 2) and Range Rover diesel. Billet transfer case sump oil coolers are designed to replace the flimsy sump covers supplied as standard equipment. These covers are stronger than the originals and have cooling fins to keep the oil in your transfer case cool in harsh conditions. The sump cover is supplied with a new gasket, and the existing bolts are used for installation. The sump cover is significantly stronger than the original and adds about 1/2 litre to oil capacity. Existing ground clearance is not compromised. A plugged port is supplied so that DA1285 oil temperature gauge can be fitted. It is possible to fit this sump cover to V8 models but check first that there is good clearance between the cover and existing exhaust pipes.

DA9017

DA9018

DA1285

Oil Temperature Gauge

This oil temperature gauge is a high precision mechanical temperature gauge with a full 270 degree sweep. The unit is designed to compliment DA9018 transfer case sump cover and fits directly to a pre-drilled port in the sump cover. The unit fits into a standard two inch mounting hole and operates completely independently of electrical power. A 12 volt lamp supplies illumination. The gauges are far more accurate than common electrical types using thermistor senders. These gauges can also be used to measure cooling water temperature or engine oil temperature in commercial or marine applications. The sending tube is 1,800mm long, and contains pressurised fluid so it cannot be shortened - but you can coil surplus tube behind your dash.

DA1285

DA9015

DA9015

DA9016

Series

DA9015

Overdrive Unit

The distinctive extra lever on the right hand side of the transmission tunnel on a Series 1, 2 or 3 shows that it is equipped with a Roamerdrive. Since 2002 the majority of new overdrives fitted to these timeless vehicles have been simple rugged units. Proven in hundreds of installations worldwide, this rugged and well engineered product will improve the performance and economy of your collectable Land Rover. The SS model Roamerdrive is an auxiliary gearbox that is easily fitted to a Series 1, 2 or 3 with a 4 or 6 cylinder engine. The unit adds an additional 28% to the ratio of the transmission giving improved fuel economy. Reduced engine speed contributes to quieter more comfortable travel at motorway speeds and extends the life of drive train components.

The Roamerdrive is a completely mechanical device built in the same tradition of rugged dependability that has made Land Rover the world's favourite expedition vehicle. These overdrives have no electronic or hydraulic components. They are engaged or disengaged by moving a convenient lever.

Unlike a high ratio transfer case that will permanently detract from the versatility of the gearbox, the Roamerdrive does not affect the vehicle's designed gear ratios. The unit provides useful 'splitter' gears such as a gear ratio midway between conventional third and fourth.

The Roamerdrive uses the same epicyclic gear technology as a modern automatic transmission and is very quiet running. This is particularly evident at higher speeds and makes driving a Series Land Rover for long distances a more pleasurable experience. Fuel savings will depend on your driving habits. On long journeys Roamerdrive users have reported fuel savings of up to 18%.

DA9016

Transfer Case Sump Cover

Fits all Land Rover Series 1, 2, 2A and 3 models (except V8)

Billet transfer case sump oil coolers are designed to replace the flimsy sump covers supplied as standard equipment. These covers are stronger than the originals and have cooling fins to keep the oil in your transfer case cool in harsh conditions. This Series model is supplied with a new gasket and replacement fastening bolt to replace the brittle standard studs. Being solid aluminium, the cover completely eliminates leaks caused by differential expansion. If your vehicle is pre 1980 you can use your existing drain plug and washer. Owners of Later Series Vehicles with Metric fasteners should purchase a plug (Land Rover part 235592) to fit the threads in this casting. As the cover expands at the same rate as the aluminium transfer case the stubborn oil leaks associated with the original steel cover are completely eliminated.

BRITPART
The quality parts for Land Rovers

AUGUST 2019
A Vintage Summers Eve

Defender: 90 Double Cab
Rearward, Suffolk, UK
by Eirian Probert

Make Your Land Rover A Star in 2020!

Here at Britpart we are planning our next Land Rover themed calendar and we'd love to feature the pictures of proud Land Rovers owner's vehicles – whatever model, age or condition of the vehicle.

We love to see pictures of Land Rovers in locations stretching from rural UK, right through to vehicles in a foreign urban environment - use your imagination. Winning entries will all feature in the next Britpart calendar and each one picked will win a great prize. So get out there with your Land Rover and camera - happy snapping. You can send us as many entries as you would like! **Good luck!**

Prizes

There will be 12 prizes awarded –

1 x first prize: £250 cash prize, 10 copies of the calendar with the winning image on the front cover and featured inside the calendar and a large Britpart hamper.

11 x second prizes: 5 copies of the calendar and a Britpart hamper.

Details on how to enter and full terms and conditions - www.britpart.com/calendar

STC8156AAPY

Defender 90, 110 & 130/Discovery 1/Range Rover Classic
Yellow anti-roll bar kit with Britpart yellow polyurethane bushes.

Stiffen up your Land Rover! Front and rear kits complete with fitting instructions. Only suitable for vehicles with the chassis and axle brackets fitted.

Note - To fit these anti-roll bars to the rear of a Defender 90 Td5 - onwards 2 x EGP1661L & 2 x EGP1889 are required. To fit to a Defender 110/130 Td5 - onwards 2 x NRC5674 & 2 x 592773 are required.

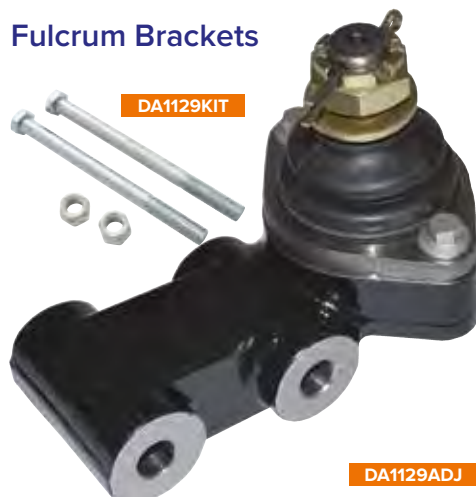

Anti-Roll Bar Kits

Fulcrum Brackets

Fulcrum Bracket with High Articulation DA1129ULTRA

Defender
Discovery 1
Range Rover Classic

DA1129ULTRA

DA1129ADJ

Defender/Discovery 1/Range Rover Classic

DA1129
With ball joint assembly (ANR1799)

DA1129G
With OEM ball joint assembly (ANR1799G)

DA1129ADJ
With adjustable ball joint assembly (ANR1799A)

DA1129KIT
Fitting kit for all fulcrum brackets

One of the major factors limiting the rear suspension movement on vehicles fitted with an A-frame is the standard ball joint. We have developed this part to provide significantly more articulation than the standard and most aftermarket joints. Others claim more articulation yet in reality they offer very little over the standard 30°. This exclusive ball joint offers 45° movement in all directions. It is easily adjustable with a regular hex spanner and has a grease nipple for convenient regular maintenance. It is supplied fitted ready to bolt to your Land Rover.

Castor Corrected Swivel Housings

DA3203

'3 degrees of additional castor'

DA3203

Defender - from LA up to WA

DA2992

Discovery 1 - JA32851 onwards - non-ABS

Range Rover Classic - JA624517 onwards - non-ABS

Normally the only way to correct the castor angle on a beam axle vehicle is to fit castor corrected radius arms or go through the lengthy process of repositioning the brackets on the axle. Something which takes considerable time and skill. Britpart offer you an alternative. These castor corrected swivel housings come as a handed pair. They are a direct replacement for vehicles normally using the FRC7065 swivel housing but they have the mounting holes positioned to give 3 degrees of additional castor. The swivel housings are from the OEM supplier and then machined to our specification. Kit contents - Swivel housings; swivel pin bearings; gaskets; seals; plates; shims; joint washers; swivel pin uppers - non-ABS & swivel housing grease sachets.

Bush Kits

DA1247

Front bush kits include bushes for radius arms and panhard rods. Rear bush kits include bushes for top & bottom links.

Adjustable Control Arms

Discovery 5

Range Rover Sport - Mk2

Range Rover L405

The Meylew HD control arms are designed to combine the three different camber options available from OE into one adjustable reference per side. Bushings and ball joint are designed for higher durability in comparison to OE and the control arm body is forged instead of casted for higher strength. The design deviates from the OE but the control arms are developed to replace the following OE references:

Meyle Heavy-Duty

Steering and suspension components are subject to extremely high load levels, which frequently results in increased part wear and shorter replacement intervals. Required to perform reliably under these conditions, the parts are therefore made to genuine Meyle heavy duty quality which means optimised products offering maximum service life and outshining OE solutions.

DA6323L	Defender/Discovery 1/Range Rover Classic*	Single shock turrets	Front	2" Lift
DA6324	Defender/Discovery 1/Range Rover Classic*	Twin shock brackets - kit	Rear	

Sometimes off-road conditions can be serious enough to test the standard equipment on your Land Rover to its maximum. One of the critical components that takes most of the abuse is the suspension system. When using the standard single shock absorber configuration it is not unknown for the shock absorber to break the factory fitted turret mount. These shock absorber turrets from Britpart give you confidence that your vehicles suspension will tackle the terrain you take it through with greater ease.

The single shock absorber turret is manufactured from heavy-duty steel and replaces the existing turret mount which is susceptible to corrosion by allowing a build up of dirt inside which is hard to clean thoroughly. The new design is harder wearing and easier to clean.

The twin shock absorber turret is manufactured from the same quality steel as the single shock absorber turret but allows for the fitting of an additional shock absorber. The benefits of having extra shock absorbers fitted to your Land Rover is that any extreme force encountered is divided between the two shock absorbers for a more comfortable ride for you and your passengers. Using twin shocks is also beneficial when carrying loads both on and off-road as it improves the load carrying ability of the vehicle. An additional benefit is that when changing shock absorbers there is no need to remove the turrets.

***Note** - Rear brackets involve some welding to fit. Fitting shock absorber brackets may require some vehicle modification, please ask distributor for full details.

DA6337

Long Travel Rear Shock Absorber Mounting Kit

DA6337

Defender/Discovery 1/Range Rover Classic

The standard pin and eye shock absorbers don't have the necessary articulation for extreme off-road conditions and the answer is to use pin and pin shock absorbers. If you use our Cellular Dynamic Plus 5 shock absorbers they offer better articulation. Laser cut, jigged and computer welded with zinc plated and powder coated finish. To be used in conjunction with DC6000LL.

Note - On Defender Td5 the fuel filter must be moved.

These 50mm spring spacer blocks are manufactured from 6mm plate with a powder coated finish. The spacers fit between the axle and the spring seats on the front and rear to give you that extra 50mm of lift you need.
DA6344 Front pair
DA6345 Rear pair

Discovery 2
These 40mm spring spacer blocks are machined from high quality aluminium and anodised deep blue.
DA6341 Front pair
With this kit you are able to retain the standard springs and shock absorbers. Use in conjunction with DA6342.

DA6342 Rear pair
This kit enables you to retain your air springs yet give your vehicle the desired 40mm lift. We recommend that this kit be fitted in conjunction with DA6341, DA4198 or DA4199. Please look at the shock absorbers suitable for this vehicle and at 40mm braided brake hoses.

Lift Rod Kit

Fully Adjustable Suspension Lift Rod Kit
DA7531

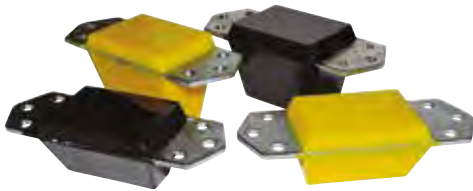

Discovery 3/Discovery 4/Range Rover Sport - 2005 - 2013

"The ease of changing the ride height is what separates these rods from others in the marketplace."

These adjustable rods replace the plastic and rubber parts Land Rover supply on the vehicle. Made from aluminium with an industrial heavy grade rubber bushing, the aluminium parts are anodised black to help with corrosion protection and blending in when in the garage for work. The lift rods have two settings; standard and off-road. With the air suspension set to normal driving height the lengthened rods will give you standard road and off road driving heights. If you shorten the rods the standard ride height will be approx 50mm higher. If you select off-road height the vehicle will be in the 'super extended' position. No tools are required and should take no more than 2 minutes to do all four rods. Access to the front is over the front wheels and for the back is through the rear wishbones (blanket required!)

Note - If run for a long time in off-road position then wheels may need realigning.

Note - Part numbers without yellow as a suffix indicate the bush colour is black.

- > Britpart are proud to present an exclusive range of Yellow and Black polyurethane bushes.
- > Manufactured exclusively for Britpart using the latest Vulkollan™ polyurethane technology.
- > Machined to exact tolerances once cast to produce the highest finish available.
- > Produced in both yellow and black they are both the same compound which gives similar ride characteristics to the standard rubber bushes, but they offer improved articulation, vibration damping and last longer.
- > The black bushes are ideal for replacing individual bushes as they can be fitted without a press.
- > The DC range of kits include shock absorber and A-frame bushes.

Notes

*Kit includes front anti-roll bar bushes but these bushes aren't suitable for vehicles with ACE fitted.

**Excludes shock absorber bushes.

All bushes are manufactured using the latest Vulkollan™ polyurethane technology.

Air Suspension Compressors

At last, a cost effective and easy way to replace the OE air suspension compressor. These compressors are a direct replacement fit for the OE compressors that were fitted by the factory. They are made in Japan by Hitachi. By using the original brackets and pipes they are easy to install. The relay, which is included, must be changed. No need to reprogram the ECU (fault codes may need to be cleared).

- > Direct replacement fit
- > Cost effective
- > No need to reprogram the air suspension ECU
- > Uses all original mounting & pipework

Shock Absorbers

BRITPARTXD

Britpart have developed this range of remote reservoir shock absorbers for users wanting the extra benefits of a remote reservoir shock absorber on a vehicle that is used both on and off-road. The remote reservoir allows the shock to remain cooler under more extreme conditions and hence reduces the possibility of fade. Unlike most remote reservoir shock absorbers on the market the Britpart XD remote reservoir shock absorbers use conventional rubber bushings instead of ball joints. This is because ball joints have a very short life span when used on a road vehicle and are more suited to an all out competition vehicle.

DC8000

Britpart XD Remote Reservoir Shock Absorbers

Nitrogen filled remote reservoir shock absorbers with zinc plated steel body and anodised fittings.
Note - Will require extra fabrication to fit.

- > Single piece eye ring

The Britpart Cellular Dynamic Shock Absorber represents a significant advance in Land Rover suspension systems. It features a cellular foam insert instead of a normal nitrogen gas or air, this is to stop the oil from boiling. The foam takes up less room which means more room for oil, 50% more, which offers maximum heat dispersion. This heat dispersion translates to a very subtle but controlled ride that will not fade no matter how hard you push them. They are ideal for a driver who needs more control to complement performance improvements or to enhance a standard vehicle. The unique design ensures ride comfort and cornering ability is maximised and of course they are superb off-road.

Notes

- *Terms & conditions apply
- ** Dimensions are +/- 5mm
- *** The Plus 5" Cellular Dynamic Shock Absorbers are specialist suspension products and to install them additional fabrication work or brackets may be required. Please ensure that they are fitted by a competent expert.

Nitrocharger Sport shock absorbers introduces advanced dual-stack deflective disc technology that continuously adapts to the terrain, offering rapid response improvements to ride quality, handling and control. Available in the UK only.

Features

- > Interactive, multi-stacked rebound and compression valving systems ensure optimal damping performance in all conditions.
- > Vehicle specific fine tuning for superior handling and ride performance.
- > Piston rod 'slip ring' provides more consistent and uniform damping performance.
- > Triple lipped oil seal with gas retention check valve design virtually eliminates contaminant damage and gas loss.

BP5160036 NEW Rear shock absorber - single

VM80010037 NEW Rear fitting kit

- > BP-51 shock absorbers feature revolutionary technology developed to deliver unparalleled on and off-road performance for your Land Rover.
- > Developed and tested under the harshest conditions in Australia.
- > Designed to bolt onto your vehicle without any vehicle modifications.
- > Considerable ride comfort around town is combined with significant end-zone damping for exceptional control and handling off-road.
- > Easily adjustable damping performance across both rebound and compress.

Vehicle Specific Applications

- > No fitting modifications are needed.
- > Fit kits developed specifically for the Defender.
- > All reservoir brackets have been integrated into the geometry of the Defender 110/130.
- > Included in the front fit kit is a replacement front shock turret, front sway spacers, front bump stop spacers and reservoir mount assembly.
- > Included in the rear fit kit is a replacement rear upper shock mount, rear sway spacers, rear bump stop spacers and reservoir mount assembly.
- > Spring selection must be from the current OME Defender long travel application.

More information is available on the Britpart website.

OLD MAN EMU

- > Impact resistant polymer dirt shield.

Air Lift Kits

Adjustable Air Helper Springs - The load and towing problem solver

Air adjustability is the difference! Stiff steel factory suspensions must compromise between ride comfort and load hauling capacity. Smooth ride suspensions can't carry heavy loads; heavy springs ride rough, especially when the vehicle is unloaded. Air Lift adjustable air springs solve these problems by allowing you to tune your suspension under all load and road conditions. Just add air when towing or hauling and then remove air for a softer ride when unloaded.

Features & benefits of Air Lift 1000

- > Improve ride, handling and stability by reducing roll, sway and 'bottoming out'
- > Fits open coil springs, front or rear
- > Up to 1,000lbs of levelling capacity
- > Tough long-lasting moulded polyurethane construction
- > Quick connecting easy-to-use engineered polymer air fittings

DA5012

Load Controller II

DA5012

The economical, popular, basic on board air system. This system controls the rear bags equally. All kits include wiring harness for fast, easy installation. To eliminate the major cause of air spring failure, the low pressure sensor automatically activates if pressure falls below the minimum safe level.

Air Springs

DA5091

Air springs can be susceptible to air leaks due to the fact the rubber seals dry out. Why not firm up your suspension and replace them with these quality air springs from Britpart?

Leaf Springs

For many years Land Rover road springs have been difficult to obtain to the correct OE specification. To remedy this, Britpart commissioned the same Spanish factory that produces our Santana parabolic springs to reproduce a comprehensive range of springs for Land Rover Series vehicles. The springs are constructed from the correct grade alloy steel 60SiCr8, heat treated consisting of hardening & tempering and set as Land Rover engineers specified and therefore will give years of service with the correct ride comfort.

Parabolic Springs

The Britpart range of high quality OEM parabolic springs are made to the exacting specifications as fitted to Santana specification vehicles. Manufactured in Spain to the standard and quality you would expect from an OEM supplier. The correct grade alloy steel 60SiCr8 is used, heat treated consisting of hardening & tempering and springs are shot peened before painting. These parabolic springs will bring a comfortable ride and improved handling to your Series vehicle.

Note - Includes 'U' bolts and nuts.

Old Man Emu Springs

- > Manufactured from state of the art micro-alloyed spring steel for superior strength and durability.
- > Double scragged before and after shot peening to reduce spring stress and enhance spring life.
- > Exceptional resistance to sagging and corrosion.
- > Springs are designed for each vehicle to match the spring to the specific applications.
- > Springs formed on computer controlled, precision mandrels to ensure manufacturing consistency.
- > Spring end configurations designed to exact specifications, guaranteeing perfect fitment to your vehicle.
- > Durable, hard wearing black powder coat.
- > Designed and manufactured in Australia.

Notes - See website for specific notes on certain springs. Available in the UK only.

Springs are designed for each vehicle to match the spring to the specific applications.

Reduce the ride height of your Land Rover by 1" (25mm). By lowering your vehicle it will help reduce body roll as well as giving your vehicle a more sporty squat stance and improve handling. The springs are designed in line with the standard spring rate specification and are finished in powered coated orange paint to match the anti-roll bars and shock absorbers.

Britpart Coil Springs

Britpart Performance - Lifted Springs

Britpart performance springs are high quality, versatile and competitively priced - the right choice when replacing the old sagging original springs.

Developed by one of the world's top spring manufacturers these high quality, powder coated yellow springs have been designed with the needs of today's Land Rover owners in mind. Britpart performance lifted springs have the added benefit of improving your vehicles approach and departure angles which in turn allows you to overcome more obstacles when off-roading.

As Land Rovers are often working vehicles as well as the family car, uprated springs must offer the ability to carry loads, handle off-road terrain and provide a good ride on road. The progressive springs offer a compliant ride when lightly loaded, but firm up as the load increases.

Note - Supplied in pairs.

The right choice when replacing the old sagging original springs!

Britpart Performance - Standard Height Springs

Britpart yellow springs are designed for the enthusiast who wants a performance spring without having to raise the vehicle. They offer a firmer ride with less body roll, ideal for a vehicle with uprated performance or one used for carrying heavy loads. The springs are designed to offer full articulation off-road with a compliant ride. Developed by one of the world's top spring manufacturers these high quality, powder coated yellow springs have been designed with the needs of today's Land Rover owners in mind.

Air Spring Conversion Kits

Discovery 2

It is a sad fact that it's likely the air suspension on your Discovery 2 will fail - probably at the most inconvenient time possible. You then have a choice to make. Do you replace it with a new air spring system which is comfortable but not so comfortable on your wallet or replace with an equally comfortable but much more affordable and reliable coil spring system? Britpart have the complete kit for air to coil spring conversion making your decision that little bit easier.

Range Rover P38

The EAS (Electronic Air Suspension) System found on Range Rover 4.0 and 4.6 vehicles can present expensive, recurring maintenance problems. If you've had an air spring failure before, you know this first hand. Britpart now has a coil spring conversion kit for Range Rover 4.0 and 4.6 that makes switching to coil springs seamless and error-free. Conversion to coil springs provides a better, maintenance-free ride that will save you significant money over time. The EAS Override Module suppresses all typical false dashboard display errors and buzzers seen when converting to coil springs. Any mechanic or Range Rover owner can install this coil spring conversion kit without having to go to a Land Rover dealer or Autologic-equipped repair shop to eliminate false dash warning light errors.

The kit features:

- > Detailed step-by-step instructions.
- > The EAS Override Module overrides all typical computer errors seen when converting to coil springs.
- > Eliminates the need for a costly shop visit.
- > Aluminium spring perch adapters.
- > Britpart custom made coil springs provide standard ride height and maximum articulation.
- > Affordable alternative to expensive, recurring air suspension failures.
- > Trip computer compatibility - maintains operation of your vehicle's trip computer.
- > Kit provides everything needed to complete a professional installation.

Propshafts

Propshaft Spacer Kits

DA6339 15mm spacer kit
DA633925 25mm spacer kit
 Defender/Discovery 1/Range Rover Classic
 Propshaft spacer kit machined from billet aluminium and anodised deep blue. When suspension lift kit is fitted it increases the distance between the transfer box flange and the diff flange. This increased distance can cause the propshaft to run out of spline travel.

DA633925

Fitting this prop spacer helps return the propshaft to its normal operating length therefore allowing full spline travel which also helps reduce the characteristic "binding" of the yokes when a propshaft is over extended.

 Defender/Discovery 1/Range Rover Classic
 > 300Tdi & Td5 manual models only
 > Double cardan extreme use front propshaft with flange and fitting kit.
 > For vehicles with L230 transfer boxes.
 > Ideal for use with lifted vehicles.
 > Helps to reduce driveline vibration where diff and transfer flanges are not in-line.

Note - Flange must be fitted to transfer box.

Propshaft & Flange Bolt Kits

DA1424

DA1423

4 x 509045P - Propshaft bolt
 4 x BT606101L - UNC flange bolt
 8 x NZ606041L - Nut

DA1424

4 x 509045P - Propshaft bolt
 4 x FRC3602 - UNF flange bolt
 8 x NZ606041L - Nut

DA1123

Wide angle nut & bolt kit suitable for DA6350; DA6351; DA6352, DA6353 & DA6354

Wide Angle Propshafts

If your Land Rover has raised suspension or been modified for extreme axle articulation then the joints on the existing propshaft will become strained. This will cause the propshaft to lock up or vibrate and wear the universal joints prematurely. Dropping the axle further away from the chassis is great for looks, articulation and off-road performance - a neat solution is to fit a wide angle propshaft. This allows drivetrain angles of up to 32 degrees which reduces vibration, universal joint 'bind-up' and premature wear on the joints. These wide angle shafts have greasable universal joints which are more desirable where longer life is required.

DA6350	Front	Defender - from MA - 300Tdi & Td5/Discovery 1/Range Rover Classic - 1986 - 1991	FRC8386
DA6352	Front	Defender - up to LA (1993)	FRC8390/FRC5566
DA6351	Rear	Defender 90 - 4 cylinder	FRC8392
DA6353	Rear	Defender 90 - V8 - up to 2007 & diesel from MA	FRC8393
DA6354	Rear	Discovery 1 - 1989 - 1994 & V8 from 1997	FRC8387
DA6356	Replacement heavy-duty universal joint for wide angle propshafts		
DA1123	Nut & bolt kit - each kit contains 4 nuts - for transfer box end & 4 nuts & bolts - for diff end. Enough nuts & bolts to make propshaft repair out in the field. Suitable for DA6350; DA6351; DA6352, DA6353 & DA6354.

Lynx Evo Diagnostics Interface

What is Lynx Evo?

Lynx Evo is the next generation diagnostic tool for Land Rover vehicles. Offering market leading diagnostics from a powerful and mobile design. Lynx Evo provides full vehicle servicing and in depth diagnostic capability for all Land Rover models from 1990 through to current day. Ideal for the workshop and home user.

Live data can also be displayed using numerics and graphics making it easier to read time based events on your Land Rover. This small but powerful Dongle requires no batteries as it uses the vehicles power. For the enthusiast home user, using Lynx Evo will mean no more trips to your local main dealer to clear any faults on your Land Rover.

Lynx Evo is compatible with iOS and Android mobile devices with apps available for download from the Apple App Store and Android Play Store. As the software is App Store based and is loaded onto your mobile device, updates are as easy to do as any other mobile app, simply click the update icon.

What does Lynx Evo do?

- > Read fault codes
- > Clear fault codes
- > Read & display live data
- > Test actuators
- > Special functions - see coverage chart
- > Programming - such as alarm settings, key fobs etc. on selected models
- > Service reset

What do you get with Lynx Evo?

- > Lynx Evo dongle
- > Quick start guide
- > Protective carry case

What Land Rover models does Lynx Evo cover?

It is important to note that if you purchase an unlock code for a Discovery this code will cover all the Discovery family - from Discovery 1 through to Discovery 4. This feature is hugely beneficial if, at a later date, you upgrade your vehicle within the same Land Rover family you don't have to purchase another unlock code.

Defender Family

- > Defender - from 1990

Discovery Family

What do I need?

Important - Lynx Evo and Lynx Evo Pro are not for sale or use in Australia, Canada, Mexico, New Zealand or USA. Please check that the Lynx Evo App is available in your country before ordering.

DA1500

Lynx Evo - single Land Rover family (see 'What models does Lynx cover' - left) Land Rover family home user version. Unlocked for one Land Rover family only. Upgradable to allow extra Land Rover families to be added at a later date. **Important** - After 12 months there will be a charge for upgrades, existing functionality will **not** be affected if you don't upgrade your Lynx Evo.

DA1501

Lynx Evo Pro - unlocked for ALL Land Rover families.

Important - After 12 months there will be a charge for upgrades, existing functionality will **not** be affected if you don't upgrade your Lynx Evo Pro.

DA1501SE

Lynx Evo Pro Special Edition - unlocked for ALL Land Rover families. Lynx Evo Pro complete with rugged waterproof SIM free smartphone. Available to trade only.

Extras

DA1502

Unlock code for additional Land Rover families.

DA1503

Software update voucher code. 12 months software update entitlement. Lynx Evo product for a single model family.

DA1506

Software update voucher code. 12 months software update entitlement. Lynx Evo Pro.

DA1504

Cable kit - 14CUX, air suspension and ABS.

DA1505

Range Rover P38 cable kit Check & diagnose BECM and check, diagnose & calibrate air suspension.

DA6433

Upgrade lead - power cable for use with firmware updates.

DA6433EU

Upgrade lead - European 2-pin power cable for use with firmware updates.

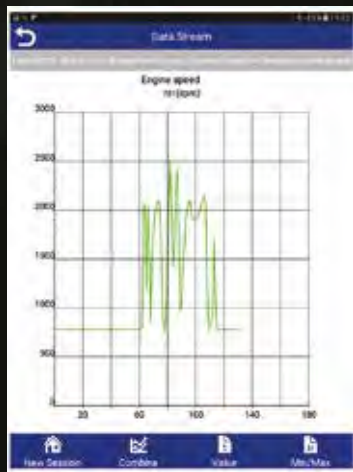

Lynx Evo FAQ's available online

*Lead for 14CUX required - DA1504

For Lynx Legacy - see end of this section.

Example screen shots showing some of the different Lynx Evo display modes.

Key Features

- > Read & display live data
- > Mobile device based
- > Easy to use
- > Unlocked ready to cover an entire Land Rover model family
- > Upgrade software over app store
- > Quickly checks your Land Rover for faults
- > Small enough to store in glove box

Ideal for the workshop & home user

Pathfinder Diagnostics

Want to guarantee you can cover every JLR vehicle that comes into your workshop?

Choose the easy, future proof & profitable route of full dealer diagnostic tools.

Have the ability to offer main dealer level service.

- > Full diagnostics with SDD & Pathfinder
- > Online service record updating
- > Programming
- > Software updates
- > Access to latest technical documentation

The new JLR Pathfinder DOIP VCI is the only unit that will be compatible with all JLR vehicles with the new MY17 vehicle architectures. In addition to the 17MY vehicle line applications, the DOIP VCI will be capable of interfacing with 14-16MY Multi-CAN architecture vehicle lines on the Pathfinder diagnostic system.

Dealer Diagnostics Made Easy

Full diagnostics with SDD & Pathfinder

Suitable for

- > 17MY > Range Rover / L405
- > 17MY > Range Rover Sport / L494
- > 18MY > Discovery / L462
- > 18MY > Range Rover Velar / L560
- > 18MY > Evoque / L538
- > 18MY > Discovery Sport / L550
- > 18MY > XF / X260
- > 18MY > XE / X760
- > 18MY > F-PACE / X761
- > 18MY > F-TYPE / X152
- > 18MY > E-PACE / X540
- > 19MY > I-PACE / X590

Note: Pre-14MY vehicles not detailed above will continue to use the current diagnostic system and VCI

DA1673 NEW - Package 1

- > 1 x New JLR Pathfinder
- > 1 x New JLR VCI
- > 1 x **Panasonic CF53** - Refurbished Windows 7. 32 bit 240 SSD. Pre-loaded with SDD and Pathfinder latest versions
- > 2-year warranty
- > Tech support - 1 month
- > Online training - 2 hours
- > Guidance given for security application for those who want to add keys or carry out other security related tasks

DA1674 NEW - Package 2 - less VCI unit

- > 1 x New JLR Pathfinder
- > 1 x **Panasonic CF53** - Refurbished Windows 7. 32 bit 240 SSD. Pre-loaded with SDD and Pathfinder latest versions
- > 2-year warranty
- > Tech support - 1 month
- > Online training - 2 hours
- > Guidance given for security application for those who want to add keys or carry out other security related tasks

Ongoing costs: From JLR TOPIX website - hourly, daily, monthly, yearly rates available.

DA1869 NEW - Package 3

- > 1 x New JLR Pathfinder
- > 1 x New JLR VCI
- > 1 x **Panasonic CF54** - Refurbished Windows 10. 32 bit 240 SSD. Pre-loaded with SDD and Pathfinder latest versions
- > 2-year warranty
- > Tech support - 1 month
- > Online training - 2 hours
- > Guidance given for security application for those who want to add keys or carry out other security related tasks

DA1870 NEW - Package 4 - less VCI unit

- > 1 x New JLR Pathfinder
- > 1 x **Panasonic CF54** - Refurbished Windows 10. 32 bit 240 SSD. Pre-loaded with SDD and Pathfinder latest versions
- > 2-year warranty
- > Tech support - 1 month
- > Online training - 2 hours
- > Guidance given for security application for those who want to add keys or carry out other security related tasks

Ongoing costs: From JLR TOPIX website - hourly, daily, monthly, yearly rates available.

Traction Control Battery Charger & Battery Support Units

DA1863

DA1862

Ideal for use with Pathfinder Diagnostics

Suitable for most common battery types

DA1864 NEW

50A Traction Control Battery Charger

The new MPL50 charger from Traction Chargers has been designed with the latest JLR workshop standards in mind. Suitable for most common battery types – Ca/Ca, Ca/Ag, AGM, GEL and conventional lead acid. The MPL50 features Traction's patented de-sulphation technology ensuring the battery is in peak condition before commencing charge. As with all Traction Battery Chargers the MPL50 is manufactured at our own UK site. The rectified DC output of the MPL50 achieves significantly higher standard of charge than its switched mode competitors.

- > Patented sulphation recovery program
- > Short circuit shut-down without blown fuse
- > Reverse polarity protection
- > Soft start current control
- > Fast constant current bulk charge
- > 3-stage charging: CC-CV-Float
- > Constant voltage float/standby
- > Proportional timing - minimal gas emission
- > Independent overrun timer
- > Accurate zero-crossing voltage sensing
- > Flexibility – to match battery specification
- > 50A constant output function for diagnostic support
- > Approved by Jaguar & Land Rover
- > Fitted with UK electric plug - adaptor needed for other countries

Input - 220-250VAC

Size - 380 x 260 x 255mm

Weight - 23kg

DA1863 NEW

125A Traction Control Battery Support Unit - Diagnostics, Reprogramming, ABS Brake Bleeding

BSU2-125B provides a stable voltage and up to 50 amps of fully regulated power to prevent loss of charge and damage to the battery. BSU2-125B can be used with any 12V automotive battery including AGM and GEL. When the battery is charged the BSU is a regulated power supply to sustain accessory loads and offset parasitic drain. Designed for use in the workshop and compatible with most diagnostic trolleys. Reverse polarity protection. Output current display. Supplied with 5M IEC power lead and 5M output leads.

- > BSU2-125B provides a constant voltage to prevent loss of data and possible damage to control units during software updates, and module reprogramming as well as diagnostic processes when in a Key On, Engine Off state.
- > During diagnostic or programming operations, the vehicle's systems are operating solely from the battery. Maintaining battery charge during this process is critical.
- > The status of BSU2-125B is indicated simply by three LED's – POWER, POLARITY, DEMAND. When all 3 are illuminated, BSU2-125B is supporting the battery.
- > Designed to be wall, ramp or trolley mounted the BSU2-125B has been designed to meet the needs of the high power consuming vehicle.
- > Approved by Jaguar & Land Rover.

Input - 90 - 260VAC

Output - 13.4V up to 125A continuous

Size - 300 x 184 x 124mm

Weight - 8kg

DA1862 NEW

50A Traction Control Battery Support Unit - Diagnostics, Reprogramming, ABS Brake Bleeding

BSU2-50 provides a stable voltage and up to 50 amps of fully regulated power to prevent loss of charge and damage to the battery. BSU2-50 can be used with any 12V automotive battery including AGM and GEL. When the battery is charged the BSU is a regulated power supply to sustain accessory loads and offset parasitic drain. Designed for use in the workshop and compatible with most diagnostic trolleys. Reverse polarity protection. Output current display. Supplied with 5M IEC power lead and 5M output leads.

- > This low profile (90mm) BSU2-50 battery support unit provides a constant voltage to prevent loss of data and possible damage to control units during software updates, and module reprogramming as well as diagnostic processes when in a Key On, Engine Off state.
- > During diagnostic or programming operations, the vehicle's systems are operating solely from the battery. Maintaining battery charge during this process is critical.
- > Designed to be wall, ramp or trolley mounted the BSU2-50 has been designed to meet the needs of the high power consuming vehicle.
- > Supplied with 5M output leads as standard.

Input - 100 - 240VAC / 50/60Hz

Output - 13.4V up to 50A continuous

Size - 280 x 190 x 90mm

Weight - 6kg

TAY100050L

Discovery 2 Long Sensor Lead

Land Rover recognised that on some Discovery 2 vehicles the wiring from the ABS sensor to the ECU could get damaged. This would result in the vehicle recording ABS faults that cannot be corrected by either a sensor or hub replacement. Their solution was to produce a sensor with a very long lead that bypassed the damaged lead. This hub assembly is a complete unit with this type of ABS sensor and lead.

- > Easily fitted
- > Will not rust

Copper nickel brake pipe sets manufactured in the UK. Each kit is complete for a specific Land Rover model. Pipes are cut to the correct length, fitted with solid brass unions and marked clearly to indicate the correct location on the Land Rover. Pipe fitting clips and brass in-line connectors are supplied where necessary. More brake pipe kits available on request.

DA7440

Brake pipe bending tool. Can be used with all the brake pipe kits.

Ready Made Brake
Pipe Sets

Anti-squeal Shims

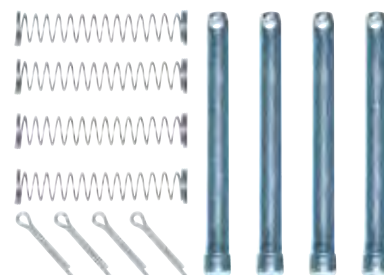

DA1141

Universal self adhesive noise dampening shims. Pack of 4.

The shims are manufactured from wolverine and cut to shape and applied to the backing plate of the brake pads prior to fitting to help eliminate any noise issues (should the pad be unshimmed). When used in conjunction with Mintex Cera-Tec silicon based lubricant, most brake noise related issues will be eradicated.

Brake Fitting Kit

DA4105

Defender - 1987 - 2006
Brake fitting kit for rear brake pads STC1601 & SFP000280

Brake Caliper Pin Kit

LR016683G

Range Rover Sport - 2010 - 2013 & 2014 onwards
Range Rover L322 - 2010 - 2012/Range Rover L405
Models fitted with front Brembo brake calipers tend to suffer from the steel pins seizing in the aluminium caliper. The pins are often destroyed whilst being removed. This is a handy new pin kit for both front calipers.

XS Brake Pads

Best possible combination of long life, pedal feel and noise suppression.

XD Brake Pads

Brake Pads gives you the opportunity of fitting a much higher quality brake pad than the price would indicate. Britpart has tested many different brake pads over the last 5 years and have found this brake pad specification offers Land Rover owners the best possible performance at this price level.

The XD Brake Pads are manufactured to an exact tolerance using only the best European friction materials to OEM specifications ensuring long life and low noise. All raw materials are analysed in-house using a fully equipped quality laboratory with, for example, an atomic absorption device. After analysis the raw materials are mixed and pressed using several different methods to achieve the best brake pad for each application. Each part number is tailored to the application it is intended for. The XD Brake Pad range has been thoroughly tested on dynamometers and noise measuring rigs before being put through their paces on test tracks and extended operations tests to ensure a perfect and effective operation every time. All pads are covered by the worldwide Britpart warranty and Britpart recommends they are fitted with the Britpart standard or performance brake discs.

- > Manufactured to OEM specifications ensuring long life and low noise in a TS16949 & ISO14021 approved factory.
- > Asbestos, lead & CR6 free material.
- > The XD Brake Pad range meet all official legislation for quality and safety and are compliant with European ECE R90.
- > All XD Brake Pads are produced with an underlayer material designed to dampen vibrations to prevent noise and to reduce heat transfer to the brake fluid.

The exact performance material specification of production line brake pads.

The Britpart range of XS Brake Pads offers you the opportunity to have the exact factory production line specification of brake pad at an affordable price. These pads offer the best possible combination of long life, pedal feel and noise suppression. All the pads in the range use the same friction material specification that your Land Rover was originally made with. The XS range of pads are all produced in one of the world's premium brake pad facilities where production procedures are carefully monitored to ensure a consistently good product. The facility has both in-house testing and access to OE testing facilities to ensure all pads meet the exact specification required. Britpart XS Brake Pads are ideal for high mileage or heavy-duty applications.

Parking Actuator Repair Kit

DA9223

Discovery 3
Range Rover Sport - 2005 - 2009
Kit to fix the troublesome parking brake actuator - LR019223
DA9223 NEW (available October 2019)

Fixing kit which includes -

- > 4 x gears
- > 2 x hex bobbins
- > 8 x self-tap Torx screws
- > 4 x Durlack flange nuts

DA9224 NEW Set of 4
Replacement brake actuator gears

Britpart XS Brake Discs

VENTED DISC

XS Brake Disc

- > Exact OEM specification
- > Low noise
- > Installation ready - no need for cleaning before use
- > Anti-corrosion coating which provides a long lasting clean appearance, ideal for today's open rims
- > Disc run out - ≤0.08mm
- > Unbalance requirement - ≤150g.cm
- > Coating - 5~20µm NA paint
- > Salt spray test - 120 hours

SOLID DISC

Brake Lubrication

DA2389

Cera-Tec Advanced Lubricant

75ml
Mintex Cera-Tec is an advanced non-metallic universal lubricant that provides many benefits over traditional copper-based grease.

- > Non-metallic content
 - ABS and ESP friendly.
- > Operates to a high temperature (1,000°C).
- > Non-conductive.
- > Free of copper and acid.
- > More effective at reducing any brake squeal.
- > Protects against corrosion and dirt.
- > Neutral colour prevents any visible residue or staining.

Defender - 90/110 - 2.5l 4-cyl petrol - 1985 - 1994
Distributor with electronic conversion fitted which replaces the existing points and condenser with a new reliable electronic module.

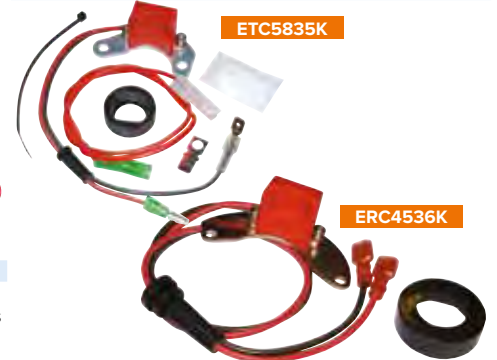

Electronic Conversion Kits

ETC5835K

Electronic conversion kit replaces the existing points and condenser with a new reliable electronic module. For 4-cylinder petrol engines the electronic ignition module has been developed to work with the standard ignition coil and provides service free and accurate ignition timing. The kit can be easily fitted to standard points type 45D4 distributors. We recommend fitting a new coil at the same time - PRC9858. Also available a new distributor with points to which this kit can be fitted - ETC5835.

ERC4536K

This electronic conversion kit is for V8 points and has built in dwell adjustment with rpm protection when not running.

Programmable Wiper Relay

AMR2341DELAY

Fed up with your Defender's intermittent wipers not being intermittent enough? Does it drive you mad when you give the screen a quick spray and it wipes for ages?

Fit this new relay in place of the standard AMR2341 to your vehicle to solve this problem. Once fitted you press the stalk down so that the wiper wipes and then back off again, now count/wait till you want another wipe, switch the stalk down and

leave it on, this timing will now remain constant till you set another timing the same way or turn off the ignition at which point the relay reverts to a standard 6 second wipe interval. Another bonus is that the wipers will now only wipe once following a short burst of washer fluid or 3 times after a long burst. This will work on all Defenders with the latching intermittent wiper stalk PRC7370 or AMR6106 HA onwards (stays down when pressed) but it will also work on 300Tdi and Td5 although on post 2002 Td5s the relay AMR2341 is located behind the speedo. Will not work with early stalk PRC3900 up to GA models.

Replacement Batteries

- > Batteries are manufactured on the same equipment as OE batteries and use the same components to give consistent quality and performance.
- > OE quality standards, giving assurance that the batteries will not let the user down.
- > Batteries are recyclable, helping to protect the environment.

*Cold cranking amps

Starter Motors & Alternator

Powerlite Starter Motors

High torque gear reduction starter motors. These lightweight units offer increased cranking speeds and considerably more cranking power than original units, whilst drawing less current from the battery.

Dynalite Alternator

RTC3840A

Series 2 & 2A - 2½ litre 4-cylinder

Designed & manufactured by highly experienced auto electricians in the UK. The Dynalite aims to bring together modern alternator technology with the classic looks and appearance of a Dynamo. Ideal for both road and competition use the Dynalite provides up to 80% more power and weigh up to 40% less than original dynamo units. The Dynalite unit directly replace dynamo units with no modifications to the vehicle. The self regulating Dynalite unit offers increased reliability and performance charging efficiently across the full rev range. The wiring changes required for the units are very simple and reversible. All Dynalite units are supplied with comprehensive fitting instructions.

Battery-Guard

DA1460

With the Battery-Guard and Apple or Android App, you can check your battery's state of charge quickly and easily. Because only with a fully charged vehicle battery can you be sure to avoid getting stuck. Compatible from iPhone 4S, Android 4.3 and Windows 10.

Features

- > Several vehicles can be monitored
- > Easy install to the battery
- > Monitoring of 6, 12 and 24 volt batteries possible
- > Power consumption is only about 6-24 MW
- > Reverse-polarity does not cause damage to the transmitter or battery
- > App compatible from iPhone 4S, Android 4.3 or Windows 10

Operating Instructions

1. Download the Battery-Guard App

Compatible from iPhone 4S, Android 4.3 & Windows 10.

2. Connect the Battery-Guard

Attach the Battery-Guard to the battery terminals. Fix the transmitter to the cleaned battery using the adhesive film provided.

Battery monitoring via Bluetooth

3. Activate Bluetooth

Activate Bluetooth on your smartphone and then open the App. Bluetooth search mode is not required.

4. Functions

The transmitter appears in the list display. You can assign a name, an image and the rated voltage to the transmitter.

Easy install to the battery

Key Fob Repair Kit

DA4696

Range Rover P38

The buttons on a Range Rover P38 are prone to wearing out and becoming very tatty and unusable. Fix that problem with this handy repair kit.

Engine

Engines

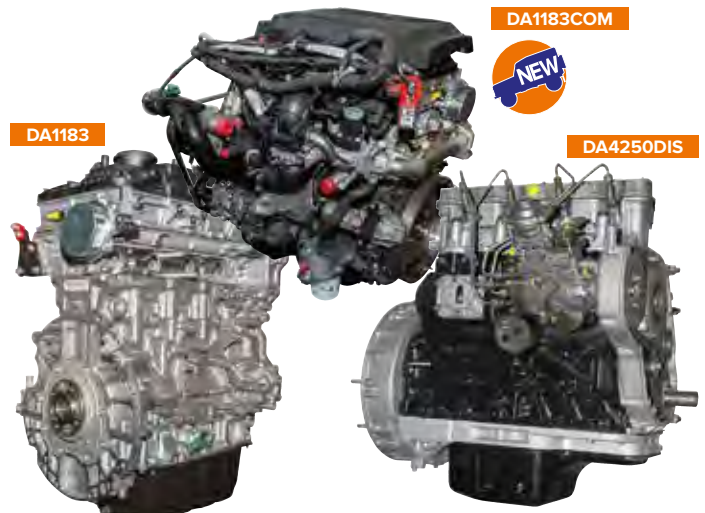

Stripped Engines

Include sump, block, cylinder head, rocker cover, inner timing cover, camshaft and crankshaft gear.

Complete Engines

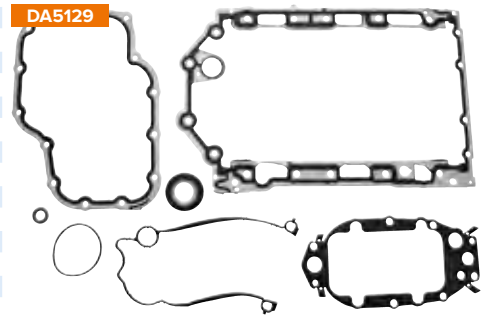

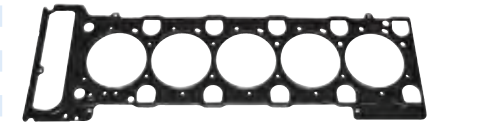

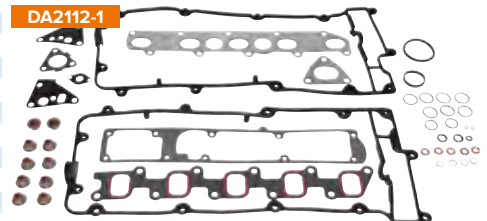

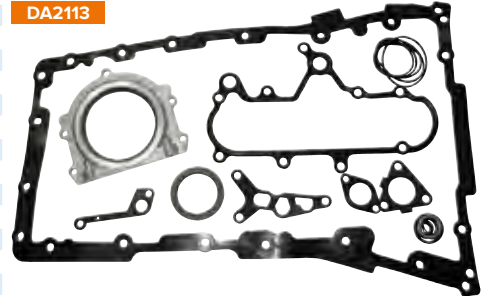

Include fuel pump, injectors, timing assembly and bell housing. Complete engines are tested prior to despatch. Once tested the flywheel and manifolds are removed and the engine is packed without these parts. Outer timing covers, pulleys, manifolds, flywheel and turbo charger are not included.

Top Hat Liner Set

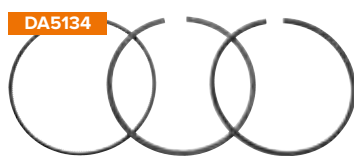

- DA1185**
This flanged repair liner is suitable for damaged/porous 3.9/4.0/4.2/4.6 Rover V8 blocks. The block will require re-boring and flange recess machining before fitting. This liner is the complete solution for fixing these blocks.
The liner can be bored to 96.00mm for over-bored versions of the V8 engine, taking it to 5.0 litres. Semi finished bore 94.00mm (less 1.00mm for final finishing in bore).
Dimensions -
Inside diameter - 94.00mm
Outside diameter - 99.06mm
Length - 135.64mm
Flange diameter - 105.23mm
Flange depth - 5.33mm.

Potentiometer Kit

DA1647 NEW

Rover V8 throttle pot upgrade kit. Adapts the Rover plenum to accept the Colvern throttle pot. Replaces the 2 bolt throttle pot as fitted to all 3.9 & later 3.5 engines from late flapper to last of the Hotwire 14CUX. It replaces ETC8495 and ERR2263. Consists of: Colvern throttle pot, alloy adapter plate, Brass spindle, ball bearing, stainless cover plate, fixings & loom socket. Once this kit is fitted, throttle pot switch replacements are cheaper and easy to source.

Aluminium Header Tanks

This is a direct replacement for the original plastic tank which is prone to splitting. TIG welded by hand and manufactured from high specification lightweight non-corrosive alloy, this tank also aids cooling. Tank uses original pressure release screw cap and is a straight fit with no modifications required. Ideal for motorsport, overland or just to improve the look of your engine bay.

Updated Engine Breather Oil Catch Tank

DA4748

200Tdi & 300Tdi engines

Allisport high performance aluminium engine breather oil catch tank separator. Manufactured using mounting flange machined from billet aluminium. All engines need to breathe crankcase pressure to atmosphere and most are designed to re-enter the air intake system after the air cleaner. Standard breather pots use a gauze and mesh design which over time becomes blocked with oil deposits, reducing the capacity to release crankcase pressure and also allowing more oil vapour to enter the intake system. This high performance replacement is designed to effectively reduce crankcase pressure build up on Tdi engines by using an internal baffle rather than the standard gauze and mesh design. Designed to have a practical purpose offering an improvement over the original black plastic units, but will also look great in the engine bay. Will fit all Tdi engines including 2.8 TGV. Tank has new integral O ring-seal design - **No More Leaks!!** Manufactured by hand, fully TIG welded.

Heating

DA4178

Range Rover Classic - 1990 - 1994 - 200Tdi with air con
Discovery 1 - 200Tdi with air con

Atlantic British has developed this all inclusive kit designed and engineered to replace failed heater motors. The kit includes heater blower motor, blower wheel, motor mounting bracket and mounting screws, heater assembly seals, nylon ties, solder, shrink tubing (for soldered connections) and complete instructions. **Note** - When replacing the heater blower motor the vehicle's resistor must be upgraded to DA4178RESISTOR.

DA4178RESISTOR

The air con blower motor resistor controls the speed of the blower motor and the force of the airflow out of the dash vents, it features a thermal-sink aluminium mounting plate that dissipates circuit heat effectively.

Air-con Evaporator Core

DA4743

DA4744

DA2660

Defender - 2007 onwards

If your Defender's air-con evaporator is broken, you cannot purchase a replacement evaporator core alone. Instead you have to purchase the whole heater unit. We can now offer this OEM replacement evaporator core offering a considerable cost saving over the complete assembly.

AlliSport uprated high output heater matrixes with high quality vacuum brazed cores and louvred fins. These larger matrixes have twice the capacity of standard which increases heat output and improves windscreen demisting times. TIG welded by hand. Only requires some small mods to the heater box to install.

DA4743 NEW

Defender - early models with bent pipes.

Equivalent to AAP817.

DA4744 NEW

Defender - late models.

Right hand drive (including some LHD

NAS spec). Check your application

before ordering! Not suitable for

Puma 2.4 and 2.2 vehicles.

Equivalent to UTP1725.

Damper & Bearing Kit

Freelander 1 - up to 2006 4-cylinder
Not all viscous coupling problems are the fault of the unit itself, sometimes the damper is at fault, this kit prevents buying the whole coupling, just to replace the damper.

DA2664 NEW Damper & bearings kit

DA2352 Damper only

Diff Coupling Shaft

We are now able to offer a cheaper alternative!

DA2355

Range Rover L322 - 2002 onwards, suffer from a common problem with the coupling shaft spline wearing between the front propshaft and front differential, thus losing drive to the differential. The problem relates to the coupling shaft, the differential itself is not affected. Currently the only solution offered by Land Rover is to replace the propshaft and the whole complete front differential assembly - a very expensive option! Using this new coupling shaft will enable you to replace just the propshaft and coupling shaft and leave the differential in place, therefore reducing both time (the differential need not be removed from the vehicle) and cost.

CV Joint Kits

Britpart has put together these boxed kits to help the fitter have all the necessary parts to do the job in one hit, saving time and money trying to find the necessary parts to do the job. These kits are also helpful to pass over the trade counter instead of having to hunt for the individual parts. One kit does one CV joint.

Dual Mass Flywheel Conversion Kits

The flywheel conversion kit can be used to replace the dual mass flywheel using a solid metal flywheel and a heavy duty clutch kit. The one piece flywheel will not break up like the dual mass one so it is highly likely you will never need to change it again which means - lower cost, ease of fitting & potentially eliminating any future flywheel failures.

Note - This kit will make the gearbox more audible in the car at tick over and the kit doesn't include the release bearing - UUB000070.

NRC4356	Series 3 - 4-door LWB 4-cylinder Station Wagon	Richards chassis

Marsland Chassis

Chassis have bolt on gearbox crossmember as standard with anti-roll bar brackets front and rear. The main legs are in pressed pieces as original made from 2mm steel with 3mm stiffeners fitted and spotwelded internally for added strength where outriggers and suspension mounting points are fitted, effectively giving you 5mm of material where most needed. Bolt on rail for rear tub mountings and LH & RH steering damper bracket welded on as standard. All tapped holes re-drilled and tapped, excess galv removed with riv nuts fitted for front & rear mud flaps, power steering pipe clips and step. Rear suspension upper link bush (A-frame) fitted with new M16 bolt and sleeve to fit old level bush.

	Original Chassis	Heavy-duty Chassis
Material	Low-alloy steel, meant for stamping at a thickness of 2mm for legs. Stamping technology is well-suited for mass production, but limits the choice of materials to only malleable sheet metals of lower durability. An additional limitation is the thickness of the stamped material – for this reason certain laminated elements of the frame are particularly susceptible to corrosion.	Legs made from 3mm thick steel. Outriggers and cross members produced with 3mm, 4mm or 8mm thick material. High-durability S355 grade alloyed steel used.
Construction	Legs are welded from two stamped halves. Remaining frame elements also stamped. In order to attain adequate thickness of the material on features exposed to greater structural stress, two-part lamination was used - e.g. on the outriggers of the rear arms. This kind of bi-metal combination is particularly susceptible to corrosion.	All frame elements are laser cut and shaped with digital presses. Legs are welded from four parts. Items that require extra strength use thicker steel, not lamination. Less stress on chassis and other components due to less flex in the chassis and outriggers.
Anti-corrosion protection	Non UV stabilized paint with several mud traps.	Hot galvanization – high-quality coating which achieves a quality durable finish. Construction designed from the start for galvanization with appropriate size holes and flow ways. Additional inspection holes in the legs and other closed profiles so the chassis can be washed out internally or ideal for wax protection. Mud accumulating points kept to a minimum.

DA2056-300TDI-M

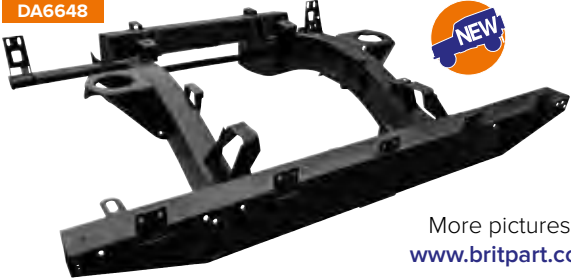

Important

This page is a selection of the chassis' that we do. Please enquire if the chassis you require is not listed here.

Richards Chassis

All Richards chassis are manufactured in the UK, using locally sourced materials and locally based machine shops. They are located close to the steel city, Sheffield, and therefore optimise the use of local steel, ensuring that all their chassis are formed from 2.5mm British steel which are all galvanised as standard. All profiling is done 'in house' using their own laser machine, enabling them to have greater control over the quality of parts used and the materials that they are formed from. The chassis are made using 2.5mm side rails which are 25% heavier than the standard 2.0mm rails. Overall this gives a small increase in the vehicle weight but has a massive effect on the long term durability of the chassis. Bolt on crossmembers are not supplied with Richards chassis but are available separately - see DA5300 above.

The above two brackets can also be used with CAT500360PMA & CAT500370PMA as replacement brackets. These brackets are not available as stand alone brackets - they are only available to order along with the mudflap. The universal number for the mudflap for all Defender 110/130 rear applications is BTR277.

Miscellaneous

DA8200	Anti-luce pin kit	Pair
DA1722	Defender 110/Series LWB	

Door rubber seal holders - Front & 2nd row - These 'P' sections fit Series vehicles and early Defenders (where the door seal is fitted to the sill rail). Made from 1mm stainless steel, laser cut and CNC pressed for accuracy.

DA1396 Defender/Discovery 1/Range Rover Classic

Swivel pin/mudshield bracket - Laser cut, folded, 2mm thick 316 grade stainless steel.

DA4789 NEW Defender/Discovery 1/Range Rover Classic

Rear brake shield bracket - Laser cut, 3mm thick 316 grade stainless steel. Single. Equivalent to LR017513 & FTC3299.

Stainless Steel Door Threshers

Defender - from 1983 onwards & Series 2 & 3
These stainless steel door threshers will freshen up the inside of your Land Rover as this is an area which can get very scruffy. All of the existing holes on the sills line up with these door threshers so they are a quick, easy bolt on project. The door threshers are made from stainless steel 304 grade bright annealed 1.5mm thick and are laser cut and CNC pressed. Stainless steel fixings are supplied. **Note** - If your door seal is fitted to your sill rail, you may need to modify the sill rail.

Automatic Transmission Service & Conversion Kits

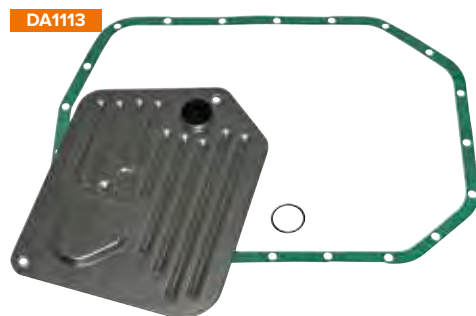

Degradation in oil can lead to judder, noise and a deterioration in gear change quality. It is recommended that oil and filters are changed after 50,000 to 75,000 miles on all 5, 6 & 8 speed automatic gearboxes to ensure optimum performance.

6-Speed Fluid Change Kit

Automatic transmission fluid change kit for vehicles with either a 6HP26 or 6HP28 ZF 6-speed automatic gearbox. Ideal for high mileage vehicles and towing vehicles. Kit comprises of pan assembly, transmission fluid, screws, sleeve & plugs.

Suitable for -
Discovery 3
Discovery 4
Range Rover Sport - 2005 - 2013
Range Rover L322

DA6085 Britpart pan with Ravenol oil
DA6085G ZF pan with ZF oil

5-Speed Gearbox Service Kit

DA1113
Range Rover L322 - 4.4 V8
Kit comprises of oil screen, seal & o-ring.

6-Speed Filter Conversion Kit

This is an easy change filter conversion kit for all vehicles using the ZF 6HP26 automatic transmission. From the factory a fluid and filter change on this transmission is a very lengthy process. The sump and filter are normally one piece and fitting involves jacking the engine up and unbolting the mounts, plus the removal of the exhaust.

Suitable for -
Discovery 3
Discovery 4
Range Rover Sport - 2005 - 2013
Range Rover L322

The fitting of this kit is far easier. Once the fluid has been drained from the transmission simply remove the bolts from the old unit. Cut the old plastic sumps filter tube with a hacksaw. Slide the old sump out and remove the other end of the sawn off filter tube. The new separate filter can then be fitted and the new sump pan slides into place and is bolted up with the new gasket supplied. Once secure the transmission can be filled as per manufacturer's instructions. The new sump pan also has the added benefit that it is manufactured in durable steel rather than the plastic of the original item - LR007474. Also see DA6085 & DA6085G in service kit section. 7 litres needed for oil change.

Brake Cleaner

STC8972

TRW Brake Cleaner

500ml aerosol

- > Cleans & degreases brake and clutch parts.
- > Evaporates quickly.
- > Simplifies dismantling and assembly.
- > Removes dust, oil, grease & brake fluid.
- > Sprays from any angle.

Swivel Housing Grease

STC3435	370gm bottle
STC3435S	370ml sachet

- > Formulated for all Land Rover models with ball type swivel housings.
- > Lubricates swivel pins and housing seals, protects spheres.
- > A semi-fluid grease designed to withstand shock loading in oscillating joints.
- > Reinforced with solid lubricants, highly resistant to water and salt corrosion.
- > Better lubrication while driving, less leaks while standing.
- > One shot gives 'filled for life' protection.

Trade Tack Stab

DA6348

Super Bond Spray Adhesive

250ml aerosol

- > High strength
- > Variable spray
- > Quick
- > Clean
- > High tack/long tack
- > Very fast set

Ideal for bonding and laminating of polyurethane foam, polystyrene foam, fibres, fabrics & felts etc to themselves.

Bearing Grease

DA2391

Multi-pack of bearing grease
10 x 20ml sachets

Hylomar Sealants & Compounds

RTC3347

Hylomar Universal Blue - gasket & jointing compound - 100g

Non setting universal jointing compound that is resistant to fuels, coolants and lubricants. Use on gaskets and machined metal surfaces. High temperature capability up to 250°C with unlimited assembly time. Easy disassembly for service maintenance and allows for differential thermal expansion of components. Excellent vibration resistance.

RTC3254

Hylomar 101 Silicone Sealant - gasketing, sealing & bonding compound - 85g

Engineering grade which forms any size or shape of gasket instantly and remains flexible and will not shrink. Bonds to metal, glass, ceramics, plastics, fibres and wood. Resists most solvents. Electrical insulator. Maximum constant operating temperature 250°C with neutral curing. Ensure surfaces are free from oil and grease.

STC4404

Hylomar 607 Silicone Sealant - 300ml

Engineering grade with excellent gap filling properties. Forms any size or shape of gasket instantly and remains flexible and will not shrink. Bonds to metal, glass, ceramics, plastics, fibres and wood. Resists most solvents. Good fluid resistance - not petrol or diesel. Electrical insulator with maximum constant operating temperature 250°C. Neutral curing. Tolerant of some oil and grease, ensure surfaces are clean.

STC4600

Hylomar 3400 Anaerobic Gasket Compound - 300ml

Excellent resistance to automotive fluids including fuels with an operating temperature -40°C to 150°C. Machined metal to metal surface only, not suitable for pressed steel. No gap filling. Latest generation anaerobic gasket compound. Single part product. Suitable for K-series engines. Ensure surfaces are free of oil and grease.

DA6441

Hylomar 100 Series Instant Gasket - 85g

Engineering grade amine curing RTC silicone sealant with a proven performance in aftermarket applications. Non corrosive. Forms any size or shape of gasket instantly. Remains flexible, will not shrink. Bonds to metal, glass, ceramics, plastics, fibres and wood. Resists most solvents. Electrical insulator. Ensure surfaces are clean and dry before use.

STC9158	LubeTech Manual transmission fluid 94 API GL4	1 litre
STC4862G	Texamatic 7045E	1 litre
Automatic transmission fluid. Provides top-tier protection to all applications where Dexron I/II type products are specified, offering excellent protection to automatic transmission and power steering systems.		
LR006247G	Castrol Syntans 75W-90/API GL-4	1 litre
Multi-vehicle manual transmission fluid		
STC4863G	Mobile ATF LT 7141	1 litre
Automatic transmission fluid. Suitable for use in automatic transmissions and power steering systems.		
TYK500050G	ZF Lifeguard Fluid	1 litre
This high performance full synthetic oil for automatic transmissions has been exclusively developed and approved for ZF automatic transmissions only.		
IYK500010G	Transfer Fluid TF-0870 - OEM	1 litre
Use in active transfer case to provide a stable viscosity.		
TYK500010G	Castrol Differential SAF-XO SAE 75W-90	1 litre
Fully synthetic final drive lubricant recommended for most passenger car final drives.		
LR003156G	Castrol Differential EPX SAE 80W-90	1 litre
Mineral based multi-grade extreme pressure gear oil for the lubrication of spiral bevel and hypoid differentials. The product is also suitable for the lubrication of manual transmissions where the manufacturer recommends the use of an oil to API GL5.		
LR019727LR	Castrol Differential SAF Carbon Mod Plus SAE 75W-90	1 litre
Fully synthetic gear oil which can be used for axles with limited slip differentials.		
LR024835G	Castrol Syntans FE 75W / API GL-4	1 litre
Multi-vehicle manual transmission fluid

Engine Oils

DA1122	Castrol Edge Professional A1 5W-20	1 litre
Co-engineered in partnership with Land Rover for new engine applications. Over the full service interval it keeps the engine clean and provides outstanding fuel economy.		
DA6287G	Castrol Edge Professional C1 5W-30	1 litre
Proven in tests to deliver outstanding oil strength. Micro-filtered and with its signature fluorescent colour it is your guarantee of professional quality. It is suitable for use in automotive petrol and diesel engines where the manufacturer recommends an ACEA C1 5W-30 lubricant.		
DA1425	Castrol Edge Professional E 0W-30	1 litre
Castrol EDGE Professional E 0W-30 is suitable for use in automotive gasoline and diesel engines where the manufacturer recommends : ACEA C2 specification 0W-30. Castrol EDGE Professional E0W-30 is approved for use in vehicles that require a Land Rover - Engine oil specification STJLR.03.5007 0W-30 lubricant.		
<ul style="list-style-type: none"> > Maximises short and long term engine performance > Reduces engine deposits to help maximise engine response > Delivers complete protection across a variety of driving conditions & temperatures > Sustains maximum performance even when under pressure. 		
DA1428	Castrol Edge Professional C1 5W-30	1 litre
Boosted with Titanium FST and suitable for use in automotive gasoline and diesel engines where the manufacturer recommends an ACEA C1, C2 specification. Recommended and approved for use in vehicles that require a Jaguar Land Rover engine oil specification STJLR.03.5005.		
DA1429	Castrol Edge Professional E 0W-20	1 litre
Suitable for use in vehicles that require a Jaguar Land Rover engine oil specification STJLR.03.5006 0W-20 lubrication.		
DA1430	Castrol Magnatec 10W-40 A3/B4	1 litre
Its intelligent molecules will protect your car's engine during the critical warm up stage when up to 75% of engine wear occurs.		
DA1427	Castrol Magnatec Stop-Start 5W-30 A5	1 litre
Its intelligent molecules will protect your engine from the moment you start, every time you start, dramatically reducing stop-start wear.

Britpart XD Oils

DA1331	Britpart XD 10W-40	1 litre
DA1530	Britpart XD10W-40	5 litres

Product Description

Britpart XD 10W-40 is a semi-synthetic multi-grade engine oil manufactured using high quality additives and base oils for fuel efficiency and superior performance for petrol and diesel engines of modern passenger cars and light commercial vehicles. Meets ACEA and API specifications required by a large number of cars and light commercial vehicles. The additive technology coupled with group 3 base fluids also ensures a high level of component protection and cleanliness when operating in severe conditions with extended drain intervals. Engine design has changed rapidly over recent years. Increased output from smaller units coupled with reduced engine oil sump capacity has put greater demands on the lubricant. Britpart XD 10W-40 is designed to meet these challenges and is manufactured from a balanced blend of top quality mineral and synthetic base stocks to produce a high quality engine oil with outstanding properties. Its naturally higher lubricity offers lower internal friction which reduces engine wear and improves fuel economy. It provides excellent stay in grade performance for a wide range of modern engines.

Applications

Britpart XD 10W-40 is suitable for normally aspirated and turbocharged diesel and petrol engines in passenger cars and light commercial vehicles. It is miscible with all synthetic and mineral based engine oils.

Performance Levels

- > ACEA: A3/B4
- > API: SL/CF
- > VW: 502.00/505.00
- > MB: 229.5
- > RN 0700/0710

Benefits

- > Improved fuel economy
- > Suitable for a wide range of vehicles
- > Excellent high and low temperature stability
- > Excellent cold starting
- > Improved oil consumption and emissions

Technical Data*

- > SAE 10W-40
- > Viscosity Index 152
- > Specific Gravity @ 15°C (typical) 0.867
- > Pour Point °C -35
- > Kinematic Viscosity @ 100°C cSt 14.51
- > Flash Point COC (°C) 220
- > Kinematic Viscosity @ 40°C cSt 100.00
- > TBN (mg KOH/g) 10.2

*These are typical test results and don't constitute a specification.

XD oil

Multi-grade engine oils
manufactured using high
quality additives

DA1333	Britpart XD 5W-30	1 litre
DA1529	Britpart XD 5W-30	5 litres

Product Description

Britpart XD 5W-30 is fully synthetic multi-grade and fuel efficient engine oil meeting the latest Ford specification. Formulated with highly refined synthetic base stocks and the very latest in advanced additive technology. The carefully selected components combine to provide the user with improved fuel economy benefits, greater robustness to fuels containing increased levels of bio-diesel and superior soot handling properties. This highly stable, stay-in-grade product allows extended oil drain intervals to be achieved.

Applications

Britpart XD 5W-30 is suitable for normally aspirated and turbocharged, petrol and diesel vehicles, particularly the more modern vehicles. It is also recommended for use in all Ford engines where the latest Ford WSS-M2C 913-D is specified.

Performance Levels

- > ACEA: A5/B5
- > API: SL/CF
- > STJLR 03.5003
- > RN 0700

Benefits

- > Extended drain capacity
- > Fully backwards compatible with the earlier specifications of WSS-M2C, 913-A, 913-B
- > Stay-in-grade formulation
- > Excellent low temperature stability for improved flow rates
- > Improved fuel efficiency
- > Fully Synthetic formulation

Technical Data*

- > SAE 5W-30
- > Viscosity Index 164
- > Specific Gravity @ 15°C 0.850
- > Flash Point (COC °C) 220
- > Kinematic Viscosity @ 100°C cSt 11.29
- > Pour Point °C -38
- > Kinematic Viscosity @ 40°C cSt 66.51
- > TBN (mg KOH/g) 8.9

*These are typical test results and don't constitute a specification.

DA1822 NEW	Britpart XD 20W-50	1 litre
DA1823 NEW	Britpart XD 20W-50	5 litres
DA1824 NEW	Britpart XD 20W-50	20 litres

Product Description

Britpart XD 20W-50 is a traditional mineral oil based engine oil suitable for use in gasoline fuelled passenger cars and light duty diesel vehicles. It is formulated from a blend of top quality solvent refined mineral base oils with established detergent/dispersant additive technology and incorporating viscosity index improver polymers to deliver the 20W-50 multi-grade viscosity profile. The 20W-50 viscosity grade classification is designed for severe service conditions and ensures optimum lubrication protection and engine performance in warmer climate conditions.

Applications

Applications for the 20W-50 are older model petrol vehicles fitted with an oil filter, especially V8's and 200Tdi/300Tdi high mileage vehicles with excessive oil consumption. Also to be used in hot climates where a 15W-40 is normally recommended. Not suitable for TD5 onwards.

Performance Levels

- > ACEA: A3/B3
- > API: SL/CF
- > MB: 229.1

Benefits

- > High temperature performance
- > Protects against ring sticking at high temperatures
- > Maintains oil performance
- > Minimises oil consumption
- > High standard of engine cleanliness
- > Excellent sludge control protection designed for stop-go city motoring
- > Long lasting dispersant, anti-wear and corrosion protection

Technical Data*

- > 20W-50
- > Viscosity Index 133
- > Specific Gravity @ 15°C 0.885
- > Flash Point (COC °C) 220
- > Kinematic Viscosity @ 100°C cSt 18.2
- > Pour Point °C -30
- > Kinematic Viscosity @ 40°C cSt 153
- > TBN (mg KOH/g) 9

*These are typical test results and don't constitute a specification.

Friction Modifiers

DA1356 1 litre
This special fluid is developed for Borg Warner wet clutch applications and is suitable for use in wet clutches with sinter and organic plates. The oil provides excellent friction characteristics and prevents stick-slip. The extremely good shear stability properties ensures optimum lubrication during the life time of the clutch. This fluid is recommend for Borg Warner Generation II-V rear AWD coupling control unit clutches used in Land Rover. To the specifications of Land Rover EJ3219A509AA.

DA6296 Oil additive - Friction modifier 850ml

Air-con Compressor Oil

DA4967
250ml
Coolant oil for air conditioner compressors

Oil Analysis Kit

DA6358

Extend the life of both engine & transmission

Lubetrend Analysis is the complete fluid analysis programme performed by the Number One oil condition monitoring laboratory in the UK with over 35 years of experience in monitoring all types of fluid lubricated and insulating oil systems; giving you the confidence to act. Regular checks on the condition of the oil can extend the life of both engine and transmission and help spot potential problems long before they materialise. Our aim is to help you succeed in making the most of your vehicles and machinery through reducing unplanned downtime, extending oil drains and detecting potential future failure - before they happen. Essential not only for all aspects of motorsport - we'd recommend taking a sample after each event - but also recommended for your everyday transport as part of the annual service. The price includes the sample kit and the full analysis report. Postage to the laboratory is your responsibility.

Ravenol Workshop Consumables

Engine Oils

DA6289 1 litre
DA6288 5 litres
SFE Super Fuel Economy 5W-20
Ravenol SFE 5W-20 is suitable for all petrol and diesel engines requiring a 5w20 grade fuel economy lubricant, and is especially developed to meet the requirements of the latest generation of Land Rover and Jaguar vehicles fitted with 5.0L V8 units.

DA6376 1 litre
DA6377 5 litres
FLJ SAE 5W-30
Ravenol FLJ SAE 5W-30 is a universal, fuel-saving, specially-composed motor oil for modern petrol and diesel engines both with and without turbochargers, for use in automobiles and vans with extended oil change intervals.

DA6378 1 litre
DA6379 5 litres
VMO SAE 5W-40
Universal synthetic low friction motor oil especially developed for pump-jet diesel engines. Moreover, this lubricant is suitable for gasoline and diesel engines in passenger cars and vans with and without turbo charger. Due to the specific composition Ravenol VMO SAE 5W-40 is suitable for use for several of the latest OEM requirements.

DA6291 1 litre
DA6292 5 litres
FO 5W-30
Ravenol FO 5W-30 is a fuel economy engine oil, special product for modern gasoline and passenger car diesel engines.

DA1804 NEW 1 litre
DA1813 NEW 5 litres
Eco Synth ECS 0W-20
A state-of-the art PAO (Polyalphaolefin) based fully synthetic, smooth-running low-friction motor oil with Ravenol's patented USVO® and CleanSynto® technologies and is recommended for modern car petrol and diesel engines, including supercharged models, and for direct injection engines and hybrid vehicles under all operating conditions.

DA1805 NEW 1 litre
DA1814 NEW 5 litres
FDS 5W-30
A PAO (Polyalphaolefin) based, fully synthetic low friction motor oil with especially USVO® and proven CleanSynto® technologies for petrol and diesel engines with and without turbo-charging and direct injection. Ideal for use in all driving conditions such as in extreme stop-and-go traffic and high-speed motorway driving. It minimizes friction, wear and fuel consumption.

DA1806 NEW 1 litre
DA1815 NEW 5 litres
FES 0W-30
Fully synthetic, smooth-running low-friction motor oil with special USVO® and proven CleanSynto® technologies and is recommended for modern passenger car fuel and diesel engines, including supercharged models, and for direct injection engines under all operating conditions. Using additives with low ash content it offers excellent cold start characteristics.

DA1807 NEW 1 litre
DA1816 NEW 4 litres
SSV Fuel Economy SAE 0W-30
Achieves a high viscosity index and a considerable fuel saving through of its formulation with special base oils and PAO. The excellent cold start behaviour provides an optimum lubricating safety during the cold run phase.

DA1808 NEW 1 litre
DA1817 NEW 5 litres
VDL 5W-40
Full synthetic engine oil designed for modern high performance diesel engines where improved fuel efficiency and extended protection are demanded. Minimum evaporation properties, very high wear protection and improved detergent and dispersant characteristics make this suitable for use over extended drain intervals and the harshest of conditions.

DA1809 NEW 1 litre
DA1819 NEW 5 litres
VST 5W-40
Utilizes the positive properties of tungsten to smooth the surface structure of the motor, significantly improving mechanical efficiency. This guarantees optimal operation in all driving conditions, extreme stop and go in heavy traffic to high speed driving on motorways.

DA6368 1 litre
DA6369 5 litres
TSi SAE 10W-40
TSi 10W-40 is suitable for year round use in modern petrol & diesel cars. For use in turbo & non-turbocharged vehicles, multi-valve & direct injection diesel engines and is catalyst-compatible. Due to the specific high quality composition of TSi 10W-40, meets and exceeds the requirements of many leading OEM's, it also carries manufacturer approvals.

DA6380 1 litre
DA6381 5 litres
Turbo-C HD-C SAE 15W-40
It is perfectly suited as all-season motor oil for the mixed fleet. It can be used in the commercial vehicle sector for operation and extended oil change interval (up to 45,000 kilometres are possible) according to manufacturer's specifications.

Ravenol Workshop Consumables

Transmission Oils

STC4863 1 litre
DA1579 20 litres

ATF 5/4 HP Fluid

Ravenol ATF 5/4 HP Fluid is primarily designed for use in ZF 4HP-series (4HP20, 4HP22, 4HP24) and 5HP-series (5HP18, 5HP19, 5HP24, 5HP30) automatic transmissions.

DA6374 1 litre
DA6375 4 litres

ATF T-WS Lifetime Fluid

An automatic transmission fluid based on the latest HC/HT and PAO synthetic technology. Due to the special formulation the durability is up to twice that of a comparable standard ATF oil.

DA6372 1 litre
DA6373 4 litres

ATF Dexron D II

It was developed for the use in automatic transmissions, hydro steering mechanisms, converters and power transmissions and can be used as a universal ATF (automatic transmission fluid) for all vehicles and working machines.

STC50531 1 litre

ATF JF506E Fluid

Ravenol ATF JF506E is primarily designed for use in JATCO JF506E 5-speed automatic transmissions used in Land Rover Freelander.

LR052059 1 litre
DGL SAE 75W-85 GL-5 LS

A fully synthetic multi-grade PAO based hypoid transmission oil meeting API GL-5 specification with a specially co-ordinated additive treatment and 'limited slip' properties for manual transmissions and rear-axes.

LR022460 1 litre
LR002748 1 litre

ATF T-IV Fluid

Ravenol ATF T-IV Fluid was primarily developed for use in the latest Aisin Warner and Toyota transmissions found in many modern European and Japanese vehicles, and it's versatile formulation means it can also be used to replace older T, T-II and T-III fluids where required, as well as fulfilling many other manufacturer requirements.

TYK500010 1 litre
TYK500010-4L NEW 4 litres
TYK500010-20L 20 litres

VSG 75W-90 Gear Oil

Suitable for use in both synchromesh and non-synchromesh gearboxes and perfectly suited for use in highly stressed axle drives and differentials. Used in many high performance and motorsport applications as well as for road use in cars where maximum protection and fuel economy are desired.

DA1826 NEW 1 litre
MTF-1 SAE 75W-85

Full synthetic, low-viscosity transmission oil for manual transmissions, transfer cases and differential gears. Designed to exceed the OEM requirements and specifications for a fuel efficient lubricant which combines outstanding performance at both hot and cold temperature extremes, even with extended oil change intervals.

STC4862 1 litre
ATF Dexron IIIH

Ravenol ATF Dexron III H was primarily developed for use in automatic transmissions with electronically controlled converter lockup clutch, but also suitable for use as a universal ATF and power steering fluid, especially where Dexron III is the required specification, and is backwards compatible for Dexron II applications.

TYK500030 1 litre
TYK500030-4L NEW 4 litres
MTF-2 75W-80 Gear Oil

Ravenol MTF-2 SAE 75W-80 is ideally suited to ensure smooth and efficient operation of modern transmissions subject to very high mechanical and thermal loads of gear oils, even at the longest oil change intervals.

DA1811 NEW 1 litre
DA1820 NEW 4 litres
MTF-3 75W

A fully synthetic, fuel efficient gear oil formulated using the latest PAO synthetic technology and special additive systems to combat very high mechanical and thermal loads, even at the longest oil change intervals.

LR003156 1 litre
EPX SAE 80W-90 GL

Ravenol Getriebeoel EPX SAE 80W-90 GL 5 is compatible with all brand-name transmission oils. In case of changing to Ravenol EPX SAE 80W-90 GL 5 flushing is not necessary. It can be used in manual transmissions, axle drives, distributor and intermediate transmissions in vehicles and working machines.

TYK500050 1 litre
TYK500050-4L 4 litres
TYK500050-20L 20 litres
TYK500050-208L NEW 208 litres

ATF 6HP Fluid

Ravenol ATF 6 HP Fluid was developed specifically for use in the latest ZF 6HP-series transmissions, 6HP19, 6HP21, 6HP26, 6HP28, 6HP32, 6HP34, also for 5-speed automatic transmission 5HP-series. It is backwardly compatible for all earlier versions of ZF 4.

DA1345 20 litres
ATF 8HP

Ravenol ATF 8HP Fluid is an automatic transmission fluid (ATF), produced with a blend of hydrocrack oils and synthetic PAO together with special additives and inhibitors to enable smooth and efficient function of the latest ZF automatic transmissions. Ravenol ATF 8HP Fluid has been formulated specifically for the latest generation of 8-speed ZF automatic transmissions and is coloured green for easy identification.

LR019727 1 litre
Multi-disc Locking Differentials Semi-synthetic Lubricant

Ravenol MDL multi-disc locking differentials was developed specifically for use in lamella limited slip differentials.

IYK500010 1 litre
IYK500010-20L 20 litres
Transfer Fluid TF-0870

Ravenol Transfer Fluid TF-0870 was developed for use in active transfer case and provides a stable viscosity even under the highest loads.

DA1569 300ml
AWD-H Fluid

A special high-performance transmission oil suitable for rear AWD coupling control units. Ravenol AWD-H Fluid should be changed every 37,500 miles in order to avoid damage to the powertrain.

Coolants

DA6293 1.5 litres
DA6294 5 litres

Organic Technology Coolant Concentrate

Ravenol Organic Technology Coolant Concentrate is an eco-friendly 1.2- Ethanediol (monoethylene glycol) based silicate, borate, nitrite and phosphate-free coolant for cooling circuits in combustion engines which provides maintenance-free corrosion and frost protection.

DA1812 NEW 1.5 litres
DA1821 NEW 5 litres

Traditional Technology Coolant Concentrate

An eco-friendly 1.2- Ethanediol (monoethylene glycol) based nitrite, amine and phosphate-free coolant for cooling circuits in combustion engines which provides maintenance-free corrosion and frost protection. The product is formulated as a long-term coolant based on a proven inhibitor development.

Power Steering

STC50519 1 litre
STC50519-20L 20 litres

SSF Power Steering Fluid

Ravenol SSF Fluid is a special hydraulic fluid formulated using the latest fully synthetic technology blended with special ashless additives. It is designed for use from -40°C to +100°C and is therefore recommended for the latest developments in the vehicle market.

Grease

DA4960 400g
DA4961 5kgs

Multi-purpose Grease

Ravenol Mehrzweckfett OML is a lithium based multi-purpose grease with oxidation and corrosion protective additives.

Sundries

More information on all these Ravenol products at
www.britpart.com/ravenol

DA6485 Brake Cleaner 500ml
Ravenol brake cleaner is a highly effective solvent-blended brake cleaner aerosol for the degreasing and cleaning of brakes, brake linings and clutch parts.

DA1628 Interior Cleaner 400ml
Ravenol Cockpit-Spray is a highly effective care spray for the cleaning and maintenance of plastic, artificial and natural leather interior surfaces of all types of motor vehicles. Silicone-free formulation leaves a silky shine and protects treated surfaces from the effects of oxidative ageing, as well as helping to protect surfaces against the effects of intense sunlight such as fading and cracking. The anti-static properties ensure surfaces remain dust-free for longer and the product leaves a pleasant perfumed odour after use.

DA6486 Silicone Spray 400ml
Ravenol Silicone-Spray is a universal lubricant and slide release agent spray for use on all types of components. Specially developed for the lubrication, care and maintenance of all types of rubber, plastic and metal surfaces and components. The water-resistant and weatherproofing properties make it especially suitable in a marine environment. The quick drying formulation leaves a colourless and odourless coating which is physiologically inert, water-resistant, UV-resistant and weatherproofed.

DA6496 Copper Paste 90g
Ravenol Copper paste is a lithium grease containing copper powder as a solid lubricant additive, anti-wear additives & anti-corrosion properties. It is suitable for application to components which are exposed to high temperatures, strong pressures and corrosive influences. It reduces friction and wear, provides protection against corrosion and seizing and is used in the automotive industry for assembling disc brakes and exhaust systems.

Diesel System Cleaner

DA4962 Diesel System Cleaner 300ml
A fuel additive for all diesel engines which cleans the fuel injection system and restores the full power of the engine, whilst increasing operational safety and improving fuel economy. It is a cleaning agent for electronically and mechanically controlled fuel injectors which allows for combustion with a low degree of soot and reduced particles whilst preventing rattling noises and rough idling.

Ravenol Oil Guide

Use our new handy online Ravenol Oil Guide to find the most suitable oils for your Land Rover - covers from early Defenders right through to current models.

www.britpart.com/ravenol

Ravenol the renowned German Manufacturer is one of the most technically innovative companies in the lubricants industry. Ravenol prides itself on the special formulations, unique design and its exacting manufacturing processes that are individually tailored to suit customer needs. This is why the demand for Ravenol product is growing worldwide. In the advanced in-house laboratories products are carefully developed to meet and exceed the requirements of the major automotive manufacturers and to comply with all current and future regulations. Across the globe, Ravenol has earned an enviable reputation for innovation and technical excellence. Ravenol have developed an extensive range of products meeting and exceeding Land Rover requirements resulting in quieter running engines with improved fuel economy and smoother gear changes. Whichever Land Rover/Range Rover model you drive, wherever and however you drive it, Ravenol have developed a lubricant to meet your specific requirements. We at Britpart not only recommend the use of Ravenol lubricants in your Land Rover, but use them in our own fleet of Land Rovers, trucks and vans.

Castrol Classic Oils & Greases

Castrol Classic Oils Workshop Consumables

DA6260	Classic XL 20W-50	1 gallon tin
DA6261	Classic XL 20W-50	1 litre tin
A conventional multi-grade engine oil of good all round performance for pre-1980 modern classic cars.		
DA6264	EP140 Extreme Pressure API GL4	1 litre tin
Originally specified grade for Series steering boxes and relays.		
DA6265	EP90 Extreme Pressure API GL4	1 litre tin
Extreme pressure multi-purpose gear oil for hypoid and non-hypoid applications.		
DA6268	TQF	1 litre tin
Transmission fluid for automatic gearboxes, incorporating additives to provide wear, oxidation and corrosion resistance.		
DA6269	Red Rubber Grease	500g pot
A special, rubber compatible grease for use on hydraulic brake and clutch components where hardening or swelling of rubber must be avoided. Useful in assembly of rubber components for brake, clutch and suspension units.		
DA1595	Water Pump Grease	500g pot
Hard consistency grease with high water resistance and excellent sealing properties. Also ideal for protecting brake pipes and fittings.		

Castrol Classic Oils Merchandise

Castrol Tin Mug	
DA6270	Drink your tea in a nostalgic way with this large tin mug.
Castrol Pouring Jugs	
Use either to decorate your workshop or study or to accurately measure lubricant quantities shown in imperial measures in vehicle handbooks.	
DA6271	Half pint
DA6272	Pint
DA6273	Quart (two pints)
Baseball Cap	
DA6274	Smart green cap with embroidered Castrol logo. One-size fits all
Window Service Sticker	
DA6275	Never forget to change your oil with this self-cling window sticker with Castrol logo on one side and Change Due boxes on the other. 3" diameter.

for your classic vehicle.*

Ravenol Classic Oils

www.britpart.com/ravenol

DA4963
5 litres
Ravenol Classic SAE 30
Monograde engine oil for pre-1960 Land Rovers.

DA4964
5 litres
Ravenol Classic SE 20W-50
Multi-grade engine oil for post 1960 petrol Land Rovers.

DA4965
1 litre
DA1532
4 litres
Ravenol MZG EP 80W-90 GL4
Transmission oil for early Land Rover gearboxes, transfer boxes and differentials. Recommended for the lubrication of all manual transmissions, differential gears, transfer boxes and steering boxes of most early Land Rovers where a GL4 specification is called for.

The need for Classic Oils?

Oils for modern engines need to comply with the latest API ratings and specific ACEA and OEM specifications concerned with improving fuel efficiency, extending oil drain intervals and exhaust treatment systems such as diesel particle filters.

A classic car engine has the opposite characteristics with cork/graphite/rope seals, low pressure gear driven oil pumps, larger oil galleries with greater dependence on "splash" and "cling" lubrication, lower revving with larger machining tolerances. This type of engine design demands a totally different lubricant. The new range of Ravenol Classic Oils offers formulations that have been specially blended to meet the requirements of older vehicles.

Special anti-wear additives with the correct amount of zinc (ZDDP) are added to ensure that metal to metal contact and irreparable engine damage is prevented, especially to camshafts and followers, which can wear out in only a few thousand miles when using modern oils. The careful selection of appropriate corrosion inhibitors, special dispersant additives and the correct levels of detergency protect against pitting, the build-up of gums, lacquers, sludge, soot and metallic ash – the normal by-products of combustion.

By using Ravenol Classic Oils in your classic Land Rover you are protecting both engine and transmission – for generations to come.

DA4966
300ml
Ravenol Octane Booster
Petrol engine lead replacement additive with octane booster. An environmentally-friendly valve seat lubricant and combustion enhancer which increases the octane rating by at least 3 points. It helps to prevent pinking and running on and allows more ignition advance, thus improving performance in the peak ranges. Especially suitable for low-grade or insufficient fuel quality. It helps to prevent wear and tear on valve seats and exhaust valves when using modern fuels in older engines.

Dr. Tranny® Instant Shudder Fixx™

DA6809 2fl oz (59.2ml)
Packaged in a uniquely engineered two ounce application tube Dr. Tranny® Instant Shudder Fixx™ is compatible with conventional or synthetic automatic transmission fluids. This formulation of friction modifiers made of synthetics and synthetic esters is concentrated five times.

- > A concentrated friction modifier formulated specifically for instantly eliminating torque converter lock-up shudder
- > Provides 4x's less wear than regular ATF
- > The original shudder fix
- > Compatible with conventional and synthetic ATF's
- > Commonly used as a diagnostic tool to determine if a problem is fluid related or a more mechanical fix is required

Raptor Anti-corrosion Epoxy Primer

DA6615
DA6616 1 litre
DA6616 5 litres
DA6647 NEW 1 x 400ml aerosol - Easy and convenient
The Raptor anti-corrosive epoxy primer is a high performance 2K primer. It contains a blend of anti-corrosive additives to help inhibit rust and corrosion and has excellent salt spray resistance. Raptor anti-corrosive epoxy primer's advanced resin technology improves adhesion to bare metal including aluminium and galvanised steel and most other prepared surfaces. Raptor anti-corrosive epoxy primer will provide an ideal base coat whatever your final surface finish will be.

Raptor Protective Coating

RAPTOR

- DA6382** Raptor 4 litre kit - black
4 x 750ml Raptor & 1 x 1 litre hardener
- DA6497** Raptor 1 litre kit - black
1 x 750ml Raptor & 1 x 250ml hardener
- DA6370** 1 x 5 litres of black Raptor
- DA6384** Raptor 4 litre kit - tintable finish
4 x 750ml Raptor & 1 x 1 litre hardener
- DA6498** Raptor 1 litre kit - tintable finish
1 x 750ml Raptor & 1 x 250ml hardener
- DA6649 NEW** Raptor 4 litre kit - white
4 x 750ml Raptor & 1 x 1 litre hardener
- DA6436** 1 x 5 litres of tintable Raptor
- DA6371** 1 x 5 litres of Raptor hardener
- Spray Guns**
- DA6386** Schutz application gun. Specially constructed for the application of Raptor. Screws directly onto plastic bottle.
- DA6447** Professional automotive gravity fed spray gun. 17 tip with excellent transfer efficiency. Vari-nozzle spray gun. Delivering a professional, consistent finish with the ability to customise your texture. Locking nozzle for consistency and repeatability.
- DA6617**

Degreaser Slow

- > Anti-static and anti-silicone panel wipe.
- > Fast evaporation ideal for localised panel repairs.
- > Aggressive degreasing action removes contaminants including silicones.
- > Carefully formulated to avoid any attack on existing paint films.

- DA6390** 1 litre tin
- DA6391** 5 litre tin
- DA6392** 500ml aerosol

ACID#8™: Acid Etch Primer

- > Promotes paint adhesion to difficult substrates such as galvanised steel & aluminium.

- DA6393** 450ml aerosol

GRIP#4™: Universal Adhesion Promoter

- > Ready for use universal adhesion promoter for paints, adhesives and sealants.
- > Ideal for difficult to reach areas such as around door handles and sills.
- > Replaces the need for abrasion and prevents lifting.

- DA6394** 450ml aerosol

Raptor Traction

- > Slip resistant additive
- > 1 sachet needed for 1 litre Raptor
- > BSI Kitemarked

- DA6484** 200g sachet

Finishing Pads

- > High performance cleaning, conditioning & finishing pad.

- DA6395** 10 x Fine pads

Panel Wipe Cloths

- > White wipe that leaves the surface clean, completely grease & fibre-free.

- DA6396** 140m roll with 350 sheets in convenient centre-feed box dispenser.

Mixing Cups

- > Clear plastic 1,300ml mixing cups

- DA6397** 25 qty

Wooden Mixing Spatulas

- DA6398** 100 qty

One half of this Discovery 1 corner bumper is a very tired looking, tatty and weather beaten bit of plastic. The other half is transformed with a coating of Raptor and it will stay like this as Raptor is UV resistant.

TOUGH & TINTABLE protective coating

Raptor is a highly durable protective coating that ensures protection against mechanical damage, fuels, hydraulic oils, rust, corrosion, salt water, damp, extreme temperatures and off-road muddy good fun.

- DA6644 NEW** 1 x 400ml aerosol
- DA6642** 6 x 400ml aerosols

Use 2K RAPTOR aerosols to touch up your Land Rover's lower panels, wheel arches, bumpers, roll bars and many other vulnerable areas.

- > Superior durability
- > UV Protection
- > Chemical and abrasion resistant
- > Water resistant finish keeps moisture out, protecting against rust and corrosion
- > Use on multiple substrates from original paint, metals, rigid plastic, fibreglass, polyester body fillers, wood and more
- > Ideal for small jobs and bed liner repairs
- > Easy no mess, no clean-up application vs traditional spray equipment
- > Easy to activate
- > Create a range of textured 'gun' finishes from one can
- > Patented delivery system

Achieve different textures with your aerosol.

- > Flat rippled
- > Coarse ripple
- > Matt rough
- > Smooth fine silky

DA6647 NEW 1 x 400ml aerosol

Raptor Anti-Corrosive Epoxy Primer is a 2K high performance primer aerosol specifically designed to be used under Raptor Protective Coating to further extend the protective and anti-corrosive properties of Raptor. The advanced resin technology in Raptor Anti-Corrosive Epoxy Primer improves adhesion to bare metal and most other prepared surfaces. It contains a blend of anti-corrosive additives to inhibit rust and corrosion.

- > Easy and convenient - activate using the valve on base
- > No need for spray equipment
- > Ideal for both consumers and professionals

Protect your Land Rover with Raptor

Surfaces*

- > Painted surfaces
- > Aluminium
- > Steel
- > Bare metal
- > GRP
- > Galvanised
- > Plastics
- > Wood
- > Polyester fillers
- > Glass
- > SMC

Usage

- > Automotive
- > Off-road
- > Marine
- > Commercial
- > Industrial
- > Agricultural

*Some substrates require additional surface preparation before applying Raptor.

Customisable

Raptor is available in black and tintable versions. The tintable version can be altered to suit the colour of your vehicle by adding a small amount of automotive solvent paint. Raptor can be applied as a smooth finish through to a very coarse finish.

Features & Benefits

- > Easy to use: simply FILL - SHAKE - SHOOT®
- > Easy to clean
- > Provides excellent UV protection
- > Waterproof - provides a water tight seal, keeping water out and protects new surfaces against rust
- > Sound deadener (reduces noise and vibrations)
- > Protects against rust, corrosion, salt, damp and extreme temperatures
- > High resistance to everyday and off-road use
- > Abrasion and stain resistant
- > Dries rapidly, is flexible
- > Provides excellent adhesion
- > No need to wax after application

Application Areas

- > Chequer plate and grills
- > Loading area
- > Underbody protection
- > Bumpers and bull bars
- > Sills, side rails and steps
- > Wheels and wheel arches
- > Part and full vehicle overspray
- > And much more...

Application Methods

- > Raptor application gun
- > Roller
- > Brush

Easy to activate using the valve on the base. No measuring required.

DA6653 NEW

Specifically designed to work with Raptor and to provide a great textured finish.
1 x tray
2 x 4" rollers

IsoPON Repair Consumables

DA6604

Body Repair Kit For Holes

This kit contains everything you need to repair and prime rust holes (up to 75mm wide) in most types of metal ready for painting.

Much more information available
www.britpart.com/isopon

DA6605

Plastic Bumper Repair Kit

This kit contains everything you need to repair and prime scratches and scuffs in most types of plastic. The pre-measured sachets make mixing simple and it can be easily sanded and shaped to the exact bumper contour. Highly flexible with excellent adhesion, the filler gives a smooth durable repair that's ready for priming and painting.

DA6609

Scratch & Stone Chip Filler

A durable easy to use filler that's been specially formulated to repair fine scratches, stone chips and other minor damage. Used straight from the tube, it dries fast and is easy to sand smooth ready to prime. Just follow the simple instructions in this guide for a quick and easy repair.

DA6608

Body Filler For Holes

Fibreglass reinforced P40 body filler for holes is the ideal choice for repairing holes up to 75mm wide in most types of metal. The pre-measured tubes make mixing easy and it can be used with the aluminium mesh to bridge larger holes.

DA6607

Plastic Bumper Filler

A flexible easy to use filler that's been specially formulated to repair scratches and scuffs in most types of plastic. The pre-measured sachets make mixing simple and it can be easily sanded and shaped to the exact bumper contour. Highly flexible with excellent adhesion, the filler gives a smooth durable repair that's ready for priming and painting.

DA6276

Metalik Paste

Long recognised as one of the only body fillers that will adhere to a Land Rover's aluminium body. A two component multi-functional smooth metallic body filler paste used for the filling of holes & imperfections in most substrates. It has been specially formulated for the professional user and combines good filling and smooth spreading properties together with ease of sanding. Metalik Paste is suitable for use on the following surfaces; bare metal, eg steel aluminium and zinc coated substrates (degrease and abrade with P80 paper), original painted surfaces (with the exception of thermoplastic acrylics - degrease and abrade with P180 paper) and GRP (degrease and abrade with P80 paper). 2K polyester body filler contains aluminium flakes and is smooth spreading with good adhesion & pinhole free. Sandable after 20 minutes (at 20C) and can be over-painted with most paint systems including 2K.

DA6606

Stone Chip Protector

Long lasting protection from stone chips and rust. Can be over-painted. Specially formulated to protect sills, side skirts and the underside of vehicles from stone chips and rust. The black, quick drying spray formula is fast, easy to use and gives long lasting protection with just two coats.

Duxback

DA1649 NEW Duxback One Car Kit

Duxback is a revolutionary glass treatment that creates a 'hydrophobic' effect on automotive glass. Originally developed for aviation and applied to Boeing cockpit glass, a Duxback treatment greatly improves safety when driving in pouring rain especially at night. When driving over 40mph, rain water will be blown straight off the glass, no need for wipers! In wintertime, ice will either not stick to the glass or will be much easier to remove. Research has shown that visibility is improved by 35% when driving in pouring rain. Furthermore a driver's ability to identify a small object when driving in foul conditions is improved by 25%. A 25% improvement in reaction time is 58 feet at 40mph. Enough to save a life! Duxback is a certified product approved by TÜV Thüringen

- > 35% Improved visibility
- > 25% Improved reaction times
- > 58ft Better reaction distance

U-Pol Tiger Seal

DA6388BLK

Black

DA6388BW

White

DA6388GG

Grey

310ml cartridge

- > Non-shrinking
- > Permanently flexible
- > Can be over-painted

A one component ready to use polyurethane sealant and adhesive that bonds to most materials including steel, aluminium and most plastics. Ideal for sealing and bonding body panels, trims and seams.

Without Duxback

Dinitrol Products

These rustproofing kits are designed for those who don't have access to a compressor or air supply.

DA1985

Rust Proofing Aerosol Kit - Large Car

7 x Dinitrol 3125 Cavity Wax - 500ml aerosol
10 x Dinitrol 4941 Black Underbody Wax - 500ml aerosol
1 x Dinitrol RC900 Rust Converter - 400ml aerosol
2 x 600mm Extended nozzle for aerosols
50 x 10mm Black tapered plastic plugs
1 x Aerosol application trigger attachment

DA1986

Rust Proofing Aerosol Kit - Land Rover

7 x Dinitrol 3125 Cavity Wax - 500ml aerosol
5 x Dinitrol 445 Black Stone Chip - 500ml aerosol
5 x Dinitrol 4941 Black Underbody Wax - 500ml aerosol
1 x Dinitrol RC900 Rust Converter - 400ml aerosol
2 x 600mm Extended nozzle for aerosols
50 x 10mm Black tapered plastic plugs
1 x Aerosol application trigger attachment

DA1989

Rust Proofing Aerosol Kit - New Vehicle

7 x Dinitrol 77B Brown Cavity Wax - 500ml aerosol
5 x Dinitrol 445 Black Stone Chip - 500ml aerosol
5 x Dinitrol 4941 Black Underbody Wax - 500ml aerosol
1 x 600mm Extended nozzle for aerosols
50 x 10mm Black tapered plastic plugs
1 x Aerosol application trigger attachment

Dinitrol 77B

DA1984 500ml aerosol

DA1982 1 litre canister

Dinitrol 77B is a corrosion preventive fluid, designed for long-term protection against corrosion and, due to its residual hard film affords some protection against mechanical wear. Dinitrol 77B contains environmentally acceptable low aromatic solvents, which once evaporated leaves a thick, brown waxy film. Dinitrol 77B is primarily designed for cavity protection but may also be used for storage, transport and underbody protection.

Dinitrol 3125 HS

DA1991 500ml aerosol

DA1997 1 litre canister

Dinitrol 3125 HS is designed for application mainly as a cavity protection and a thin underbody coating. Main objects to be treated are used vehicles with some corrosion present. For improved performance on more corroded surfaces, Dinitrol ML or Dinitrol ML HS can be used as a pre-treatment. The slightly thixotropic nature of the product ensures an evenly applied film to the required thickness and strength.

Dinitrol 3654 / ML 4

DA1992 1 litre canister

The product is designed for application in closed cavities, doors and other parts. Dinitrol 3654 is also designed for use on spare parts etc, which are to be stored for long periods.

Dinitrol 4941

DA1996 500ml aerosol

DA1995 1 litre canister

Dinitrol 4941 is a black underbody chassis coating that contains self-healing properties to recover any small damaged areas within the coating layer. Once Dinitrol 4941 is applied to the underbody chassis area it seals and protects the surface from rust-accelerating water and oxygen.

Dinitrol Dröhnex 445

DA1994 500ml aerosol

DA1993 1 litre canister

Stone chipping & corrosion protection coating Black coloured long-term protection product against corrosion and stone chipping with a synthetic resin/plastic basis.

Dinitrol 449

DA1980 1 litre canister

Vehicle bitumen based underbody and stonechip coating Dinitrol 449 is an environmentally friendly black coloured bitumen based underbody and stonechip coating with good corrosion protection and sound deadening properties. After curing Dinitrol 449 has a very durable tough and elastic film, which results in a very good stonechip resistance. The product is NOT overpaintable

Dinitrol 977

DA1981 1 litre canister

Dinitrol 977 is a semi-transparent, waterbased liquid anti corrosion coating for the protection of cavity areas where a rust preventative surface is needed. The product is water-repellent and has very good penetrating properties. After drying remains a wax coating which has a good temperature resistance up to ca.+120 deg C and is almost tack free. When dried Dinitrol 977 is heated by sun or by engine-heat, it does not have the typical smell of conventional cavity-waxes.

Dinitrol 449 and Dinitrol 977 can be used together to form a comprehensive water borne corrosion protection system application. Rather than applying both products separately, we recommend a two-layer application method with Dinitrol 977 and Dinitrol 449. This unique combination is very effective on surfaces that are already corroded.

Dinitrol Converust RC 900

DA1998 400ml aerosol

Dinitrol RC 900 actively converts rust on substrates into a stable organic iron complex. Once the product is dry, an impermeable barrier against further corrosion is formed. Dinitrol RC 900 penetrates rust 7 to 10 times deeper than standard rust converters. The product forms a strong dry adhesive film that provides a suitable base for paintwork and other corrosion protection products.

Dinitrol ML

DA1958 500ml aerosol

DA1959 1 litre canister

This oil based brown coloured product is specially designed for applying into closed cavities such as doors, frame members and exterior joints and crevices. Dinitrol ML is a penetrating cavity wax ideal for rust-proofing second-hand vehicles. Can be used as a pre-treatment for Dinitrol 3125HS on more corroded surfaces after prior application of Dinitrol RC900 Converust.

Extended Nozzle

DA1983

600mm extended nozzle for aerosols. Ideal for applying the Dinitrol products.

These rustproofing kits are designed for those who have access to a compressor or air supply and includes an undercoating gun for easy application.

DA1987

Rust Proofing Litres kit - Large Car

4 x Dinitrol 3125 Liquid Cavity Wax - 1ltr bottle
6 x Dinitrol 4941 Black Underbody Protect 1ltr bottle
1 x Dinitrol RC900 Rust Converter - 400ml aerosol
1 x Shutz Gun
50 x 10mm Black tapered plastic plugs
1 x 600mm Extended nozzle for aerosols

DA1988

Rust Proofing Litres Kit - Land Rover

4 x Dinitrol 3125 Liquid Cavity Wax - 1ltr bottle
3 x Dinitrol 445 Black Stone Chip - 1ltr bottle
3 x Dinitrol 4941 Black Underbody Protect - 1ltr bottle
1 x Dinitrol RC900 Rust Converter - 400ml aerosol
1 x Shutz Gun
50 x 10mm Black tapered plastic plugs
1 x 600mm Extended nozzle for aerosols

DA1990

Rust Proofing Litres Kit - New Vehicles

4 x Dinitrol 3654 ML4 Cavity Wax - 1ltr bottle
3 x Dinitrol 445 Black Stone Chip - 1ltr bottle
3 x Dinitrol 4941 Black Underbody Protect - 1ltr bottle
1 x Shutz Gun
50 x 10mm Black tapered plastic plugs

Lead Replacement Petrol Additives

DA6267

DA6266

DA6267 250ml bottle - treats 250 litres
Valvemaster Plus Lead Replacement & Octane Boost Petrol Additive 3 in 1 formula

Classic Valvemaster™ Plus Lead Replacement Petrol Additive Enhances Performance & Economy. Stabilises Ethanol petrol E5 & E10 **Valvemaster™ lead replacement** - The best protection after lead. Ultimate protection against valve seat recession, unique phosphorus formula.

Optimise Plus friction modifier - Enhanced performance and economy. Increase acceleration by up to 3%. Increase economy by up to 2%

Etha-Guard ethanol stabiliser - Combats harmful effects of ethanol fuel. Enables E5 & E10 use in pre-1996 vehicles.

Prevents corrosion in fuel system. Prevents acidity in ethanol fuel. Use with E5 or E10 ethanol blends. Petrol-Benzin-Essence.

DA6266 250ml bottle - treats 250 litres

Classic Valvemaster Lead Replacement Petrol Additive 2 in 1 formula

Valvemaster™ lead replacement - The best protection after lead. Ultimate protection against valve seat recession, unique phosphorus formula. Protects your engine under all conditions

Etha-Guard ethanol stabiliser - Combats harmful effects of ethanol fuel. Enables ethanol fuel in pre-1996 vehicles. Prevents corrosion in fuel system.

Prevents acidity in ethanol fuel

Use with E5 or E10 ethanol blends. Petrol-Benzin-Essence.

AdBlue

All new Euro 6 engines now have to have a diesel additive to reduce the emissions. The AdBlue liquid - called Diesel Exhaust System - does this and on new Land Rovers. They are using this more than expected, so there is a need for people to replace the fluid used. If the fluid runs out, the engine stops and won't restart without a visit to the Land Rover dealership.

AdBlue®

DA1622

10 litre drum with spout

> Conforms to ISO22241 as specified by all vehicle manufacturers. Every batch is independently tested before release.

> Suitable for diesel vehicles & machinery fitted with SCR emission removal systems. If in doubt, refer to operating manual.

> 32.5% solution of pure urea in demineralised water.

> Reduces Nitrous Oxide (NOx) emissions.

> Ready to use.

LR072258G

4 x 1.89 litre (½ gallon) bottles

Previously this has only been available through Land Rover, now Britpart have the OE supplier product in stock.

Loctite & Teroson Consumables

LOCTITE® TEROSON®

Body Repairs

DA6310 Freeze & Release

Shock freezing (-43°C) is a quick and convenient method for releasing seized and corroded parts.

400ml aerosol

DA6278 Chemical Metal

The original rock-hard multi-purpose repair paste.

180ml pack

DA6614 Leak Fix

Seals and repairs leaks in petrol tanks, radiators and sumps.

180ml pack

DA6316 Terodicht Elastic Window Sealant

310ml

cartridge Ideal for re-sealing rubber mounted windscreens.

DA6326 Zinc Spray

Sprayable anti-corrosion primer paint for vehicle body repairs.

400ml aerosol

Electrically conductive (wet and dry). Allow to cure for 8-12 hours before over painting.

DA6319 Teroson Etch Primer

Provides excellent adhesion to steel, galvanised steel and aluminium.

500ml aerosol

DA6328 Terotex Record 2000

1 litre bottle

Non-bituminous coating material for permanently flexible corrosion protection of under bodies. To complement factory-applied under body sealant coats. For coating replacement parts like bumpers or wheel arches.

The Loctite® brand, is renowned for the excellence of its adhesives and sealants. Since the original development of a unique anaerobic technology more than fifty years ago, Loctite® products have become vital components in many of the machines and products that are at the core of everyday life

DA6614

DA6300

DA6364

DA6305

DPF Cleaner

DA6859

325ml

Wynn's Diesel Particulate Filter Cleaner
Chemical treatment for diesel engines that reduces soot emissions, cleans and regenerates the particulate filter.

> Reduces soot formation during the fuel combustion cycle.

> Clears and regenerates blocked soot filters without dismantling.

> Complete burn-off of soot particles during driving.

> Avoids frequent maintenance costs related to the manual regeneration of the blocked soot filter.

> Optimizes combustion and lowers fuel consumption.

> Especially suited for city driving cycles.

> Can be used in combination with built-in regeneration systems.

> Ultra-fast result!

Glues & Adhesives

DA6300 Super Glue

High performance instant adhesive with thousands of applications.

3g tube

DA6301 Super Glue Brushable

Brushable version for extra accuracy and greater coverage.

5g bottle

DA6304 Rear View Mirror Bonder

Unique bonding system for rear view mirrors, car telephone aerials and all window mounted material.

1 shot tube

DA6306 Stud 'N Bearing Fit

Locks and seals studs into position. Seals against leaks and vibration.

24ml bottle

DA6309 Instant Adhesive 401

Surface insensitive formulation creates a permanent bond with virtually any material.

20g tube

DA6314 Super Steel Epoxy-Weld

Sets like steel. Seals, repairs, bonds, fixes and replaces.

2 x 25g tube

DA6360 Instant Adhesive 3090

Multiple-purpose 2-component, fast curing, gap filling adhesive

10g

STC50551LR Terostat 8596

Direct glazing adhesive used for windscreen replacement on vehicles where HMLC is not required. Use any type of professional dispensing tool for application.

300ml

Gasket Repairs (see website for full application details & technical specifications)

STC50550 Premium Silicone Black 5980

100ml tube

DA6636 Premium Silicone Black 5980

300ml tube

For flanges with permanent oil contact. Can be used for metal, plastic and painted parts. Low odour, non corrosive.

DA6364 Premium Silicone Grey 5660

For flanges with permanent water/glycol contact.

100ml tube

Can be used for metal, plastic and painted parts. Low odour, non corrosive.

DA6365 Premium Silicone Copper 5990

For flanges exposed to high temperatures and high performance engines. Can be used for metal, plastic and painted parts. Low odour, non corrosive.

100ml tube

DA6448 Premium Silicone Copper 5920

Low strength, silicone-based gasketing product.

80ml tube

Used on flexible flanges with machined or cast surfaces.

DA6366 Silicone Blue 5926

Multi purpose flexible silicone sealant. For flanges of any size or shape.

40ml tube

Can be used for metal, plastic and painted parts.

Thread Lockers

Lock 'N Seal 243. Replaces traditional locking methods. Prevents bolts, screws & nuts from vibrating loose.

STC50552 - 10ml bottle / **DA6305** - 24ml bottle / **DA6307** - 50ml bottle

Touch Up Paint Pens

Exclusive to Britpart in the UK.

The best you can get without repainting!

- > TUPP single stage paint pen is ergonomic, light and easy to use.
- > It allows quick, one-step repairs of small scratches and nicks that may appear on any painted surface.
- > It will meet the highest colour matching expectations.
- > The patented valve mechanism and gravity action of the paint pen will give you an even flow of all components assuring the same particularities and brightness of the original finish.
- > An edged polyester fibre tip allows accuracy and can be removed to be cleaned or replaced.
- > The paint pen has a closed opaque container preventing accidental spills, hardening of the paint and colour change due to light exposure before the application.

The Pen - Paint is held in a barrel and automatically dispensed through a fine felt tip, providing the user unparalleled control over their painting instrument.

The Paint - High quality urethane paint is used which is the same as your vehicles manufacturer. The paint provides the user with a much closer colour match than other companies which primarily use lacquer paints.

The Results - The best you can get without refinishing the damaged areas.

More details and FAQs can be found at www.britpart.com/paintpens

Range Rover Sport - 3.6 TdV8
Range Rover L322 - 3.6 TdV8
Designed to lock the camshaft and
crankshaft in their timed position when
performing engine rebuild or changing the
cam chain. Packed in a foam tray and metal
tin. Made in Sheffield.
Equivalent to
OEM 303-1236 - camshaft alignment blocks
2 x 2 + bolts
303-1243 - flywheel locking plate
303-1239 - camshaft rotating pin
303-1238 - crankshaft timing pin

Timing Kit
DA6116

Freelander 1 - TD4 - M47 - 2000 - 2006
Range Rover L322 - Td6 - 2000 - 2006
This set enables the correct timing to be
made when servicing the BMW M47 2.0 16
engines.

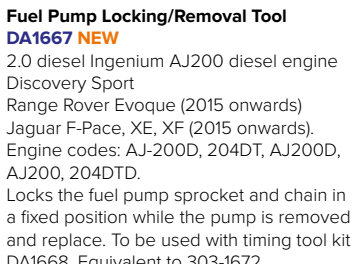

Timing Kit
DA6129

Range Rover P38 - BMW diesel
Specifically designed for the 2.5 TDS
diesel engines. This timing tool includes
crankshaft holding tool, timing chain
compressor, injection pump puller, shaft
puller, crankshaft alignment pin, camshaft
alignment tool & tensioner locking pins.

Timing Kit
DA6112

Defender - 2.4 TDCi
Timing tool kit including timing pump
removal and installation tools, camshaft/
crankshaft sprocket alignment pin, chain
tensioner, fuel pump cover removal tool
and fuel injection pump sprocket locking
tool. Supplied in metal case with foam tray.

Fuel Pump Locking/Removal Tool
DA1667 NEW

2.0 diesel Ingenium AJ200 diesel engine
Discovery Sport
Range Rover Evoque (2015 onwards)
Jaguar F-Pace, XE, XF (2015 onwards).
Engine codes: AJ-200D, 204DT, AJ200D,
AJ200, 204DTD.
Locks the fuel pump sprocket and chain in
a fixed position while the pump is removed
and replace. To be used with timing tool kit
DA1668. Equivalent to 303-1672.

Timing Kit
DA1847 NEW

Developed to allow the safe removal and
replacement of the camshaft drive chains
and check the engine timing on the Range
Rover and Range Rover Sport 4.4L diesel
engines.

- > Engine codes include: 448DT (Diesel V8 4.4L).
- > Equivalent to OEM Tools: JLR 303-1620, 303-1568, 303-1243, 303-1571.
- > Unique camshaft timing tool design - EU Registered Design.

Timing Kit

DA1662 NEW
Whitworth Combination Spanner Set
An 8 piece Whitworth combination spanner
set. Manufactured from Chrome Vanadium
with polished finish and supplied in a
handy storage wallet.
Sizes: 1/8", 3/16", 1/4", 5/16", 3/8", 7/16", 1/2",
9/16".
Old Land Rovers need constant attention
and sometimes a new set of Whitworth
Spanners are just what you need! British
Standard Whitworth threads are used
in many classic cars and employ a
different measuring system to the AF or
Metric counterparts. It is essential to use
corresponding Whitworth spanners for
Whitworth fixings and the new 8 piece.
This classic spanner set is essential for
keeping that Landy running!

Oil Filter Remover Tool
DA1189
For removing and installing oil filters on
diesel models of the Freelander 2 and
Range Rover Evoque. 27mm combination
spanner with flexi head. 400mm long.
Manufactured from Chrome Vanadium.
Fully polished with ratchet. Manufactured
to Ansi standards.

Oil Filter Remover Tool
DA1173
To remove the paper element from the
canister. Prevents damage to the filter
housing.
Discovery 3 - TdV6
Discovery 4 - TdV6
Range Rover Sport - TdV6
Land Rover tool part number - 303-1128

Oil Filter Wrench
DA6638
Cup style
65mm x 14 flutes
Suitable for AJ200 Ingenium engines

Brake Tools

Brake Caliper Rebuild Tool Kit
DA1153

Anyone who has ever tried to rebuild a set of Land-Rover brake calipers will know that the most difficult part is fitting the dust seal after the pistons have been fitted. This extremely awkward task can now be made much easier with the seal fitting tools in this kit. The kit is supplied with a tool to fit 41mm and 44mm pistons and comes complete with a heavy-duty piston spreader to allow the seals to be pushed into place evenly.

DA7460

Heavy-duty piston spreader only.

Dynamic Response Control Box
204-591-02

For use with 204-591-02. For professional use only.

facebook.com/britpart

Dynamic Response System Bleed Bottle
204-591-01

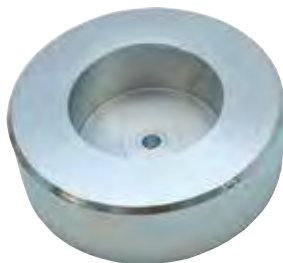

For use with 204-591-02. For professional use only.

EPB Brake Adaptor
DA6136

Adjustable 3 pin EPB brake adaptor with standard 2 pin drive which is adjustable to fit many modern vehicles. Kit also contains a pneumatic brake caliper rewind tool - 3/8" D. This tool is for left and right hand threaded pistons. Suitable for most 3/8" D wind-back adaptors and pin type adaptors. A great time saver in the workshop.

Crankshaft Tools

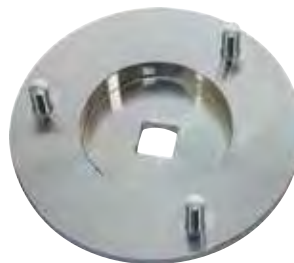

Engine Front Casing Alignment Tool
DA1160

Defender - 2007 onwards
Land Rover tool part number - 303-682

Crankshaft Front Seal Remover/Installer Tool
DA1161

Defender - 2007 onwards
Older type seals - LR029318 & LR045106
Land Rover tool part number - 303-679

Crankshaft Front Seal Remover/Installer Tool
JLR-303-1619

Defender - 2007 onwards
Newer type seals - LR077704

Crankshaft Pulley Holding Tool
DA6133

Provides the required components to hold the crankshaft vibration damper in place whilst undoing the very tight pulley mounting bolt. Equivalent to OEM 303-191, 303-192, 303-193, 303-194. Designed to be used with a 1/2" D Power Bar. For use on AJ V8 3.2, 4.0, 4.2 & 4.4 petrol engines.

Crankshaft Trigger Wheel Installer Tool
DA6550

Discovery 3
Discovery 4
Range Rover Sport - Mk1
Required to install the crankshaft position sensor ring when fitted with TdV6 engine. Specifically required to repair sensor wheel dropping off or cracking. Equivalent to OEM 303-1130
Overall dimension: 125mm

Crankshaft Rear Seal Remover/Installer Tool
DA6114

Range Rover Sport
2005 - 2009 - 4.4 & 4.2 V8 petrol
Range Rover L322
2002 - 2013 - 4.4 & 4.2 V8 petrol
Discovery 3 - 2004 - 2009 - 4.4 V8 petrol
Suitable for use on vehicles with the petrol AJV8 engine both N/A and supercharged. Comes complete with punch to assist seal removal on Freelander 2 - 2.2Td4. Equivalent to OEM 303-538.

Crankshaft Seal Installation Tool
DA1845 NEW

Freelander 2 - 2.2 diesel
Range Rover Evoque - 2.2 diesel
Jaguar XF - 2.2 diesel
Designed to allow the rear (flywheel end) crankshaft oil seal fitted to Land Rover 2.2 diesel engines to be installed without damage. The tool allows the rear oil seal to be pulled in to place in a controlled manner significantly reducing the chances of damaging the seal's sealing lip.
> Equivalent to OEM 303-1271
> Keep threaded components clean and well lubricated with clean engine oil when in use.

Other Workshop Tools

Propshaft Fastener Tools

- > Size - 9/16" 6 point (hexagon)
- > Total length - 150mm
- > Outside diameter - 20mm

Specialist socket for propshaft fasteners on most Land Rovers. The 9/16" socket end is a perfect hexagon with rounded tip profiles to ensure the whole turning power is transferred onto the flanks of the nuts instead of on the corners. The socket's slim wall construction and wine glass profile, coupled to an integral slimline extension means it fits perfectly between the UJ yokes and over the propshaft nuts without fouling. The 9/16" AF nuts are common to Series, Defenders (90 & 110 up to latest vehicles), Discovery 1, Discovery 2, Range Rover Classic and Range Rover P38.

DA1065 3/8" square drive

DA1119 1/2" square drive

Oil Pump Alignment Tool
DA6111

Defender - 2.2 TD4 diesel - 2006 - 2015
Developed to correctly align the engine oil pump in the sump after an engine rebuild as it is important that the pump be correctly and accurately aligned to ensure the oil pump sprocket is not operating with excessive side loads.

Sign up to the regular Britpart newsletter to find out about all the latest product releases.
www.britpart.com/newsletter

Other Workshop Tools - continued

Panel Popper Tool Kit DA1155

12 piece set designed to aid in the easy removal of door trim panels, trim fasteners and mouldings inside or outside the vehicle. Manufactured from a tough & durable engineering plastic to minimise panel damage. Includes an additional metal clip tool.

Locking Tool DA1235

Defender - Puma
Locking tool to restrain the fuel injector sprocket during a fuel pump removal/installation.

Gearbox/Axle Filler Pump DA7477

1 litre capacity. This handy mini pump makes all top up jobs easy. Ideal for gear boxes and differentials and is suitable for oils, automatic transmission fluids, brake fluids and general purpose cleaners.

Front Lower Ball Joint Tool DA1840 NEW

Discovery 3/Discovery 4
Range Rover Sport - 2005 to 2014
Allows the bottom ball joint to be replaced and fitted without removing the lower wishbone assembly

- > Designed for use on the vehicle saving significant time and additional parts costs
- > Equivalent to OEM 204-531
- > Always lubricate the force screw with molybdenum disulphide grease

Diesel Injector Sockets DA6126

A set of six sockets specifically designed for removing diesel injectors. Manufactured from chrome molybdenum for strength and finished in black to prevent corrosion. Contents: 21mm; Ford Duratorq 22mm x 2 lengths; 27mm; 28mm & 28mm with location collar for Defender - Puma 2.4.

Ball Joint Remover Tool Kit DA1125

Fit & remove RBG000010 to a Defender drop arm without having to remove the arm from the vehicle.

Glow Plug Compression Adaptor Kit DA1839

2.0/2.2(TD4) / TDV6 / TDV8 / 2.2 Ingenium.

A selection of diesel glow plug compression test adaptors specifically designed to allow Laser diesel compression testers (4510 & 2596) and cylinder leakage tester (5140) to be used on the current range of Jaguar & Land Rover diesel engines including the 2.2 TD4, TDV6, TDV8 and the latest Ingenium engines. The kit includes a specially designed 90 degree connector to allow access on TDV6 engines where the oil filter obstructs normal access.

- > 3 glow plug adaptors for compression and cylinder leakage testing.
- > Equivalent to OEM 60228, 60229, 60232.
- > Designed to be used with Laser Compression & Cylinder Leakage testers. Part Nos. 4510, 2596, 5140.

Diesel Fuel System Bleeder Kit DA6134

Freelander 2 - 2.2 diesel
Range Rover Evoque - 2.2 diesel
Hand pressure pump and 4 adaptors. For bleeding/priming the system after fitting new filter or other maintenance on the fuel system. Essential service tool.

GEN2 Wheel Bearing Kit DA6135

Freelander 2 - 2006 onwards
82mm / Front

This kit enables you to be able to remove and replace the bearing/flange in situ.

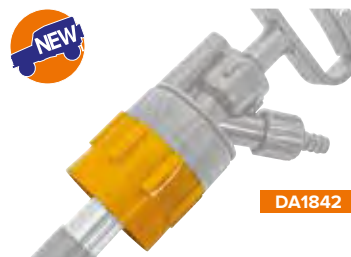

Differential Pinion Shaft Holding Tool DA1844

Freelander 2

A 2 piece kit providing the special pinion nut holding tool and splined deep socket to allow the removal and installation of the rear differential pinion shaft nut when rebuilding the rear differential in accordance with Land Rover OEM instructions.

- > A two piece kit including Bi-Hex pinion nut holding tool and splined socket.
- > Use with suitable torque wrench with a 250Nm minimum capacity (see Laser 7169).
- > Equivalent to OEM tool JLR-205-984.

Steering Drop Arm Puller DA1749 NEW

Defender - 1987 - 2006

Designed for the removal of the steering drop arm from the steering box. The Defender steering drop arm can wear because of its position low down at the front of the chassis - it's exposed to all the road spray and water that gets thrown at it. Water gets into the joint and eventually you will have to replace the drop arm and ball joint because the rust has corroded it. However splitting the steering drop arm from the steering box can be problematic because the steering drop arm and the steering box splines corrode together. This tool solves that problem. Supplied with a spare threaded bar.

Cooling System Pressure Test Kit DA6132

A comprehensive cooling system pressure testing kit for universal use. 24 pieces including 16 individually sized adaptors, pressure testing pump with gauge, 2 pressure cap test connectors for use with No 3 adaptor and handle. Checks the leakage on original radiator cap. Application list and instructions included. The pressure pump is hand operated and is fitted with an accurate and easy to read gauge marked in both psi and bar. This kit includes a thermometer to aid diagnostics and also ensure the system is cool before removing the cap. Also included in this kit is a very useful radiator pressure cap tester.

Wing Protectors DA5631

Protect your Defender's wings with a pair of these sturdy, easy to fit wing protectors.

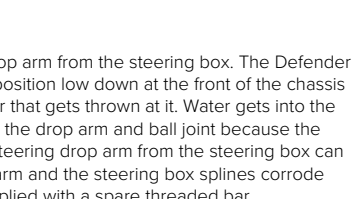

Easy Flow Pump for 20-25L Drums DA1841 NEW

Suitable for engine oil, gear oil, diesel and antifreeze.

- > Not suitable for corrosive or water based fluids.
- > Supplied with a 48" non-kink discharge hose and non-drip steel nozzle plus extending suction tube.
- > Pump head features D-handle for easy down stroke, drum refill plug (no need to remove pump to refill drum) and drain back port.
- > Delivery flow is 0.9L per 14 strokes.

Thread Adaptor for Easy Flow Pump DA1842 NEW

Two adaptors for use with DA1841 Easy Flow Pump. Suitable for use with engine oil, gear oil, diesel and anti-freeze. Specifically designed to convert the female thread (DIN 61mm) drum pump 57mm (M) + 2" BSP (M) adaptor.

DA1875 NEW

Laser Torx Fixing Extractor Set - 11 Piece

An essential workshop tool for extracting Torx fixings.

- > Manufactured from S2 silicon steel
- > 7 x Extractors with 6mm Hex drive (quick chuck)
 - Sizes - E10, E15, E20, E25, E27, E30, E40
- > 3 x Extractors with 10mm Hex drive
 - Sizes - E45, E50, E55.
- > 1/2"D x 10mm Hex adaptor
- > Storage case

More information @

www.britpart.com/DA1875

DA1698 NEW

All-In-One Stud & Hub Cleaning Tool

Stud Kleen attaches firmly to a standard impact wrench, providing the fastest and safest cleaning solution for your wheel changing process. The face of the tool moves rust and contaminants in seconds, providing a smooth clean surface for ease of assembly of all mating parts. At the same time, stainless steel tines effectively clean the threaded studs assuring easy and accurate torquing of lug nuts. The proprietary abrasive material is significantly longer lasting than any other material on the market.

Features

- > Cleans the hub and stud at the same time
- > Fits to 1/2" impact
- > Single size for all passenger cars and light trucks
- > Won't damage your wheels
- > Dense, long lasting abrasive pad
- > Hundreds of internal stainless steel tines instantly & effectively clean threaded studs
- > Stack tolerances when balancing wheels will improve and ensure proper torque tensioning during installation
- > Cleans approximately 800 wheels

*The tool
moves
rust and
contaminants
in seconds!*

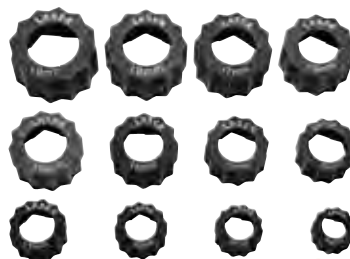

DA1876 NEW

Laser Damaged Cap Head Bolt/Screw Extractor Set - 11 Piece

For removing damaged hex bolts and screws.

- > 7 x 1/4" Hex shank
 - Sizes - 1.5mm, 2mm, 2.5mm, 3mm, 4mm, 5mm, 6mm x 50mm long.
- > 3 x 10mm Hex shank x 7mm, 8mm, 10mm x 38mm long.
- > 1/2"D x 10mm Hex adaptor
- > Storage case

DA1878 NEW

Laser Damaged Nut/Bolt Extractor Set - 12 Piece

This kit is made up of a set of cleverly designed hexagon bolt and nut extractor adaptor caps. The caps fit over the rounded off fixing and allow a standard 12 point socket or ring wrench to be used to remove the rounded off hexagon fitting.

- > Sizes: 8mm, 9mm, 10mm, 11mm, 12mm, 13mm, 14mm, 15mm, 16mm, 17mm, 18mm, 19mm.
- > Specially hardened steel components finished in black.
- > Can be used on up to 65% rounded nuts.
- > Due to material used, the tools should be considered consumable. Following the instructions for use will help significantly increase the service life of the kit.

More information @

www.britpart.com/DA1878

Clutch Tools

DA1877 NEW

Laser External Deburr/Chamfer Tool

External deburr/chamfer tool fitted with HSS blade for repairing damaged bolts.

- Effective on Stainless Steel, hardened steel, mild steel, copper, brass, wood, fibreglass, hard plastic.
 - > Size range 3 - 19mm
 - > Speed 0 - 400rpm
 - > High Speed Steel blade 1/4" shank
- In a busy workshop there are numerous instances of threads getting damaged: whacking a track rod end with a hammer; cutting a bolt or threaded rod - the threaded ends get torn and squashed. Wheel studs get damaged just by removing and refitting the wheels... Luckily there is a quick and easy solution - the external deburr & chamfer tool.

Clutch Alignment Tool

DA1147

Defender - 2007 onwards

Discovery 3 - TdV6 manual

Replace two tools for one with this cost effective clutch tool. One end is the Land Rover 308-419 clutch alignment tool which is used to align the clutch disc and pressure plate on installation. The other end of the tool is Land Rover 303-1096 aligner/installer tool which is used to align the clutch drive plate and install the spigot bearing.

Clutch Alignment Tool

DA6113

Defender - 2.4 TD4 - 2007 onwards

Specifically designed to hold the clutch centre plate centred on the flywheel while fitting the clutch cover plate. Ensures fast effective alignment of the clutch centre plate. 200mm long x 14mm dia with knurled grip. Equivalent to OEM 308-419.

Automatic Transmission Flush & Fill Machine

Need a fast, effective, efficient and easy way to change automatic transmission fluid?

DA6800

A standard automatic transmission drain and re-fill will only change about 50% of the contaminated fluid. Wynn's TranServe™ will change about 90% of the contaminated fluid in around 20 minutes. Wynn's TranServe™ is a automatic transmission flush and fill machine which flushes the oil system of automatic gearboxes and which changes the ATF in a simple and effective way.

Properties

- > Cleans the oil system of automatic gearboxes with the Wynn's Automatic Transmission Flush.
- > High exchange rate of up to 90% compared to only 50% with a classic drain and fill.
- > No mixing of old and new fluid.
- > Easy connection to the transmission or transmission oil cooler lines.
- > Operates on the vehicle's battery (12V).
- > Automatically detects the correct flow direction.
- > Different functions:
 - ATF exchange
 - ATF top up
 - ATF drain
 - Adding additive
- > Addition of the product Wynn's Automatic Transmission Treatment:
 - Provides supplementary protection of the gearbox.
 - Smooths gear changes and improves kick-down response time.
 - Extends life of the transmission fluid by preventing ageing and oxidation.
 - Stops and prevents leaks by revitalising seals and O-rings.

Applications

- > Recommended when changing ATF of automatic gearboxes or when experiencing shifting problems, fluctuating RPM or not retaining the correct gear.
- > For all types of cars with automatic transmission but not to be used on high-pressure systems of buses, trucks, etc.

Automatic Transmission Service Kits

Use the Wynn's TranServe™ in conjunction with the range of automatic service kits from Britpart. For full kit details see the relevant pages in the service kit and transmission sections in the repair and service part of the catalogue.

Technical Data

- > Power source: 12V D.C. (vehicle battery)
- > Dimensions: 650mm W x 1,130mm H x 450mm D
- > Weight: 61 kg
- > Pump:
 - Min. flow - 4.5l/min
 - Max. flow - 5.5l/min
 - Max. pressure - 9 bar
- > Automatic flow detection
- > Reservoir for additives
- > 2 filters
- > Integrated printer
- > Adapter set for all cars

Wynn's Automatic Transmission Flush

DA6801 325ml x 24 bottles

An oil soluble treatment developed to clean automatic gearboxes and restore their optimal operation.

- > Safely removes varnish deposits.
- > Prepares transmission for new fluid.
- > Cleans all internal transmission components.
- > Smooths and quietens gear changes.
- > Prolongs component life.
- > Restores optimal gear shifting.
- > Only to be used with TranServe machine.

Automatic Transmission Treatment

DA6248 325ml x 12 cans

An oil soluble supplement developed to stop and prevent leaks and ease shifting.

- > Stops and prevents leaks.
- > Rejuvenates rubber seals & O-rings.
- > Cleans and protects the system by means of detergents & dispersants.
- > Eases shifting.
- > Prevents ageing and oxidation of automatic transmission fluids.
- > Prolongs component life.
- > 1 can of 325 ml treats up to 6.5 litres automatic transmission fluid.

Heritage Grille - '2015' Edition

LR069193 NEW

Defender

The 'Heritage Edition' Land Rover Defender was one of three special edition vehicles made at the end of line production in 2015. With only 400 'Heritage Edition' models produced in the UK this grille will make your Land Rover Defender look like a 'Heritage Edition'. Manufactured from ABS plastic, like the original item, it is ready to paint to match your Land Rover's colour. This grille can be used with the standard Defender headlight surrounds - no need to change these and it replaces the aluminium front panel and grille.

Snow Cows

Manufactured from ABS plastic these cowl will help prevent snow, mud and leaves from entering the heater intake and reducing the Defender heater performance. Fitting a cowl will reduce moisture build-up in the intake system which can happen if debris collects in the one-way valve. The cowl fits over the existing grille and follows the profile of the Defender's wing.

Enhance your Defender

Red Booster Servo Clutch Kit

- DA1683 NEW** Defender - 2007 onwards Right hand drive
- DA1684 NEW** Defender - Td5 Right hand drive
- DA1685 NEW** Defender - 300Tdi Right hand drive
- DA1686 NEW** Defender - 200Tdi Right hand drive
- DA1687 NEW** Defender - 2007 onwards Left hand drive
- DA1688 NEW** Defender - Td5 Left hand drive

The Red Booster servo clutch kit makes your Defenders clutch much easier to press. This kit will make your driving a more pleasurable experience and reduce the effort you'd normally put in from driving your Defender. No more painful knees or feet when you are stuck in slow moving traffic!

Designed, engineered and manufactured to the highest standards, Red Booster is a mechanism system that makes it possible for all Defenders to have a servo assisted clutch. Working in a similar way to the braking system with a servo assisted system, it is mounted between the pedal and master cylinder and uses a vacuum from the inlet manifold to reduce the amount of pressure needed on the pedal to operate the clutch.

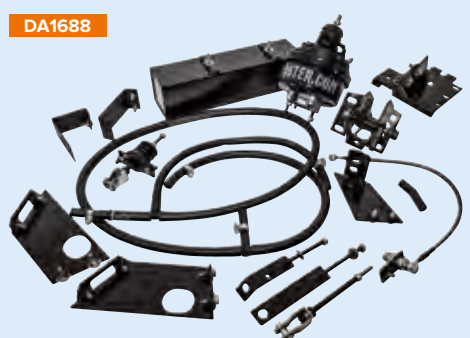

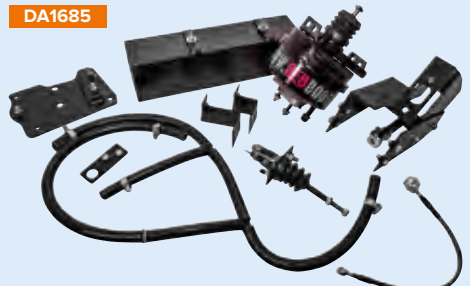

The left hand drive version - works similar to the right hand drive system. The location of the clutch pedal of a left hand drive Defender is on the far corner of the vehicle and with hardly any space the entire unit had to be redesigned to fit without cutting and drilling your vehicle.

Lightweight Front Bumper - Race

DA1369	Black
DA1370	Graphite

Both lightweight and high strength, the aluminium race bumper is handmade at Bowler. It uses the existing bumper mounting points and has raised ends to improve clearance. **Note** - Excludes spotlights shown.

Many more images available at
www.britpart.com/bowler

Made in the UK exclusively for Bowler, these lightweight, high strength wheels are TÜV tested and are used in the Defender Challenge. They have a manufacturers guarantee and are used extensively in motorsport. Maximum load rating 1,250kg. More images in the Wheels section.

18" Lightweight Wheels

They are 8" wide and will accept tyres ranging from 255 - 285 wide.

DA1346	Black
DA1347	Anthractive

Lightweight Front Bumper - Road

DA1371	Black
DA1372	Graphite

Both lightweight and high strength, the aluminium road bumper is handmade at Bowler. It uses the existing bumper mounting points and can be fitted with standard end caps if required.

Defender Rear Step Bumper

DA1377	Black	Pair
DA1378	Graphite	Pair

Designed to be practical, robust and stylish, this is the Bowler version of the popular NAS rear step bumper. The original tow bar and electrics are kept in the same place, and the step, with durable rear treads, conveniently attaches to the rear cross member.

16" Lightweight Wheels

They are 7½" wide and will accept tyres ranging from 235 - 265 wide (including standard 16" Land Rover options of Continental Cross Contacts or Goodyear MTR).

DA1350	Black
DA1349	Anthractive

- > Pre-assembled cable set with switching relay and buttons included.
- > Temperature guard to prevent overheating.
- > Heating elements are durable and extremely flexible.
- > For use on seats which have a removable cover.
- > Includes fitting materials and instructions.
- > Test mark: e-approved to 95/54/EC (EMC guidelines for vehicles)

Full details in the Seats & Trim section.

LED Interior Lamp

DA6554

Defender - 1991 onwards

Light grey

MUD has worked in conjunction with one of the UK's leading automotive lighting manufacturers to create a 100% British designed and manufactured product that uses only the highest quality components. The MUD LED Interior Lamp utilises ceramic LED technology to provide 18 x more usable light than the traditional festoon bulb design and with a rating of 228 lumens is 400% brighter than the factory fitted Land Rover interior lamp. With a colour temperature of circa 6,000K, the LED light output falls into 'daylight' classification providing better colour rendition, i.e. colours look more true to life. Another neat feature of the MUD LED Interior lamp is the switchable white to red illumination function for improved night-time vision. Plug & Play connection with fixings supplied. The MUD Interior LED Lamp will replace both front and rear interior lamps in the Land Rover Defender. Rear Station Wagon fitment requires the use of the optional MUD LED Lamp plinth - DA6555. These lamps will fit the Defender roof consoles - DA4629 & DA4629B.

12 Volt Dash Socket

DA4698

- > Features watertight cap, easy installation and twist locks securely with plug
- > Designed to withstand the rigours of damp environments and constant vibration
- > Large contact surfaces for good electrical connection
- > Twist lock system - plug locks securely into socket
- > Internal strain relief and cord seal
- > Nickel plated copper alloy used for all current carrying components
- > Front panel, rear panel or surface mount

Specifications

Maximum voltage - 12V DC

Cut-out dimensions - 1 1/8" (28.58 mm) diameter hole

Maximum socket amperage - 15A

Electrical Enhancements

Dual USB Charger

DA4679

Easy to install in existing 12V DC socket hole providing convenient access for charging mobile devices.

- > Compatible with popular mobile devices

- > Protective cap

- > Easy to use

Maximum output current - 2.1A DC (total)

Cut out dimensions - 1 1/8" (28.58 mm) diameter hole

Input voltage - 12V

Output voltage - 5V DC +/- 5%

Parasitic current draw - 15mA

USB - 2.0

Plug & Play Cruise Control System

DA7480

Defender - 2007 onwards

Stalk fits to the right hand side of the steering column.

LED Interior Lamp Plinth

DA6555

Defender - 1991 onwards

Light grey

The MUD LED interior lamp plinth allows you to fit the popular MUD LED lamp to the rear of a Defender Station Wagon. The plinth gives enough room to allow the lamp to fit to the existing wiring. Please note the plinth is not required when fitting to the front of the vehicle.

DA6554 / DA6555

Heated Mirror Kit

DA4598

MUD-UK Defender heated mirror elements are unlike any other heated mirror element. They use the same carbon impregnated glasscloth technology found in underfloor heating and high-end bathroom mirror applications.

Unlike traditional printed circuit heated mirror elements the current flow in flexible glasscloth is across the whole surface area of the element. This results in a larger 'heated' surface area and avoids the "striping" effect of traditional elements. The mirror elements have no fine circuits which can damage easily and offer improved durability and performance over traditional printed circuit elements. The heated mirror elements are supplied with self-adhesive backing. Peel off the backing and stick the element to the back of the Defender mirror glass. Also supplied with a fitting kit that consists of 4m of twin core wire, assorted terminals and a relay. A switch is not supplied which allows the installer to match up any existing switches already installed. The wiring can be concealed within the arm of the wing mirror, to create a neat and tidy finish. Elements measure 115mm x 167mm.

X-Trouser

DA6493

Lost a pair of trousers getting in and out of your Defender? Here is the simple solution. Not only does it protect your trousers, in many cases it makes the door close more reliably and helps (though it does not entirely stop) the seat belt getting caught in the latch. If the seat belt does become caught as you close the door, it suffers less damage due to the smooth profile of the X-Trouser. The X-Trouser has a smooth profile, if your belt loop or pocket runs over it, it will slide off freely. Made from high quality 304 grade stainless steel. The X-Trouser catch is reversible so it will fit both the driver and passenger doors, left & right hand drive. It will also fit the rear side doors of 110 Station Wagons. Pair.

SVX Style Cargo Tie Down Point

DA1170

Smart and easy to fit. Single.

DA2603

Glove Box Kit

Neat storage solution for the new Defender which utilises the available dashboard space. Ideal for storing all the usual small items you carry with you. Robust construction and easy to fit with all the necessary parts supplied. Suitable for right and left hand drive models.

DA2603

Defender - 2007 onwards

DA2603CF

Defender - 2007 onwards

Carbon fibre effect finish fascia plate

Demister Kit

DA1205

Defender - up to 2007

Fitting this Defender demister kit will help demist your windscreen better than the standard fitted demister and has the added bonus that it will also demist your side windows too. With full fitting instructions.

Clutch Pedal Assist Kit

DA1266

Replace the old clutch pedal spring kit to assist the pressing of the clutch pedal on Defender models. This is a factory fit on later models but can be retro fitted to all 90/110 models. Consists of spring, spring retainer & spring bushes.

DA2603CF

Heater Deflector

DA4599

Defender - 2007 onwards

The MUD Heater Deflector solves the problem of that crude and annoying blast of hot air to your lower legs in all Puma engine Defenders. The Heater Deflector redirects the flow of air from the lower heater outlets forwards into the footwell, rather than directly at your legs to create a more comfortable driving environment. The Heater Deflector moulding fixes easily in place using the supplied push-fit fasteners and can be fitted in 5-minutes. All you need is a 4.5mm drill. Position the Heater Deflector, drill the fixing holes in the lower dash section and fix the Heater Deflector in place using the push-fit fasteners.

Blanking Plug

DA8958

Replace your old or lost 12V cigar lighter blanking plug with this smart chrome topped one.

Seat Box Protector

DA1435

The edge of the Defender seat box is prone to damage, protect that edge and smarten up your interior with these protectors. Made from 3mm black plastic and CNC cut for accuracy. Less than 5 minutes to fit and all you need is a drill for the fixings. Kit includes a pair of corner protectors and 14 no. 8 x 19mm flanged steel self drill black fixings. These will also fit a Series 2 & 3 but will require matching drilling to accommodate seat rail fixing.

Defender

Interior Enhancements - continued

Single DIN Dashboard Mount
DA4691

Defender - 2007 onwards
The MUD dashboard mount creates a quick and easy method of mounting a single DIN accessory into the Puma dashboard. You will however have to route any wiring through the back of the dashboard. Ideal for mounting any DIN sized CB/HAM radio unit into your Defender. Mic extension leads are an inexpensive accessory and commonly available so that mic can reach the driver. The single DIN mount also comes with a handy 'coin tray' which sits behind the grab handle. The dashboard mount is also suitable as a digital tachograph mount. EU customers should be aware that mounting a tachograph on the passenger side of the dashboard does now meet EEC legislation. Supplied with all fixings required to provide a quick and easy installation. Fits both right-hand drive and left-hand drive vehicles.

Switch Mounting Panel
MTC2640A

Defender - up to 1A999999
Black aluminium switch mounting panel. Excludes switches.

Double DIN Fascia Plate

Defender - 2007 onwards
This fascia kit allows the installation of a double DIN head unit into a non-double DIN size aperture. High quality finish designed to match the vehicle dashboard. Complete fascia kit, supplied with brackets to mount the aftermarket double DIN head unit.

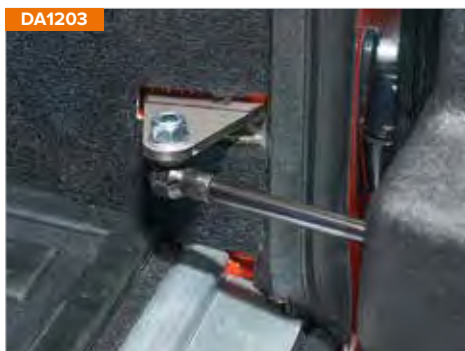

DA2608 Piano black
DA2609 Matte black

Rear Door Stays

Does your Defender's rear door sometimes close on you unexpectedly? This neat and easily installed gas strut kit will solve that problem and replaces the original door stopper. The gas strut will hold the door in place when open - even with a spare wheel in place - and will assist in the opening of the rear door too with a smoother and more controlled movement. Complete with fittings and instructions.

Stainless Steel Door Threshers
Defender - from 1983 onwards & Series 2 & 3
These stainless steel door threshers will freshen up the inside of your Land Rover as this is an area which can get very scruffy. All of the existing holes on the sills line up with these doors threshers so they are a quick, easy bolt on project. The door threshers are made from stainless steel 304 grade bright annealed 1.5mm thick and are laser cut and CNC pressed. Stainless steel fixings are supplied. **Note** - If your door seal is fitted to your sill rail, you may need to modify the sill rail.

Defender

Interior Enhancements - continued

DA4629

Roof Consoles

DA4629	Grey
DA4629B	Black

This roof console fits all Defenders except sunroof equipped models. Supplied with interior lamp extension loom and DIN blanking panel. Fitting kit and instructions are also supplied.

The console offers a unique storage solution for the Defender in providing additional overhead roof storage as well as a single DIN provision in one unit. The two side sections are designed to hold anything from maps to sunglasses, documents to magazines.

DA4629B

The console is supplied in three separate pieces. The product has been designed with CAD software and the moulding finished off using CNC machinery to ensure an OE level fit and finish to the product.

It is supplied with a DIN blanking panel but the central binnacle will fit any DIN sized accessory such as a stereo, CB/HAM radio or even a digital tachograph. The single DIN aperture will also accept a bank of seven Carling Technologies switches by using the Carling interlocking switch mounts.

Will the Defender roof console fit my vehicle?

The console has been designed to fit all post 1983 Defender models without a sunroof and with a factory headlining. The fixing method does not require removal or cutting of the headlining or sun visors. (Some later models will require trimming of the central area of the headlining when fitting a DIN unit). If you have a non-factory headlining it is unlikely it will fit without modification of the headlining. If you have a Series vehicle, again it is unlikely it will fit without modification.

Gear Lever Set

DA1472

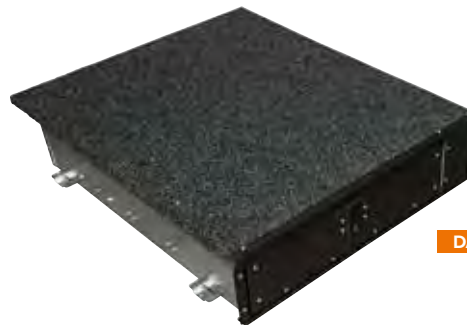

Defender - 2007 onwards
Enhance your vehicle's interior with a set of these leather cover gear levers. Easy to fit.

Utility Wagon Trim Panels

DA4692

Protect the interior of your 110 Utility Wagon and improve upon the crude 'unfinished' factory look of the Land Rover 'window' trims with our MUD designed 110 Utility Wagon Trim Panels. The MUD 110 Utility Wagon Trim Panel fits behind the existing 'window' trim panel to create a smart factory look finish. The MUD 110 Utility Wagon Trim Panels are supplied in pairs with cargo nets that create useful extra storage within the cabin walls. Ideal for coats, shopping bags and pet paraphernalia! Each net features elasticised netting and is supplied with black headed flush fit fasteners for a professional appearance. With a typically MUD level of attention to detail, they've had the plastic of the MUD 110 Utility Wagon Trim Panel specially blended to match the correct 'Dark Granite' shade of the original trim panels to provide an OE appearance to the installation. Each MUD 110 Utility Wagon Trim Panel is supplied with four foam insulation panel that sit behind the trim panels to isolate vibrations and provides an additional layer of insulation.

Defender 90
Drawer size - 950mm x 700mm x 170mm

DA1471

Defender 110
1010mm x 700mm x 170mm

These Defender drawer systems are ideal for storing items that you keep in your vehicle that you would want to be hidden away from view and can be locked for extra security. The heavy-duty drawers with smooth roller action, fit between the wheel arches and create very useful extra storage space. Drawers extend almost full length for ease of access with a maximum load of 80kg. Hard wearing textured black finish complements the heavy-duty carpeted top.

Optimill Steering Wheel Bosses

DA8880	Slimline boss	48 splines
DA8881	Slimline boss	36 splines

Optimill slimline boss, measuring only 32mm in depth. Manufactured from a single anodized billet aluminium. Momo horn button will no longer fit due to this being so slim therefore an Optimill cap is supplied. Boss is supplied with screws and pins to cancel the indicators.

DA8883	Slimline boss with quick release	48 splines
DA8882	Slimline boss with quick release	36 spline

Optimill slimline boss fits directly to your steering column, without the need for multiple bosses to be used. Manufactured to the highest standard, hard anodized to prevent wear and designed to give an extra level of security to your vehicle. The slimline boss is just 42mm in depth, meaning it is only 10mm thicker than our original slimline boss. The boss is designed to fit Momo steering wheels or wheels with 6 holes on a 70mm PCD. Momo horn button will no longer be able to be used as the boss is so slim, therefore an Optimal cap is supplied along with screws and pins for installation. Note: This boss has 2 locking pins which are used to separate the boss. These must NEVER be pulled open whilst driving. This is designed as a removable product and it is the drivers responsibility to ensure it is fitted correctly and in full working order before attempting to drive the vehicle.

Optimill Quick Release Security Lock

DA8884

Produced as a swivel locking cover to fit over an Optimill Quick Release Boss (36 or 48 spline). Manufactured from billet aluminium. Outer body runs on a bearing to prevent the steering being turned. Anodized in bright orange for visibility. Supplied complete with lock & 2 keys.

The highest efficiency sound deadening material available.

Dynamat Xtreme Sound Deadening

Dynamat Xtreme is the highest efficiency sound deadening material available and the most effective product for stopping noise and vibration. Xtreme can be used on any and all interior sheet metal and fibreglass body panels. The aluminium constraining layer is very moldable and conforms easily to all interior surfaces. The patented extra sticky butyl layer is formulated with VECTOR chemistry for the most amazing energy conversion capabilities ever. Use it on your doors, floor, roof, bonnet and loadspace for a quiet, cool and incredibly solid ride.

- > Create a solid, luxury car feel with a reduction in road noise.
- > Stop resonance & vibrations, reduces buzzes & rattles.
- > Improved sound. Get more bass. Hear more of your music.
- > For use throughout your vehicle interior, the first step to a great car.

Dynamat Heavy-duty Roller Tool

DA8098

To ensure proper adhesion with the strongest bond possible and with professional looking results.

- > Thick, plated steel frame
- > Water and rust resistant
- > 2" solid rubber roller
- > Comfort grip handle
- > Soft rubber will not scratch surface

Upated Engine Breather Oil Catch Tank

DA4748

200Tdi & 300Tdi engines

Allisport high performance aluminium engine breather oil catch tank separator. Manufactured using mounting flange machined from billet aluminium. All engines need to breathe crankcase pressure to atmosphere and most are designed to re-enter the air intake system after the air cleaner. Standard breather pots use a gauze and mesh design which over time becomes blocked with oil deposits, reducing the capacity to release crankcase pressure and also allowing more oil vapour to enter the intake system. This high performance replacement is designed to effectively reduce crankcase pressure build up on Tdi engines by using an internal baffle rather than the standard gauze and mesh design. Designed to have a practical purpose offering an improvement over the original black plastic units, but will also look great in the engine bay. Will fit all Tdi engines including 2.8 TGV. Tank has new integral O ring-seal design - **No More Leaks!!** Manufactured by hand, fully TIG welded.

Tailgate Conversion Trim Kit
DA6290
Range Rover Sport - 2005 - 2011
The rear tailgate on the Range Rover Sport changed in 2012 from a two piece tailgate (with opening top window section) to a one piece tailgate and above the registration plate a new silver strip was added that went the width of the tailgate. If you have a 2005 - 2011 model and want to make it look like the 2012 model from the rear you can fit this clever conversion kit. The kit consists of 3 panels - 1. Underside base - section made from ABS plastic in grey primer finish - you will need to paint this part black. 2. Top section - supplied in primed ABS plastic ready for painting body colour 3. Strip section - chrome plated plastic. This is a bolt on replacement kit that replaces the existing panels on the upper tailgate. Easy to fit. More details online.

Fuel Burning Heater

DA1390

Discovery 3 - 2.7

Discovery 4 - 3.0 - when timed climate is activated

Fuel burning heater is ideal for warming your engine on cold winter mornings while sat in the comfort of your house, no need to go outside and start your engine to defrost the car. The heater is triggered using one of two main options. The first is your Land Rover original blip using its 3rd button, secondly by sending an SMS. As well as a FBH this controller can do a host of other functions including - clear faults, fuel pump prime, diagnostic and statuses on SMS, various run modes, SMS controlled GPS tracking and so much more.

Ride On Suitcases

STOP PRESS...

DA1835 NEW	White
DA1836 NEW	Red
DA1837 NEW	Blue

Make travelling with kids fun with the Range Rover Sport SVR convertible kid's ride on and suitcase! This beautifully crafted officially licensed scale model of a real Range Rover can be used as a pull along suitcase but the really clever bit is that it also converts quickly and easily into a fun kids' ride on toy. Ideal for parents travelling with kids as it is will keep kids amused while travelling – perfect for planes, trains or cars and for playing on when you get to your destination too. It is a must have accessory for all little Range Rover fans! It is big enough to hold everything you need for your holidays including toys, clothes and games but also not too bulky to be pulled along using the pull-out handle. It is quick and easy to convert it into a kids' ride on car toy with the clever fold up handle – kids can push themselves around plus it makes a great seat for kids to sit on while in queues for check in too! Suitable for age 2+ years. Max recommended user weight: 23kg. Product size: 548 (L) x 296 (W) x 223mm (D).

Converts quickly and easily into a fun kids' ride

Landy Books

These charming hardback books, which are beautifully written and illustrated by Veronica Lamond, are an excellent gift idea for any Land Rover fan - whatever their age!

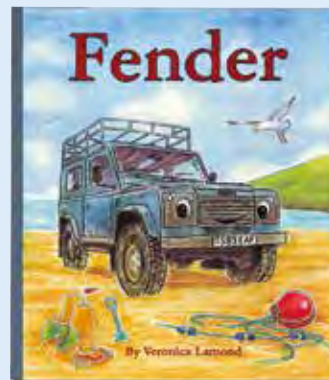

LANDY

"Landy has been left abandoned for many years until, one day, Jack finds him..."

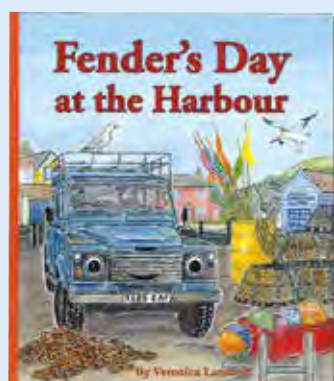

LANDY NEW HOME

"Jack and Landy are busy setting up their small holding but Landy feels left out. When Fender arrives, Landy realises he hasn't been forgotten after all..."

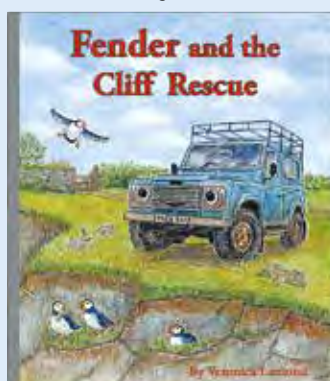

FENDER

"Scamp races Fender down the track - they have lots of things to do and lots of friends to meet..."

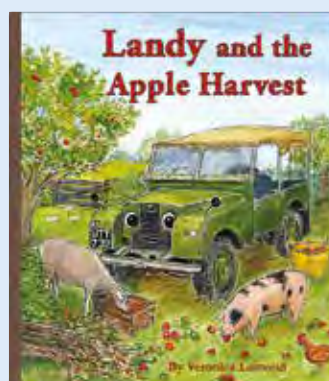

FENDER HARBOUR

"Fender watched the fishermen fixing their boats and the swing shovel at work. Meanwhile, Dan and Jack weren't having much luck..."

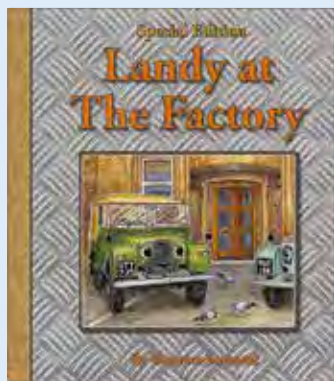

FENDER RESCUE

"Dan and Fender spend a day working up on the cliff top. Then Jack calls for help and they drive off to the rescue..."

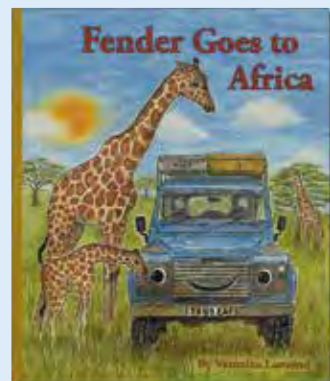

LANDY HARVEST

"After a very windy night, Jack decides it's time to gather up all the fallen apples. Landy helps him bring the harvest home..."

LANDY FACTORY

"Inside the envelope, he found a letter from the Land Rover factory. 'How exciting, Landy,' said Jack. 'We've been invited to visit the factory to celebrate your 60th birthday!'"

FENDER AFRICA

"Fender and Dan are on their long trip through Africa, from Cairo to Cape Town. Come and join them on their exciting adventure..."

Join me and my friends on our adventures!

The World's Most Versatile 4X4
DA2988

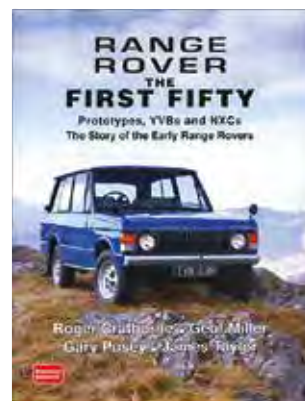

From the publishers of Land Rover Monthly a 220 page celebration of the Discovery. Buying, restoring, modifying, driving - the ultimate Land Rover Discovery guide.

Range Rover - The First Fifty

Range Rover - The First Fifty Prototypes
DA3202

YVBs and NXCs - the story of the early Range Rovers. Today, the Range Rover is a legend. The original design lasted in production for more than a quarter of a century. It is those very first Range Rovers which are the subject of this book. Its aim is to record the story of the earliest vehicles before it becomes lost in the mists of legend and distorted by commercial misrepresentation. It looks at three distinct groups of vehicles. These are the Engineering Prototypes (of which there were seven), the Pre-Production Vehicles (of which there were 28, most registered in the YVB-H series), and the Press Launch Vehicles (of which there were 20, all registered in the NXC-H series). The total comes to slightly more than 50 vehicles. With 160 illustrations and 160 pages.

Land Rover Original Technical Publications

The days of hunting around auto-jumbles for grubby and damaged workshop manuals, parts lists and owner manuals are over! At least they are if you own one of the many classic Land Rover and Range Rover models covered in the range of Original Technical Publications compilations. Carefully reproduced from the extensive historical archives in England and in the USA, we are pleased to give you access to the original Land Rover publications needed to run and maintain your classic Land Rover, including parts catalogues (most models), service manuals and owner's literature. Original parts books, workshop manuals and handbooks for Land Rovers and Range Rovers have always been greatly sought after, and rightly so: nothing compares to a Land Rover workshop manual compiled by the car's manufacturer. Now owners and enthusiasts have the opportunity to effortlessly collect all the original publications for their favourite Land Rover or Range Rover, on one handy and cost-effective title. These publications are the original publications used by the Land Rover parts department, service garages and sales departments when these cars were still in production and being serviced. Each section provides detailed information on major systems, diagnostics, troubleshooting, overhaul, as well as the removal and installation of major components. Compiled in an easy to understand format, these publications contain step by step processes designed for the mechanic and the enthusiast. In addition most manuals are filled with detailed illustrations and sometimes photographs and diagrams to help with identification of components and proper assembly. What's more, you can find information and links to Land Rover Cars, Land Rover Heritage, Land Rover Clubs and Original Technical Publications. Check out the latest picture galleries, video and media archives - even download classic Land Rover and Range Rover wallpaper to personalize your computer, tablet or phone.

USB Online eBook*

In addition to the USB, each OTP USB eBook Product now includes an 'online access' card inside the packaging. The card includes some additional text and instructions as well as the URL or web address required to access the interface and content from a personal computer (Mac OSX or Windows) as well as tablets or handheld devices (Mac iOS, Windows or Android). Each OTP USB eBook Product continues to provide each registered customer with a single license for one device. In other words if a customer registers their personal computer they would be able to access BOTH the USB as well as access the information online on that device. If a customer registers their handheld device (iPad, tablet or hybrid) they would ONLY have access on that device once the viewer is installed and the license is authenticated.

***Note:** The 'online access' option does not apply to the Portable USBs.

Product Features

- > Printable (Windows only) - print only the pages you need
- > Viewable & zoomable
- > Searchable - search the entire section in seconds
- > Bookmarked - manuals are bookmarked to quickly locate sections

System Requirements

- > User must have administration rights to allow installation.
- > PC Windows 2000 or later USB port, Safeguard Windows PDC viewer
- > Mac OS X 10.7 or above USB port, Safeguard OS X PDC viewer*
- > iOS 5.01 and above Safeguard Mac iOS viewer
- > Android 4.0 and above Safeguard Android viewer

USB/Online eBook option for Apple OSX not suitable for retina displays, for retina displays use online feature.
Printing not available for Apple OSX or iOS applications unless running a Windows emulation software.

LTP3015USB	Range Rover Sport - 2005 - 2009

Which OTP Product is best for me?

The Original Technical Publications are now available in two formats – Portable USB or USB/Online eBook.

Windows PC

User has 2 choices - Portable USB or USB/Online eBook with online access via the online access. **Note** - Portable USB recommended as it can be easily moved from computer to computer - internet not required.

Apple OSX

USB eBook online access via the online access URL - internet required. **Note** - USB eBook option for OSX not suitable for retina displays, for retina displays use Online feature via the online access URL.

Apple iOS

USB eBook via the online access URL. **Note** - USB eBook is recommended as it is everything you need when using from your iPad - works best with internet

Android

USB via the online access via the online access URL - works best with internet.

Notes - Printing not available for Apple OSX or iOS applications unless running a Windows emulation software. The Portable USB option is for use on Windows PCs only. (This option is considered to be multi-license because it can be moved between Windows PCs simply by installing the PDC viewer). The USB/Online eBook is for use on all Operating Systems except Linux. (This option is supplied with a single license for one device.)

*Both products are
Handy & Easy to use!*

LTP3010

OTP Land Rover Master Collection (LTP3010)

The ultimate Land Rover Technical Publication Collection covering models from 1948 to 2012.

A must for any Land Rover specialist, garage, restoration facility or aficionado.

Models Covered

Series - 1948 to 1985 / Land Rover 90, 110, 127 & Defender 90, 110 & 130 - 1983 to 2011 / Discovery 1 - 1989 to 1999 / Discovery 2 - 1999 to 2004 / Discovery 3 - 2005 to 2009 / Discovery 4 - 2009 to 2012 / Freelander 1 - 1998 to 2011 / Range Rover Classic - 1970 to 1995 / Range Rover P38 - 1994 to 2001 / Range Rover L322 - 2002 to 2010 / Range Rover Sport - 2005 to 2010

A must for any Land Rover aficionado!

Contents

Parts Publications - Parts catalogues, parts index (where available, approximately 1948 to 2004).

Service Publications - Service manuals, service procedures, system description and operation, circuit diagrams, electrical libraries.

Technical Information & Tools - Special service tools, testbook user manual, T4 diagnostic system user manual.

PDI and Maintenance - Workshop manual - pre-delivery inspection, pre-delivery inspection sheet, oil service, annual inspection.

Owners Literature - Owners handbook, additional handbooks:- In-car entertainment / audio / TV and navigation system / audio and navigation system / in-car telephone.

Supplementary Information - Sales brochures, accessory fitting instructions, photo gallery, downloads and various links.

Security Equipment

Skytag

DA9012

How It Works

- > Pinpoint GPS tracking
- > Worldwide coverage
- > 24/7 service
- > Tamper alerts
- > Intelligent movement alerts
- > Direct police access and liaison
- > Simple to install and transferable
- > Internal backup battery
- > 5 year warranty

About Skytag

Skytag are now largest independent stolen vehicle recovery company in the UK, providing state of the art location equipment to recover your property quickly and efficiently. With an outstanding recovery record and an 11 minute fastest record, they are proud to offer a service second to none. With unique features like monthly operation checks and direct police access to live location information.

The Skytag device is a very small covert unit designed to be hidden in a vehicle, self installation enhances the covert nature of the product as everyone will put it somewhere different, making it virtually impossible to find, this also reduces costs and makes the unit easily transferable from vehicle to vehicle with no charges.

The device is smaller than a computer mouse and contains a GPS chip that can pin-point its location on the planet to within 5 metres. The device also contains a module that communicates this position to us via the GPRS data network. So we know exactly where your vehicle is in the event of a theft.

Our unit comes with the peace of mind of full worldwide cover and is IP65 waterproof. The device has an inbuilt backup battery that lasts 3 days should the vehicle battery be disconnected. It also alerts us when the battery has been disconnected; we can even tell when the vehicle battery is running low, ensuring continuous operation.

Skytag Packages

Standard Tracking

£6.99/month - payments to Skytag
Initial 3 months service included. Standard service includes battery disconnect alerts, tracker battery low power alert. Monthly health check and email notification. Worldwide coverage. 24 hour crime line with police liaison to recover your vehicle.

Active Monitoring

£10.99/month - payments to Skytag
Initial 3 months service included. Standard Tracking service plus active movement alerts.
'LeisureSafe' is designed for leisure vehicles which are used 2-3 times a week, 'LeisureSafe' is fully automatic with no requirement to remember to turn on or off. A bespoke zone is created where the vehicle is normally stored. If the vehicle moves out of this zone during the protected hours, alerts are sent direct to your mobile phone, your landline, text and email.
'NightSafe' is designed for everyday use vehicles where you need protection during the vulnerable night hours. Using a zone similar to 'LeisureSafe' the system alerts leaving the 'Safe Zone' during the armed period.

Live Tracking

£12.99/month - payments to Skytag
Live Tracking has all the features of the active monitoring service with the addition of user designed zones, speed alerts and the ability to log in from any internet enabled device and see the vehicle updated every 5 minutes with the ignition wired installation, or every 20 mins with standard fitting. 'Liveview' service includes unlimited email alerts and 10 direct telephone alerts per week.

X-Column

DA9013

One thing that is common to virtually all stolen Land Rovers is that the column steering lock has been broken. It is normally broken by removing the lock barrel as this is surprisingly quick - the vehicle can then often be started with a screwdriver. This neat solution is a sleeve for the lock barrel assembly machined out of steel. It is strong enough to prevent the barrel being removed or the end broken off.

Nothing to lock or unlock

The best thing about this solution is it's completely passive - i.e. nothing to lock or unlock. It stays permanently fitted to the vehicle providing 24 hour protection and deterrent value. The column lock will fit all Defenders LHD or RHD - up to 2014, including Puma/Tdci. One exception is that some ex-military vehicles do not have a steering lock. While the column lock will fit - it serves no purpose as there is nothing for it to protect.

Tamper Proof Nuts & Bolts

DA7333

Ensure your precious accessories remain firmly on your Land Rover by using a set of these tamper proof nuts and bolts. Ideal for securing your winch and front bumper. Each set contains either 4 nuts or bolts and 1 key.

- DA7330 M6 nut set & key
- DA7331 M8 nut set & key
- DA7332 M10 nut set & key

DA7332

- DA7333 M10 x 110 bolt set & key
- DA7334 M10 x 35 bolt set & key

Locking Fuel Cap

DA1227

Discovery 2
Locking fuel cap
Supplied with 2 keys.

Add some extra protection to your fuel.

Security Marking Kit

DA8533

The International Security Register (ISR) system has proved successful in deterring and detecting theft and fraud for over 30 years. It works on the principle that if a vehicle's windows and parts are marked using robust techniques and details are recorded on a secure database - supported by a 24/7 verification service - criminals stealing the vehicle will run a real risk of being caught and prosecuted. Each mark applied to a vehicle will contain a unique 8-digit code, the ISR logo and www.isrcodecheck.com

Pack Components

- > Full instructions on marking and registering a Land Rover are in the security marking kit.
- > 8 vinyl stencils, fluid and brush for marking windows.
- > 2 warning decals.
- > 2 sets of 6 UV self-etch labels for application to painted metal body panels.
- > 2 sets of 7 ultra-destruct labels with UV fluid and applicator for identifying plastic parts.
- > A set of three Britpart branded security tags for increasing the chance of items that are so often mislaid, being returned to the owner.
- > A Britpart branded ISR customer contact card.

Registration of Vehicle and Owner Data on the ISR

The vehicle owner - or the dealer - would complete the registration process online via the Britpart registration page at www.TheISR.org then select "All Vehicles" then "Vehicles" followed by "Britpart Registration Form" entering the unique code together with the vehicle make, model, colour, VIN and VRM together with the owners name and contact details. If an email address is supplied, an automated acknowledgement of registration would be sent. The code for the security tags would be automatically recorded.

Reducing the risk of your Land Rover being stolen or cloned.

More details of the kit can be found at www.britpart.com/security

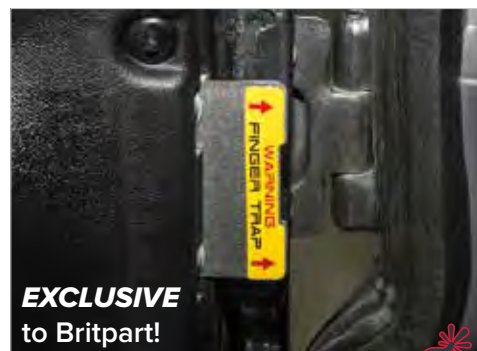

X-Defend Pedal Lock

DA6601 Right hand drive
DA6602 Left hand drive
Defender - up to Td5 without air-con

The X-Defend Pedal Lock prevents the clutch, brake and throttle pedal from being operated, making a vehicle almost impossible to drive! Unlike other pedal locks, this remains bolted to the floor of the vehicle. When not in use, it folds flat on the floor and seat box, forming the floor of the cab. In this position it can be covered with your usual floor mat. This means you don't have to store a 20kg lump of metal which could be lethal if it hit you in the event of an accident or while off-roading. It also means that locking is incredibly quick. Just release the catch which holds it against the seat box and lock into position. A 10mm thick steel claw grabs the brake pedal shaft and ratchets in tight against it. It can be locked in a couple of seconds! To unlock turn the key which releases the pedal and fold flat on the floor. The Pedal Lock is supplied in tough, corrosion proof 304 stainless steel and uses formed hinges with a 6mm stainless pin. It is supplied with an anti-drill, British made Lowe & Fletcher RPT Lock. **Notes** - This does NOT fit Series/Defender - 2007 onwards. As not all Defenders are the same and build tolerances are at best acceptable it may be necessary to either relocate the bonnet pull bracket (you can drill out the spot welds and re-attach with pop rivets) or better still replace with the later Td5 type bonnet pull (FSC000050PMA). We have discovered that because Land Rover had no set place to fit the early type bracket it sometimes fouls the pedal lock.

Door Hinge Guards

EXCLUSIVE
to Britpart!

BOMBPROOF
ULTIMATE PROTECTION

See them in action at
www.britpart.com/bombproof

DA1399 4-door kit
The Bombproof Hinge Guard is built to exact specification and was developed to fit all Defender models and years. It has been engineered for maximum protection and ease of fitment. Each Hinge Guard kit consists of two CAD engineered stainless steel plates which fit inside of each hinge point, restricting outward movement of the door with the bulkhead bolts removed. Fitting the Hinge Guards is incredibly easy with comprehensive fitting instructions supplied. Each door kit can be easily fitted in 20-30 minutes. After installation, only the top of each plate can be seen, providing an unobtrusive modification and deterrent to would-be thieves.

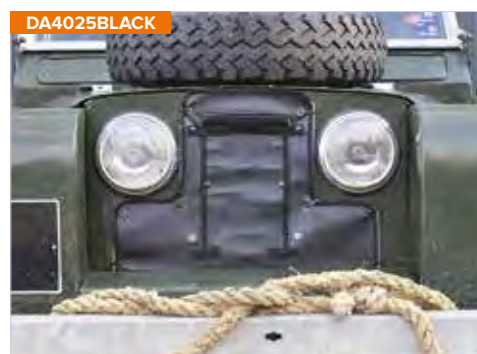

Features

- > Notched upper guard - fits neatly around the dash padding without compromising security.
- > Custom folds - each plate has a carefully measured, very small offset to allow it to close around the door frame without tearing the door seal.
- > High-Grade 304 Stainless Steel - 2mm thick: thin enough to fit unobtrusively, more than thick enough to protect your hinges.
- > Individually profiled - lower and rear hinges profiled for a perfect fit across all variants.

DA1412 Defender door fitting kit. Ideal to keep handy if removing the door cards at any time. Front or rear single door.
2 x Lokut-nut
12 x Fasteners

Camping Equipment

Awnings

DA6826	2,500 x 2,500mm
DA6828	1,250 x 2,100mm

Easy to mount and operate, these self standing, retractable awnings fit onto the side of a roof rack and are conveniently stored for immediate use on arrival. Specifically designed for harsh outback conditions, the awnings feature height adjustable, telescopic legs and provide fast and convenient protection from the elements. Easily mounting to the side of most roof racks or roof bars, the awning is secured in a heavy duty nylon reinforced PVC bag. Constructed from tough PU coated 300gsm poly/cotton rip stop canvas, the awnings are fully waterproof and offer a UVP 50+ rating.

Awning Bracket 813402

Designed with welded gussets to provide additional strength when awnings are mounted to roof bars on vehicles used off-road or under extreme conditions.

Three Wall Set

DA6834	2,500 x 2,100mm
---------------	-----------------

Comprised of three individual walls that wrap around the outside of ARB awning legs, the three wall set is both waterproof and UV protected. Manufactured from lightweight PU coated 300D Oxford polyester, two walls feature windows made from half mesh and half clear PVC, while the right hand wall includes a zippered door that can be rolled up out of the way. Connected via a zip, each wall can be used individually, as a pair or set. Available to suit ARB awnings. Supplied with hardened steel pegs and adjustable tension straps. No rear wall allows for full access to the vehicle. Mud/storm flaps at the bottom of each wall.

Tents, Awnings & Shelters

Wind Break

DA6829	2,500mm
DA6844	2,100mm
DA6840	2,000mm
813300 NEW	1,250mm

Designed to angle out from ARB awnings, these wind breaks offer additional protection from the rain while also providing extra shade and sun protection. ARB wind breaks are ideal for creating extra protection and storage for items like swags and chairs under the awning. Manufactured from lightweight PU coated 300gsm poly cotton canvas. Waterproof and UV protected with a UVP 50+ rating. Tie down points for each wind break to further secure the awning. **Note** - Awning not included.

Mosquito Net

813101	2,500 x 2,500mm
DA6831	2,000 x 2,500mm

ARB mosquito nets are manufactured from double stitched, 48gsm midge proof mesh and are available for ARB awnings. Providing a comfortable area to eat and relax, this updated version is now larger and includes a mud/storm flap to reduce grass seeds and other debris from collecting in the lower section of the mesh. Hardened steel pegs are supplied to firmly anchor the room to the ground via adjustable tension straps.

ARB products available in the UK only.

4X4 ACCESSORIES

Deluxe Awning Room with Floor

DA1465	2000 x 2500mm
DA1466	2500 x 2500mm

Designed to function as a fully enclosed room or mosquito net, the new ARB deluxe awning room with floor provides protection from the weather, insects and provides additional privacy. Easy and quick to set up the ARB deluxe awning room can be used with 2500 and 2000 model awnings and features a durable waterproof floor and its own separate ceiling to help keep you cooler. All main wall panels incorporate zipper operated two way solid and mesh access doors for easy access and to accommodate changing weather conditions. Vehicle wall is solid zipper wall only.

- > Keep dry with waterproof walls made from Oxford Polyester
- > Long product life and sun protection thanks to UV treated materials
- > Enjoy a 'bug-free' environment with ultra-fine insect mesh
- > Heavy duty yet lightweight waterproof floor means a dry ground and compact storage
- > Organiser pockets perfect for phones, magazines and sunblock
- > Comes complete with guy ropes and steel pegs
- > Cable access ports for high mounted lighting solutions

Awning Room with Floor

813203	2,000 x 2,100mm
DA6832	2,500 x 2,100mm

Designed to function as a fully enclosed room, the awning with floor provides additional weather protection and privacy. The awning room can be used with ARB awnings and features a durable floor, two large mesh windows with roll up blinds and a zippered door with both solid and mesh panels. It is fully enclosed with an integrated roof that hangs just below the main awning canvas. Rear wall features a central door that can be used to directly access the vehicle rear door or canopy depending on awning mounting position. Access points for 12v/240v power leads. Supplied with hardened steel pegs and adjustable tension straps.

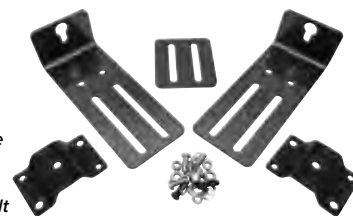

Aluminium Encased Awning

814102	2500 x 2500mm
---------------	---------------

Complementing the design and sophistication of modern 4WDs, ARB's aluminium encased awning offers a sleek and contemporary alternative to traditional awning covers while adding improved functionality. The three quick release bungee cords remove the need for zips while the flip-up lid provides unmatched simplicity. An added abrasion resistant material improves the protection of our proven 300gsm, PU coated, fully waterproofed and UV protected canvas while stowed and travelling. The awning is supported by heavy duty 1.2mm gauge x 25mm diameter expandable aluminium poles, anodised for greater corrosion resistance and perfect for setting up by the beach.

- > Aluminium housing offers strength and modern styling
- > Quick release bungee cords on a hinged lid for unmatched simplicity
- > Anodised aluminium for corrosion resistance, perfect for the beach
- > PU coated canvas provides a 100% waterproof overhead shelter
- > Ripstop canvas, a cross-hatched design, improves strength
- > Heavy-duty poles for greater resistance to poor weather conditions
- > Compatible with awning rooms, wind breaks and mesh multi-mat

Going one step further with your awning attachments is to have a quick release option. The ability to quickly unbolt your awning for storage or alternatively moving it to a different mounting place is now easier with the new ARB quick release awning brackets. See overleaf for more details.

Kit 3

813408 NEW
ARB quick release awning bracket
Kit 4

813409 NEW
ARB quick release awning bracket
Kit 5

Going one step further with your awning attachments is to have a quick release option. The ability to quickly unbolt your awning for storage or alternatively moving it to a different mounting place is now easier with the new ARB quick release awning brackets. The ARB quick release brackets provide excellent mounting options for all ARB awnings to their roof racks and cages. They provide the correct mounting and in nearly all cases with no drilling or modifications required to mount.

The new ARB quick release brackets are easily removable via a simple one bolt configuration. This allows for storage of the awning when it is not required on the vehicle, or the ability to move the awning between vehicles which further expands the versatility of the ARB awning.

Installing the Kit 4 bracket to the rear of the roof rack/cages allows your awning to be moved from the side of your vehicle to the rear of your vehicle in minutes when you are setting up for camping. This provides up to 2.5m of awning space at the rear of the vehicle. The awning will need to be moved back to the side of the vehicle while in transit.

Dual cab mounting with Kit 3 allows a full 2.5m awning to be fitted to the side of dual cabs with the correct 700mm overhang to be adhered too. ARB quick release brackets also provide excellent mounting options for wagons providing strength and durability where required.

Removing the awning when not required allows for reduced weight on the vehicle and additional security when the awning is not required.

ARB Track Shelter

816001 NEW

ARB Track Shelter Series II

816002 NEW

ARB Track Shelter Series II Hybrid Walls

Suited for a diverse range of outdoor uses, the ARB Track Shelter Series II provides protection from the elements including sun, wind or rain as well as a hideaway from bugs and mosquitoes thanks to optional mesh side walls. The 3,000 x 3,000mm structure is supported by a strong 40mm hammer stone steel frame that houses the 420 denier polyester silver-coated material canopy. As an optional extra (816002), the new ARB Track Shelter Hybrid Walls can be attached and rolled up to provide large mesh windows. **Note** - Not intended for use as a permanent structure.

Simpson Rooftop Tent & Annex DA8981

1,400mm (W) x 2,400mm (L) x 1,300mm (H)
The ARB Simpson III rooftop tent will provide the ultimate in ease and convenience when travelling. Unfolding in minutes, a rooftop tent provides sleeping quarters off the ground, protected from the elements. Spacious and comfortable, all bedding can remain inside the tent during the journey, freeing up vital storage space in the vehicle, and allowing the tent to be quickly and easily packed away. More images available online.

Features

- > Incorporates an updated design and new materials for better strength, rigidity and water resistance.
- > Manufactured from high quality, poly/cotton fabric.
- > Incorporates Oxford polyester flysheet with excellent water shedding ability.
- > Sturdy aluminium retractable ladder.
- > High density bonded chip foam mattress with removable cover for increased comfort and durability
- > Incorporates pull out veranda.
- > Insect screened windows and door.
- > UV stabilised laminated PVC cover.
- > Bungee cord system to assist when closing.
- > Easily mounted to ARB's purpose designed roof rack.
- > Can be configured to unfold off either the side or off the rear of the vehicle.
- > All aluminium components feature an anodized finish for improved corrosion resistance and appearance.
- > Comes complete with mounting hardware, wrenches, ladder, travel cover and comprehensive instructions.
- > ARB awnings can also be paired with the rooftop tent.

Replacement ARB Simpson III rooftop tent cover

ARB Mesh Multi Mat 813404

Providing a comfortable living space when touring or camping is key to enjoying those times with family and friends. The ARB Mesh Multi Mat keeps you and your gear clean, while minimizing the impact on the ground at campsites. The ARB Mesh Multi Mat comes with zinc coated preset eyelets to fit the legs of the ARB 2500mm awning and 2000mm awning, as well as the ARB Skydome single or double swag. The mat has been built so it can be used with the ARB awning as well as the swag at the same time. In addition to being a ground cover, the ARB Multi Mesh Mat also can be used as a shade sail providing protection from the sun.

ARB SkyDome Single Swag Tent SDS100

Dimensions
2150mm (L) x 900mm (W) x 800mm (H) to 450mm (H)
Weight - 10.5kg

Incorporating the latest in swag design and comfort, the ARB SkyDome swag has been designed from the ground up to meet the exact needs of 4WDers and tourers alike. To counter the claustrophobic feeling caused by some swags, ARB's SkyDome range has been designed with very generous dimensions. The industry-leading height from head to hip allows occupants to move around freely and spread out without feelings of confinement. The large mesh areas provide excellent ventilation to reduce internal condensation, with additional canvas flaps and insect-proof mesh in the roof zone of the Series II improving cross-flow ventilation to enhance airflow and make it cooler and even more comfortable during warmer nights. The freestanding architecture means ARB SkyDome swag require no pegs or guy ropes when deployed on flat surfaces. Matched with waterproof materials and a high-density corrugated 75mm foam mattress, the SkyDome will ensure a dry and comfortable night's sleep in any conditions.

- > 500gsm - rot & mildew proofed canvas
- > High tensile wax coated core spun thread
- > Ultra-fine 135gsm midge proof mesh
- > 970gsm PVC base
- > 75mm corrugated foam with anti-microbial treatments
- > Improved air ventilation
- > Genuine no#10 YKK zippers with anti-corrosion
- > 11mm aluminium poles

ARB BootSwag BSWAG

When designing the new range of SkyDome swags, the boot mat found on numerous other swags was intentionally omitted due to the nature of these flaps getting dirty and soiling the swag when rolled up. The BootSwag is ARB's creative solution to this challenge and features a zippered front flap, large boot mat and a dome section made from waterproof Oxford fabric. Being a standalone item, the BootSwag can also be used with other touring products including the ARB roof top tents where it can be placed at the foot of the ladder.

- > Boot swag - 460mm (L) x 500mm (W) x 340mm (H)
- > Boot mate - 580mm (L) x 500mm (W)
- > Waterproof, heavy-duty PVC base and boot mat
- > Designed to protect footwear from the elements at night
- > Manufactured from PU coated Oxford polyester for optimum water shedding ability
- > Free standing design with 4 pegs included
- > Durable fibreglass bows and rod
- > YKK zipper and nickel plated brass eyelets for corrosion resistance
- > PU coated Oxford polyester storage bag

ARB Mesh Multi Mat - continued

- > 2.5m (8.2ft) x 2.4m (7.9ft) floor space
- > 350gsm PVC coated, UV stabilized mesh fabric
- > Heavy duty, 50mm wide reinforced webbing
- > Corrosion resistance, black zinc coated eyelets
- > Preset eyelets to accommodate ARB Skydome Single and Double Swags

ARB SkyDome Double Swag Tent SDS200

Dimensions
2150mm (L) x 1,400mm (W) x 800mm (H) to 450mm (H)
Weight - 14kg

10100385

ARB Cargo Gear SkyDome Swag Bags 10100385

Single SkyDome Swag
1,000mm long x 450mm diameter

10100390

Double SkyDome Swag
1,500mm long x 450mm diameter

These ARB Cargo Gear bags have been developed specifically for storage and transit of the ARB SkyDome Swags. The bags feature molded rubber carry handles on either end along with a removable shoulder strap. Unique to the swag bags are four adjustable tie down straps integrated into the bag to allow it to be secured to a roof rack without the need for additional straps.

- > Outer shell made from tough, Oxford weave PU coated fabric and rubber panelling
- > All seams are heat sealed and taped to ensure storm proofing
- > Roll up top closure with 'Sure Grip' buckles to create water resistant seal
- > Removable body curve shoulder strap
- > Grab handles on either end of bag

4X4 ACCESSORIES

ARB products available
in the UK only.

- > Preset eyelets to accommodate ARB Awnings 2.5m and 2.0m
- > High tensile strength conforming to GB_T3923
- > Nylon carry bag with drawstrings for convenient storage
- > ARB brand patches to help identify orientation when setting up

Camping Chairs & Tables

DA8929

ARB Air Locker Camping Chair

Rated to 120kg and has a host of features, including a padded seat and backrest, convenient drink holder pouch, side pocket with Velcro flap for your keys, wallet or other small items, and a mesh magazine pocket on the rear of the backrest. Manufactured from durable nylon Oxford weave material, the chair also comes with a matching carry bag for compact storage and transportation.

10500101 NEW

ARB Camping Chair

Rated to 150kg. The ARB camping chair is built with quality and comfort in mind. Made from durable nylon Oxford weave. The chair also features a convenient drink holder table, side pocket, additional drink holder pouch and mesh magazine pocket. The zippered storage bag features a shoulder strap making it easy to transport and is ideal for protecting the chair from dirt and dust when not in use.

10500130 NEW

ARB Compact Aluminium Camp Table

The perfect size for packing neatly away into your vehicle, yet big enough to get a family of 4 around. Made from aluminium, the design utilises a full diameter aluminium slat providing a strong sturdy surface, as well as heat resistance for cooking preparation. A great place for dinners or another storage spot to keep your camp items off the ground. Cross braces are used to provide additional support providing a unique sturdiness not seen in similar tables. Pack up size is great which is all neatly stored away in a compact bag.

- > Table surface size - 860 (L) x 700 (W) x 700mm (H)
- > 22 x 22mm black anodised legs
- > 600D PVC back nylon carry bag
- > Table can hold up to 30kg when assembled
- > Unique table pins to keep table together if moved
- > Folds up easy for carrying and compact storage - 880 (L) x 210 (W) x 125mm (H)

|-------------------|-----------------|
| 814205 NEW | 2,000 x 2,500mm |
| 814105 NEW | 2,500 x 2,500mm |

All packed up into one handy kit, the ARB awning & light kit includes both the ARB awning and an LED light strip in the awning roof to keep your camp shelter and lighting solutions together. Ready for your next adventure the self standing awning takes 30 seconds to deploy. Beneath the awning's tough PU coated 300gsm poly/cotton rip stop canvas, the high heat resistant LED light strip provides up to 1200 lumens, with a choice of two different colour modes (cool white or amber) and dimmer switch; all powered via a fused 12V interior dash socket plug with 4m of waterproof cable. The awning provides UV protection and is completely waterproof and is secured in UV stable laminated PVC bag. Easy set up with height adjustable telescopic legs and guy ropes and pegs supplied for windy conditions.

Internal features

- > **Dairy compartment** - optimised internal capacity includes separate compartment for fruit and dairy products.
- > **Reversible basket with divider** - multiple storage options by separating fridge contents or alternatively allowing longer items to be positioned along the length of the cabinet.
- > **Drain plug** - integrated into fridge base for effortless cleaning.
- > **Integrated evaporator** - designed as an integral part of the interior cabinet, ensuring simplified cleaning and optimum use of internal storage space.
- > **Internal LED light** - low power draw LED light with magnetic switch turns off when lid is closed.

External features

- > **Secop compressor** - highest quality, Secop Compressor with smart electronic control system enables rapid cool down to target temperature.
- > **Durable detent hinge** - stainless steel detent hinge ensures the lid can be easily released and securely slid back into place.
- > **Rear clips** - rear clips secure 12/24v and 100-240v cables, preventing the plug from being accidentally disconnected.
- > **Lid with integrated seal** - tough, two piece injection moulded lid incorporates a recessed seal, preventing excessive wear and damage.
- > **Front latch** - simple to use, large over-centre cam lock latch provides a positive seal between the lid and cabinet for maximum cooling efficiency.
- > **Control panel** - easily accessible, recessed front control panel with maintenance-free digital temperature display (no dedicated battery required).
- > **Recessed handles** - powder coated steel handles, engineered to double as tie down points.
- > **Durable case** - powder coated, robust zinc steel cabinet sides designed to withstand extreme off road conditions.
- > **Rubber feet** - integrated into fridge base for increased grip and stability.

CONTROL BY APP

FRIDGE FREEZER SLIDE & TIE-DOWN KIT

Overview

The tried and proven ARB Fridge Freezer has been keeping food and drinks cold for many years now they've been given a fresh new look and some cool little upgrades! One of the most exciting new updates is the free transmitter module which allows remote display and control via an Android or Apple Smartphone or ARB LINX device. A colour scheme inspired by the ARB Jack, the gun-metal fridge body contrasts perfectly with the black plastics and will look right at home in the back of a wagon, underneath an ARB Canopy. See all the updates, features and benefits of these fridge freezers - www.britpart.com/fridges

Communication

A new transmitting module has been introduced that utilises Bluetooth® connectivity allowing both monitoring and control of your Series 2 Fridge/Freezer. Whether you're in the driver's seat or relaxing in your camp chair, keeping an eye on the temperature of your beers has never been so easy - it can all be done on your Apple or Android Smartphone or ARB LINX device. For existing ARB Fridge customers, the new transmitter is also backwards compatible on any ARB Fridge manufactured post 2014 however, functionality is limited to display only - see website for more details.

More information is available online at www.britpart.com

DA8933 ARB Remote Fridge Freezer Monitor

Allows you to monitor the operating condition of your ARB fridge/freezer from the comfort of your driving seat.

- > Multiple receiving channels for minimised transmission disruptions.
- > Large easy viewing backlit display.
- > Ability to monitor 2 ARB fridge/freezers.
- > 30m line of sight or 15m interrupted transmission.
- > Quick release bracket for easy removal of LCD display.
- > Temperature displayed in either °C or °F.
- > Power supply 12V.

ARB Fridge Freezer Transit Bags

Shields your fridge from dents and scratches while also providing additional insulation in extreme temperatures. Made of tough, durable canvas, the functional ARB transit bag features a handy side pocket for items such as the power cord or instruction booklet, as well as openings for the fridge's rubber feet, power cables and drain plug hole. And most importantly, includes an ARB bottle opener!

- > Power input: Approx. 3 A/36 W
- > Capacity: 14 litres
- > Cooling capacity: Max. 25°C below ambient temp
- > Insulation: 20mm solid polyurethane foam; 10mm expanded foam
- > Cooling unit: Thermoelectric elements, cooling only
- > Size: Height 380mm x length 380mm x width 220mm

Camping Bags & Cases

ARB Stormproof Bags

The ARB Stormproof bags have a large roll-up (non-zip) opening - perfect access for packing and unpacking your contents. This unique roll-up opening with side tie down buckles creates a waterproof and dustproof environment, allowing you to store your cargo bag outside or transport it on your ARB roof rack. All ARB Stormproof bags now feature looped webbing straps on each side of the bag. The larger end loops accommodate tie down straps to retain your bag on the roof rack during transport with the other loop webbing straps suitable for attaching additional gear or hooks to the exterior of your ARB bag.

Features & Benefits

- > Polyester waterproof shell
- > PVC abrasion resistant base materials
- > New gear loops
- > Quick release buckles
- > Tie down loops, perfect for ratchet tie downs (fits ARB tie downs, and others)
- > Stone coloured polyester
- > Strong double stitched webbing carry handle
- > Exterior mesh quick access pocket
- > Convenient shoulder strap included
- > Styled ARB logo

ARB-4344 NEW

ARB Utility Case

The ARB Utility Case makes finding your gear when you arrive at your destination a nice and easy. It has a total of eighteen storage pockets that are perfect for storing cutlery, cooking utensils and other trail necessities with the added feature of a large removable pocket. The internal permanent pocket provides storage for plates. The inner compartment is built with heavy-duty mesh sections for storage of quick-to-reach items such as napkins, spices, or sauces. Housing all of your kitchen utensils is ten various sized smaller pockets with secure

straps to keep your utensils from moving around. On the sides are slip pockets for small chopping boards or other flat objects. Finally, a paper towel roll holder enables a quick clean-up and is secured with easy-slide steel buckles. Not only is this utility case great for your kitchen setup, it can also function as a trail tool kit. The utility case can be zipped up using the heavy-duty zipper providing easy access to your kit anytime.

Features & Benefits

- > 18 various size pockets for all your storage needs
- > Great for cooking utensils & cutlery, or tools
- > Handy removable pocket to store camping mugs or

bulky items

- > Removable pocket has velcro/hook touch tape so it can be secured to drawer carpet
- > Webbing straps with metal hooks to allow suspension from the ARB Track Shelter or ARB Awning
- > Webbing strap to hold your paper towel roll
- > Rubber grip handle for carrying
- > Heavy-duty zipper to close neatly for stowage in an ARB Drawer system
- > Rubber ring pull to glide zipper open and closed - great if you're wearing gloves
- > Made from 600D heavy-duty poly Oxford material

Dog Ramp

See it in action at
www.britpart.com/DA1631

Haynes Internal Combustion Engines

DA4817

DA4310

DA4817

Build a fully functional, motorised model of a V8 petrol engine. Features sound recorded from a real V8 and illuminating spark plugs. The kit contains nearly 300 pieces and all that you need to assemble the model. It is supplied with a Haynes style manual giving you clear step-by-step instructions as well as interesting information about real V8 engines.

DA4310

Build a realistic working model of a combustion engine. Includes light and sound features, light up spark plugs, moving pistons, valve gear, fan belt and 'Haynes Manual'. Finished model size - 180 x 270 x 140mm (H x W x D)

Build a working model of an engine.

Remote Control Defender

Defender Remote Control Model

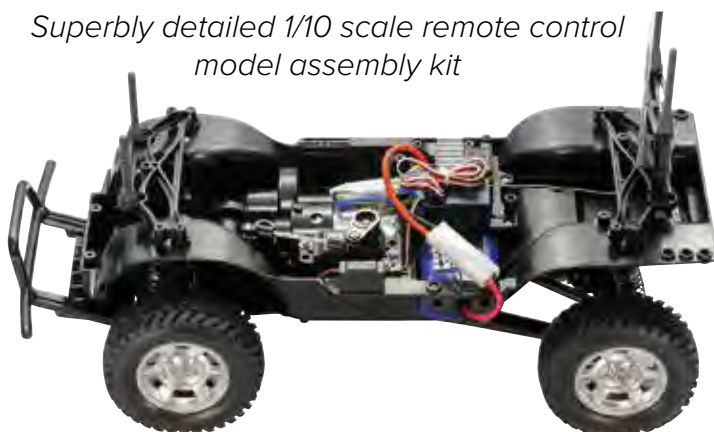

DA1626

From Tamiya R/C - this is a superbly detailed 1/10 scale remote control model assembly kit of an early version of the Defender 90. **The model's bodywork needs painting - ideal for having the chance to match your own Defender's colour!**

- > Length - 457mm x width - 200mm x height - 214mm. Wheelbase - 242mm
- > The Defender 90 form is accurately captured by the polycarbonate body, with slide moulding used for great detail such as rear panel surfaces.
- > Includes separately moulded parts for grille, side mirrors, light cases and tyre cover.
- > Compatible with 5mm diameter LEDs (white) x 2 for headlights and 5mm diameter LEDs x 6 for the rear.
- > Matt plated wheels are paired with realistic tyres featuring authentic tread pattern.
- > Highly reliable CC-01 chassis features a full-time 4WD system and front double wishbone, rear 4-link rigid suspension equipped with 4 CVA oil dampers.
- > An expansive range of option parts is available to customise the CC-01 chassis. The CC-01 chassis is Tamiya's ultimate platform for mounting precise scale renditions of off road chassis. With built in wheel arches, sealed front and rear gear boxes with precision engineered differentials and shaft driven 4WD via universal joints, it replicates all the rugged realism of the Defender 90 - as such it is the ultimate platform to carry this iconic body.

Superbly detailed 1/10 scale remote control model assembly kit

NOTE - The remote control is not supplied with the model and needs to be purchased separately.

Remote Control System

DA1627

- > Operating voltage transmitter 4.8 – 6V
- > 2.4GHz system
- > Two continuously variable, fully proportional channels
- > Servo reverse for both channels (change of running direction)
- > Trimming function for acceleration and steering
- > Power supply of the BEC receiver possible via driving battery with 4.8 – 7.2V
- > Connector system for Futaba and Graupner JR
- > Charging socket (positive pole inside)
- > Battery charge level display by means of LED
- > 4 Channel receiver
- > Transmitter batteries
- > Battery pack NiMH 7.2V/2100 mAh
- > Plug charge (Output 9V/300 mA)

Die-cast Models

Collectable and detailed die-cast metal models

1:18 Scale Model
DA1219
 Range Rover Evoque - 2-door Red
 This very detailed die-cast Evoque replica is not a toy and is not suitable for children under 14. The model is 245mm long x 120mm wide x 95mm high. Opening doors, boot and even the side mirrors fold on this superb scaled replica which is a must for all collectors and enthusiasts.

DA1526 1:76 scale models
 One vehicle synonymous with military operations around the world is the Land Rover.

Its many roles include cargo and troop transport, ambulance, reconnaissance, bomb disposal, communications and line laying. Represented here are a small number of the many types and liveries used by all three forces dating from the late 1940s to the current day.

1:43 Scale Model

DA1655 NEW	Silver	Painted finish

Fully licensed by Land Rover, these Defender 12V electric toys are suitable for children aged 3 to 8. These toys are well equipped with features such as EVA wheels for reduced 'road noise', shock absorbers for a comfortable ride and working LED lights. MP3 connectivity means your little ones can listen to their favourite music as they drive around. The cars can be controlled by either the child driving or by a parent with the remote control handset. 2.7GHz radio control ensures each car has its own frequency so can't be controlled by anything else - ideal if you have two Defenders in the same location. With opening doors, entry to the vehicle is nice and easy. Maximum load capacity - 30kg
Size - 1,400 x 750 x 650mm / Weight - 29.5kg

Features

- > 12V 7AH battery
- > Power indicator display
- > One button start
- > Working LED lights
- > Two leather effect seats which can be adjusted backwards and forwards
- > Opening side doors
- > Opening bonnet
- > Rear tailgate with storage space
- > 2 shock absorbers
- > Seat belt
- > MP3 connection
- > Two forward and reverse gears
- > 2.7GHz radio control
- > Easy to assemble
- > Hidden grab handle and wheels for easy manoeuvring

And for smaller Land Rover fans we have these! Fully licensed by Land Rover, these Defender 6V electric toys are suitable for children aged 3 to 7. These toys are equipped with working LED lights and realistic engine sounds. MP3 connectivity means your little ones can listen to their favourite music as they drive around. The cars can be controlled by either the child driving or by a parent with the remote control handset. 2.4GHz radio control ensures each car has its own frequency so can't be controlled by anything else - ideal if you have two Defenders in the same location. Maximum load capacity - 20kg / Size - 780 x 410 x 490mm / Weight - 10kg

Features

- > 6V 4.5AH battery
- > Power indicator display
- > Working LED headlights
- > Seat belt for added safety
- > Realistic engine sounds
- > MP3 connection
- > Forward and reverse gears
- > 2.4GHz radio control
- > Easy to assemble

Let the fun begin!
